Abstract: This potential regulation would control emissions of 1,3-butadiene, ethylene oxide, ethylene dichloride, chloroform, carbon tetrachloride, perchloroethylene, trichloroethylene, and methylene chloride, as hazardous air pollutants under Section 112. The potential regulation would cover the production categories and some use categories for these eight pollutants. It would require installation of combustion devices to control process vents and an inspection and monitoring program to control leaks from pumps and valves.

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: An NSPS was proposed for this source category in 1980. Subsequently, in 1987, the Agency solicited public participation in information gathering in preparation for a decision on whether to regulate this source category under the NESHAP program, the NSPS program or both. NESHAP regulations are being developed which would apply to organic solvent cleaners (degreasers) and would control emissions of perchloroethylene, methylene chloride, and trichloroethylene from new and existing sources. The emissions reduction techniques that would be considered would be combinations of add-on controls, hardware and improved operating practices.

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206; 42 USC 7526 /CAA 207

CFR Citation: 40 CFR 86

Abstract: EPA will evaluate the imposition of requirements for passenger cars and light trucks for on-board vehicle diagnostic systems capable of detecting operational malfunctions within the emissions control system. Emission system failures often go undetected or are misdiagnosed resulting in excess emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen. On-board diagnostic systems, which are required in the California vehicle emissions program beginning with the 1988 model year, have the potential for improving air quality through the early detection and proper repair of emission system failures. This regulatory effort will be structured to complement existing and future State and local inspection and maintenance programs.

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: Through this action, EPA will propose more stringent hydro- carbon and CO emission standards for light-duty trucks based upon the belief that very cost-effective hydrocarbon control is available from these vehicles. The proposed standards would be set at levels which could be met by applying currently available passenger car control technology to light trucks. The Agency is currently awaiting CAA changes, as light-duty truck standards are likely to be affected.

Abstract: EPA's current carbon monoxide (CO) emission standards are applicable to the 68 degree to 86 degree fahrenheit temperature range of the current Federal Test Procedure. 3354. REVISIONS TO THE STACK HEIGHT REGULATION

Legal Authority: 42 USC 7423/CAA 123

CFR Citation: 40 CFR 51.100

Legal Deadline: None

Abstract: Under the Clean Air Act, emission limitations for sources are generally determined on the basis of local, ground-level concentrations of pollutants. In the absence of laws and/or regulations prohibiting such action, a source can lower the local ground-level ambient pollutant concentrations not only by reducing the amount of pollutants it emits into the air, but also by raising the physical height of its stack or using other dispersion techniques. Section 123, which was added to the CAA by the 1977 Amendments, restricts the manner in which techniques for dispersion of pollutants from a source may be considered in setting emission limitations. The EPA promulgated the current stack height regulation on July 8, 1985. On January 22, 1988, the U.S. Court of Appeals for the D.C. Circuit upheld EPA's regulation except for three provisions which were remanded to the Agency for proceedings consistent with the court's opinion. The purpose of this action is to revise the stack height regulation in accordance with the January 22, 1988 court decision. (cont)

ABSTRACT CONT: The court remanded two grandfathering provisions which allow dispersion credit, including credit for certain stack height increases. The decision also remanded the allowance of dispersion credit for sources with originally designed and constructed merged stacks. The court concluded that exclusion of these groups of sources from the regulation's restrictions was not adequately supported. The EPA is analyzing the court decision to determine whether further support should be offered for the current provisions or whether the regulations should be revised to limit or delete these exclusionary provisions. The Agency's regulatory decisions and any rule revisions will be proposed for public comment in the Federal Register before final action is taken.

3355. NONCONFORMANCE PENALTIES FOR 1991 THROUGH 1994 MODEL YEAR EMISSION STANDARDS FOR HEAVY-DUTY VEHICLES AND ENGINES

Legal Authority: 42 USC 7524 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1991 through 1994 model year emission standards for heavy-duty vehicles and engines. The availability of NCPs will allow a manufacturer, whose vehicles or engines fail to conform with certain

applicable emission standards, but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This rule is the third phase of NCP rulemaking. The first, published August 30, 1985, established generic aspects of NCPs. The second, published December 31, 1985, addressed NCPs applicable to 1987 through 1990 model years.

Legal Authority: 42 USC 7410 /CAA 110; 42 USC 7491 /CAA 169A

CFR Citation: 40 CFR 52

Abstract: Section 169A of the CAA requires that State Implementation Plans (SIPs) contain provisions to remedy existing and prevent future visibility impairment in certain national parks and wilderness areas. In 1980, EPA promulgated guideline regulations for States to follow in developing their SIP revisions (40 CFR 51.300-307). Many States failed to submit adequate visibility SIPs and EPA was sued to force the Agency to promulgate SIPs for such States. EPA entered into a consent decree under which it agreed to promulgate SIPs implementing the requirements of the visibility regulations in States that have not submitted adequate SIPs. This activity was divided into four parts, three of which have been completed. Part IV is being separated into two parts. This Agenda entry covers decisions on whether to attribute visibility impairment in Maine and Utah to specific sources. A separate Agenda entry covers regulations to remedy visibility impairment in the Grand Canyon.

3369. STATE IMPLEMENTATION PLANS: POLICY ON POST-1987 OZONE AND CARBON MONOXIDE PLAN REVISIONS FOR AREAS NOT ATTAINING THE NATIONAL AMBIENT AIR QUALITY STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 7401 et seq/CAA

CFR Citation: 40 CFR Not applicable

Legal Deadline: None

Abstract: The EPA is developing a program to deal with the many areas in the country that did not attain the national ambient air quality standards (NAAQS) for ozone and carbon monoxide (CO) by December 31, 1987, the latest date for attainment expressly identified in the Clean Air Act. This notice describes EPA's views about how EPA should interpret the Act so as to bring those areas into attainment. Because this program would be greatly affected or superseded by pending CAA amendments, this project is currently on hold.

CFR Citation: 40 CFR 60

Legal Deadline: NPRM, Judicial, November 30, 1989. Final, Judicial, December 31, 1990.

Abstract: The EPA has completed a preliminary assessment of air emissions from municipal waste combustors (MWC). Based on this assessment, EPA has concluded that MWC emissions may reasonably be anticipated to contribute to the endangerment of public health and welfare. As a result, EPA issued a notice in the Federal Register (52 FR 25399) that announces its intent to regulate emissions from new and modified MWC under Section 111(b). Pollutants to be regulated will include one or more designated pollutants (pollutants not regulated under Sections 108-110 or 112) thus invoking Section 111(d) which will require States to develop additional emissions standards for existing MWC based on EPA guidelines.

Significance: Regulatory Program

Legal Authority: 42 USC 7401 /et. seq CAA

CFR Citation: 40 CFR 50; 40 CFR 52

Legal Deadline: None

Abstract: Since 1977, EPA has allowed States with rural fugitive dust areas (RFDAs) to discount fugitive dust in developing and enforcing a State Implementation Plan(SIP) for attainment and maintenance of the NAAQS for particulate matter (PM). On July 1, 1987, EPA promulgated revisions to its particulate matter National Ambient Air Quality Standards (NAAQS), 52 FR 24634. In this notice, EPA also solicited comments on alternatives for SIP requirements for RFDAs and on the adequacy of the definitions which are used in identifying RFDAs, and the importance of protecting annual versus 24-hour NAAQS (52 FR 24716). The EPA will issue its decision after considering public comments on the alternatives. The EPA will continue its existing fugitive policy and apply it to implementation of the revised particulate standard until a decision is made.

Abstract: The Agency is considering revisions to the Asbestos NESHAP to enhance enforcement and promote compliance with the standards. The revision would require monitoring and proper operation and maintenance of air pollution control devices used by asbestos milling, manufacturing, and fabricating sources. It also would require additional clarifications to work practice and would add additional recordkeeping provisions for demolition and renovation operations, including asbestos waste disposal.

CFR Citation: 40 CFR 52.21; 40 CFR 51.166

Legal Deadline: Final, Statutory, July 1, 1989.

Abstract: The purpose of this action is to promulgate prevention of significant deterioration "increments" for the new indicator for particulate matter, PM10. The existing PSD program has particulate matter increments based on the original TSP indicator. The EPA has not promulgated a PM10 NAAQS to replace the original TSP-based particulate matter NAAQs. Therefore, EPA is preparing to revise the PSD program by promulgating PM10 increments in accordance with Section 166 of the Clean Air Act.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206

CFR Citation: 40 CFR 86

Abstract: In conjunction with testing in support of EPA's regulatory effort to control motor vehicle vapor emissions, EPA determined that significant evaporative hydrocarbon emissions can occur when a motor vehicle is running. Such emissions are defined by EPA as "running losses." Testing has shown that running losses can be particularly high on hot summer days which are also conducive to ozone formation. Through this action, EPA will evaluate revisions to the motor vehicle test procedures for evaporative hydrocarbons in order to reduce running losses.

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. A major reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. On March 22, EPA promulgated a rule limiting the summertime volatility of gasoline. EPA will continue to assess whether additional control of gasoline volatility is cost-effective and reasonable.

3378. TRADING AND BANKING OF HEAVY-DUTY ENGINE NOX AND PM EMISSION CREDITS

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In March 1985 the EPA promulgated NOx and PM emission standards for heavy-duty vehicles and engines. The rulemaking included a provision for emissions averaging for the final stages of standard implementation in order to mitigate the economic impact of the stringent standards. EPA realized that the averaging mechanism could provide more benefits to manufacturers with a broader product line. In order to address this issue, EPA included in the final package a provision to study the potential for mitigating this uneven distribution of benefits through an emissions credit trading program. The study was expanded to include the concept of 'banking' emissions credits. The study was completed and the Agency made it available to the public and a technical workshop was held in January 1987. EPA proposed a comprehensive trading and banking program for heavy-duty engines in May 1989.

Legal Authority: 42 USC 7541 /CAA 207

CFR Citation: 40 CFR 85

Abstract: This action will consider allowing alternative dynamometer specifications for an existing loaded-mode short test approved for use in State and local inspection/maintenance programs in conjunction with the federal emissions performance warranty regulations. The alternative specifications the Agency is considering would allow lower loading, perhaps varying by engine size. Such a change could improve overall test effectiveness for identifying excess in-use emissions and correlation with the Federal Test Procedure. Significance: Regulatory Program

EPA—CAA **Final Rule Stage**

Legal Authority: 42 USC 7545 / CAA 211

Abstract: Trap oxidizers, the use of which may be required to meet future heavy-duty diesel particulate standards, may require the use of low sulfur diesel fuels. Catalyst technology, where used, will require low sulfur fuels. In promulgating stringent 1991 and 1994 particulate standards for heavy-duty engines, EPA promised to examine the potential need for low-sulfur fuel. In particular, fuel sulfur and aromatics content have been shown to have a direct effect on particulate emissions. This action will consider the costs and benefits of improving diesel fuel quality.

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I to N

Legal Deadline: None

Abstract: The purpose of this action is to investigate the health impact of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach, with Phase I concerning organic emission leaks and vents, Phase II concerns hazardous waste storage tanks and impoundments, and Phase III deals with residual risks from particular hazardous organic constituents.

Abstract: Under CERCLA, potentially responsible parties defined under Section 107(a) are liable for the cost of cleanup of superfund sites. It is Agency policy to pursue those potentially responsible parties in court for costs expended if a cleanup settlement is not reached. As a defense to cost recovery actions, PRPs have increasingly focused on the tactic of investigating the documentation supporting EPA's cost recovery efforts. Rulemaking can be used to present the Agency's views on how to identify the specific recoverable costs, the documentation sufficient to prove EPA's case, and the documents that will be available to PRPs. The cost recovery regulation is designed to make the process more efficient. The regulation will address issues such as: direct costs, indirect costs, recovery of interest, and oversight costs.

Abstract: Subpart K of the NCP, entitled "Federal Facilities", is a roadmap to the entire NCP for Federal facilities. It consolidates in one subpart of the NCP references to the requirements in the other subparts that Federal agencies must follow when conducting CERCLA response actions where the release is on, or where the sole source of the release is from, their facility.

3398. ADMINISTRATIVE HEARING PROCEDURE FOR SUPERFUND CLAIMS

Legal Authority: 42 USC 9612(b) /CERCLA 112(b)

CFR Citation: 40 CFR 305

Legal Deadline: None

Abstract: Section 112(b)(2) of CERCLA as amended, provides that a person who has made a claim against the Superfund and is dissatisfied with the award by EPA may request an administrative hearing. Such hearings shall be before an administrative law judge. The purpose of this rule would be to establish procedures for conducting administrative hearings. The procedures of this rule would replace the Arbitration procedures, formerly codified at 40 CFR Part 305, revoked as a result of the amendments to section 112.

3399. DESIGNATION OF EXTREMELY HAZARDOUS SUBSTANCES AS CERCLA HAZARDOUS SUBSTANCES

Significance: Regulatory Program

Legal Authority: 42 USC 9602 /CERCLA 102

CFR Citation: 40 CFR 302

Legal Deadline: None

Abstract: This rule will designate 232 non-CERCLA extremely hazardous substances (EHS), as defined in Section 302 of SARA Title III, as hazardous substances pursuant to Section 102 of CERCLA. Currently, only releases of those EHSs that are also CERCLA hazardous substances are required to be reported to the National Response Center under CERCLA Section 103. Upon designation, potential confusion concerning the different SARA Title III and CERCLA requirements will be reduced by ensuring consistent procedures for reporting releases of all EHSs.

Significance: Regulatory Program

Legal Authority: 42 USC 11002 / SARA 302; 42 USC 9602 /CERCLA 102

CFR Citation: 40 CFR 302

Legal Deadline: None

Abstract: This action will adjust the reportable quantities (RQs) for 232 substances on the Extremely Hazardous Substances List, which EPA has proposed for designation as CERCLA hazardous substances. These RQ adjustments will reduce unnecessary reporting of releases to local, State, and Federal officials.

CFR Citation: 40 CFR 300.440

Legal Deadline: None

Abstract: This rule interprets and codifies (1) the requirements of Section 121(d)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) and (2) the revised off-site policy directive (November 13, 1987). Section 121(d)(3) and the directive describe

procedures that must be observed when a response action funded under CERCLA or using a CERCLA authority involves off-site transfer of CERCLA wastes. CERCLA Sec. 121(d)(3) specifies that wastes from removal or remedial actions under CERCLA: 1) only be transferred to facilities that are in compliance with Sections 3004 and 3005 of the Resource Conservation and Recovery Act (RCRA), other applicable Federal laws and State laws, and 2) only be transferred to units at hazardous waste land disposal facilities that are not leaking and where releases from other (non-receiving) units at the facility are under a corrective action program. The rule prescribes procedures where by affected facilities may ask EPA for review of the off-site acceptability determinations.

Significance: Regulatory Program

CFR Citation: 40 CFR 300

Legal Deadline: Final, Statutory.

Abstract: This action revises the Hazard Ranking System (HRS) which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative risk among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. CERCLA, as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986, requires the HRS be amended to assure, to the extent feasible, that it accurately assesses relative risk to public health and the environment. SARA specifically requires that the HRS take into consideration a number of factors including natural resource damages that may affect the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters used for drinking or recreation.

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency Plan (NCP). CERCLA requires that the NPL be revised at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. Legal Authority: 42 USC 9620/CERCLA 120

CFR Citation: 40 CFR 373

Legal Deadline: Final, Statutory, April 17, 1988.

Abstract: Section 120(h) of CERCLA requires disclosure of the type and quantity of any hazardous substances that have been stored, released or disposed of on federally owned land when such land is sold or otherwise transferred by the U.S. Section 120(h)(2) directs EPA, after consultation with the General Services Administration, to promulgate regulations regarding the form and maneuver of such notice. This section of SARA requires that the agencies holding such land provide, at the time of transfer, a covenant warranting that: (1) all remedial actions necessary for protection of human health and environment have been taken; and (2) any additional action found to be necessary after the transfer will be undertaken by the U.S. EPA is not required to develop rules concerning these latter requirements and is not doing so.

Abstract: Under Title III of SARA, EPA has authority to establish thresholds below which facilities do not have to report. In the rule published on October 15, 1987, EPA set reporting thresholds for the first two years of reporting. At

the same time, the Agency made a commitment to further evaluate the appropriate level for a final threshold. The proposed rule set forth the proposed permanent threshold for reporting as well as proposed amendments to the sections 302, 304, and 313 final rules. The final rule will establish a uniform final reporting threshold for Sections 311 and 312, and will finalize other amendments.

3428. PROCEDURES AND REQUIREMENTS IMPLEMENTING THE NATIONAL ENVIRONMENTAL POLICY ACT FOR THE EPA'S RESEARCH AND DEVELOPMENT PROGRAM AND FOR PUBLIC AND OTHER FEDERAL AGENCY INVOLVEMENT

Legal Authority: 42 USC 4321

CFR Citation: 40 CFR 6.700

Legal Deadline: None

Abstract: This action amends EPA's National Environmental Policy Act (NEPA) regulation in 40 CFR Part 6, Subpart G which addresses the environmental review procedures for research and development projects undertaken by EPA's Office of Research and Development (ORD). The purpose of this rulemaking is to develop procedures for categorically excluding classes of ORD actions having no significant impact on the environment, from the requirement to prepare an environmental assessment (EA) or an environmental impact statement (EIS). The rulemaking also clarifies the criteria under which EPA would be required to prepare an EIS. This rulemaking will enable EPA to focus its resources on assessing research and development projects which have the potential to significantly affect the environment. The revisions are consistent with the Council on Environmental Quality's NEPA regulation in 40 CFR Parts 1500-1508.(cont)]

The proposed rulemaking would eliminate the current Agency requirement for public notice of EPA's categorical exclusion determinations, except for the Construction Grants projects. This revision would make the regulation consistent with CEQ and other federal agency NEPA regulations.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. chapter 6. The agenda contains all regulations which are scheduled for review or development during the next 12 months.

FOR FURTHER INFORMATION CONTACT: Irene L. Hill, Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 1801 "L" Street NW., Washington, DC 20507; telephone (202) 663-4689.

SUPPLEMENTARY INFORMATION: The Commission identified nine current and projected rulemakings for inclusion in the agenda. Two of the listings have been published as ANPRMs. Two have been published as NPRMs. Five are currently under development or review by Commission staff.

Signed in Washington, DC, this 20th day of February 1990.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

Significance: Agency Priority

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of

recommended changes and other affected agencies will be consulted under EO 12067.

Legal Authority: 29 USC 628 Age Discrimination in Employment Act

CFR Citation: 29 CFR 1627.15

Legal Deadline: None

Abstract: The purpose of the proposed amendment to 29 CFR 1627.15 is to give those covered by the ADEA more specific information about what they should do if they wish to seek an exemption from any or all of the ADEA's prohibitions. The advantage is that the establishment of a specific procedure will facilitate the processing of exemption requests.

3442. EARLY RETIREMENT PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 628

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The ADEA prohibits discrimination on the basis of age with respect to an employee's compensation, terms, conditions, or privileges of employment. In light of recent amendments to the ADEA and several cases dealing with early retirement, questions have arisen regarding the legality of early retirement plans in general and of specific plans. Since the use of early retirement has expanded greatly in recent years, the Commission deems it appropriate to consider the issuance of regulatory guidance in the area. The ANPRM seeks comment on issues such as voluntariness, plan structuring and eligibility to participate.

3443. POSSIBLE REVISIONS TO INTERPRETATIONS RELATING TO BENEFITS UNDER EMPLOYEE BENEFIT PLANS

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.10

Legal Deadline: None

Abstract: The current interpretive regulations at 29 CFR 1625.10 were framed in 1979. Since that time the ADEA has been amended in a manner that necessitates considering revisions to the regulations, for example, the addition of sec. 4(g) to the Act and the lifting of the age 70 cap. Accordingly, the Commission requested public comment to determine whether revisions are necessary and, if so, the nature and scope of any such revision. The continuing viability of this project will be assessed in light of the Supreme Court's decision in Public Employees Retirement System of Ohio v. Betts, 109 S. Ct. 2854 (1989).

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Semiannual Regulatory Agenda

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 "Federal Regulation," the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1990, to March 31, 1991.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact Susan Kantor Bank, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3543. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" directs each executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 *et seq.*

In fulfillment of requirements imposed by the Executive order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations and regulations which will be under review during the period April 1, 1990, to March 31, 1991. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published October 30, 1989, at 54 FR 45356.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations, and organizational and management matters.

Dated: February 23, 1990.

George W. Watson,

Acting General Counsel.

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) — Prerule Stage

3448. COMPREHENSIVE COOPERATIVE AGREEMENT (CCA) POLICIES, PROCEDURES, AND ASSOCIATED PROGRAMS

Legal Authority: 50 USC 2286; 50 USC 2251; 42 USC 5121; 42 USC 5151; 42 USC 7701; 42 USC 4001; PL 95-224; PL 96-295; PL 99-499; PL 93-288; PL 95-124; PL 90-488; PL 93-234; PL 90-577; EO 12148

CFR Citation: 44 CFR 305; 44 CFR 302; 44 CFR 360; 44 CFR 301; 5 CFR 900

Legal Deadline: None

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-38 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited.

Abstract: Section 544 of the Housing and Community Development Act of 1987 provided a new benefit to National Flood Insurance Program policyholders: Payment for demolition or relocation of an insured structure if it is located "along the shore of a lake or other body of water and is certified by appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels." FEMA published interim regulations on this subject on September 23 and November 2, 1988, and commissioned an investigation through the National Academy of Sciences to provide a basis for further regulations.

3463. CIVIL DEFENSE: STATE AND LOCAL EMERGENCY MANAGEMENT ASSISTANCE PROGRAM (EMA)

Legal Authority: 50 USC app 2253; Reorganization Plan No. 3 of 1978; EO 12148

CFR Citation: 44 CFR 302, (Revision)

Legal Deadline: None

Abstract: Changes within existing regulation to delete one allocation formula factor. The EMA Program currently has a 4 factor formula. The 5% factor and the 10% factor are so very similar in impact that for the sake of simplification they are to be combined. The formula will thus have only 3 factors. The concern of recipients is that no State will receive less funding than in the previous fiscal year to maintain staff strength. This will be ensured because the regulation change requires restoring any State to its prior year's level in any year when the funding is sufficient.

Unified Agenda of Federal Regulations

AGENCY: General Services Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA plans for the next 12 months and those actions that were completed since October 1989. This agenda was developed under the guidelines in OMB Bulletin 90-03, dated December 1, 1989. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: Rodney P. Lantier, Chief, Directives and Correspondence Management Branch, (202) 566-0666.

SUPPLEMENTARY INFORMATION: None of the regulations will have an effect on small businesses or other entities. None of the regulations listed are considered major under Executive Order 12291 "Federal Regulation."

Dated: February 26, 1990.

Richard G. Austin,

Acting Administrator of General Services.

3480. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, AND, WHERE APPLICABLE, SEX

Legal Authority: 40 USC 476; 42 USC 2000d-1; 20 USC 1681

CFR Citation: 41 CFR 101-8.2

Legal Deadline: None

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 508

Legal Deadline: None

Abstract: This proposed change to the GSAR will establish uniform procedures within GSA for purchasing from the National Industries for the Blind (NIB) or the National Industries for the Severely Handicapped (NISH) workshops. The proposed change also will establish a pricing for commodities and services which have an annual value of less than $50,000.

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 525

Legal Deadline: None

Abstract: The General Services Administration Acquisition Regulation was temporarily amended by revising section 525.502 to authorize GSA contracting activities to deviate from FAR clause 52.225-9. The deviation authorizes contracting officers to modify paragraphs (b) and (c) of the clause in order to delete the requirement to insert the Trade Agreements Act threshold in paragraph (b) and require the policies and procedures at FAR 25.402(a)(1) be used to evaluate offers in procurements subject to the Trade Agreements Act.

Legal Authority: 5 USC 5701 to 5709; EO 11609, July 22, 1971 (36 FR 13747)

CFR Citation: 41 CFR 301-15

Legal Deadline: None

Abstract: This rule prescribes requirements and procedures for the reporting of travel and relocation cost data by selected Federal agencies for the fiscal year 1988, 1989, and 1991. The Federal Civilian Employee and Contractor Travel Expenses Act of 1985, January 2, 1986, requires the Administrator of General Services to submit periodic analyses of agency payments for employee travel and relocation to the Director of the Office of Management and Budget (OMB). The analyses are to be based on a sampling survey of agencies each of which spent more than $5 million on employee travel and relocation during the previous fiscal year. The law further requires the selected agencies to provide the information necessary for preparing the analyses in a format prescribed by the Administrator and approval by the Director of OMB. This rule establishes a travel survey questionnaire as the format for reporting the required travel and relocation cost data. The economic impact of this rule has not been estimated to date.

Abstract: In response to recommendations by users of the FIRMR to revise the regulation to make it more readable and useful, GSA plans to restructure the FIRMR during the next few years. This restructuring will include: the separation of policies and procedures, the separation of contracting from management and use provisions, the reorganization of FIRMR contracting provisions for consistency with the Federal Acquisition Regulations, and the reorganization of the FIRMR's management and use provisions into a life cycle format. As the final draft of each subchapter is completed, GSA will seek public comment on the subchapter through a notice of proposed rulemaking. Subchapter D, which deals with acquisition, will be completed first and, if possible, issued as a final rule before publication of the entire FIRMR. An advanced notice of proposed rulemaking describing the project was published in the Federal Register in January 1988. A notice of proposed rulemaking for Subchapter D was published in the Federal Register in February 1989 and a notice of proposed rulemaking for Subchapter C which deals with management and use of Federal information processing resources was published in the (cont)

Abstract: A new and comprehensive permanent FPMR 101-17, Assignment and Utilization of Space, will improve the space delivery process for federal agencies by making it more efficient, more timely, and better able to deliver quality space that supports agency mission needs. The new FPMR will implement a new space assignment process that emphasizes client service; issue a new comprehensive move policy that clarifies roles and responsibilities; revise the GSA location policy to be more responsive to agency mission needs; revise the standard alterations, which agencies receive upon an initial move, to recognize modern office needs; and revise the space classification definitions to eliminate ambiguity. These changes will result in a more efficient space delivery process that will improve the overall efficiency of government operations. The assignment and utilization of federal space has been governed by a series of four temporary regulations since 1983. The current FPMR Temporary Regulation D-73 is outdated and is not comprehensive in its coverage of the process for acquisition and assignment of federal space. The new permanent FPMR will correct these problems.

National Archives and Records Administration

Semiannual Regulatory Agenda

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since October 1989. This agenda was developed under the guidelines in OMB Bulletin No. 90-03, dated December 1, 1989. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291 "Federal Regulation."

FOR FURTHER INFORMATION CONTACT: John A. Constance, Director, Policy and Program Analysis Division, (202) 523-3214.

Dated: February 27, 1990.

Claudine J. Weiher,

Acting Archivist of the United States.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA) — Proposed Rule Stage

3581. ● TRANSFER OF RECORDS TO FEDERAL RECORDS CENTERS

Legal Authority: 44 USC 2907

CFR Citation: 36 CFR 1228.152

Legal Deadline: None

Abstract: This rule will revise two aspects of transmitting records to Federal records centers. One aspect is to require agencies to attach box lists to the Standard Form 135, Records Transmittal and Receipt, when transmitting permanently scheduled, unscheduled or potentially archival records to Federal records centers. Many agencies already maintain such detailed listings for their own use in retrieving stored documents. This

information can also play a vital role in ensuring the identification and preservation of archival records in the National Archives. Inclusion of a copy of this information with the Standard Form 135 documenting the retirement of the records to the records center will increase NARA's assurance that the records will be properly preserved. The second change will restrict the transfer of permanent microfilm records to two records centers. Permanent microfilm records will only be accepted for storage at the Washington National Records Center and the National Personnel Records Center. This action is necessary to ensure proper storage of potential archival records.

3582. ● PHOTOGRAPHING AND FILMING THE EXTERIOR AND INTERIOR OF THE NATIONAL ARCHIVES BUILDING

Legal Authority: 44 USC 2104(a)

CFR Citation: 36 CFR 1280

Legal Deadline: None

Abstract: This change sets out NARA policy concerning commercial photographing or filming of the exterior and interior of the National Archives building and establishes procedures for requesting permission to film. The rule benefits the public by minimizing disruption to researchers and other visitors and ensuring the safety of the records in the custody of the National Archives without incurring any costs.

3585. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 44 USC 2104; 44 USC 2504

CFR Citation: 36 CFR 1207

Legal Deadline: None

Abstract: This action proposes a common rule updating and replacing agencies' implementation of OMB Circular A-110 with a single, government-wide common rule establishing consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to institutions of higher education, hospitals, other nonprofit organizations, and commercial or for-profit entities. This result is achieved by amending the common rule issued by the agencies on March 11, 1988, to similarly update and replace implementation of OMB Circular A-102. The provisions of the common rule are largely drawn from the existing departmental rules issued by the several agencies which in the past developed a single, comprehensive rule implementing the circulars. This proposed common rule contains fiscal and administrative requirements applicable to grantees.

3587. ● TEMPORARY EXHIBITION OF PRIVATELY OWNED MATERIAL IN THE NATIONAL ARCHIVES BUILDING

Legal Authority: 44 USC 2104(a)

CFR Citation: 36 CFR 1284

Legal Deadline: None

Abstract: NARA is proposing to publish its policy on temporary exhibition of privately owned items that are not part of a NARA exhibit. This policy is being issued because of limited display space and resources. The potential benefit to the government is to reduce costs of staff time spent preparing such items for display when they are not part of an ongoing educational program.

NATIONAL ENDOWMENT FOR THE HUMANITIES (NEH) — Proposed Rule Stage

3601. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES

Legal Authority: 42 USC 2000d to 2000d4

CFR Citation: 45 CFR 1110; 45 CFR 1173

Legal Deadline: None

Abstract: This proposed regulation implements Title VI of the Civil Rights Act of 1984, which prohibits discrimination on the basis of race, color, or national origin in federally assisted programs and activities, with respect to programs and activities receiving Federal financial assistance from the National Endowment for the Humanities.

Programs and activities receiving Federal financial assistance from the National Endowment for the Humanities are currently covered by a regulation implementing Title VI that was issued by the National Foundation on the Arts and the Humanities in 1973 (45 CFR 1110). The proposed rule will remove NEH programs from the coverage of the earlier rule and replace it with a new part applicable only to NEH-assisted programs and activities. Programs and activities assisted by the National Endowment for the Arts remain covered under the existing regulation.

Federal Regulation; Semiannual Regulations Agenda

AGENCY: National Science Foundation.

ACTION: Publication of semiannual regulations agenda.

SUMMARY: The National Science Foundation (NSF) publishes its semiannual agenda of regulations under development or review as required by Executive Order 12291 "Federal Regulation" (46 FR 13193, February 17, 1981). This agenda has been prepared in accordance with OMB Bulletin No. 90-03, Unified Agenda of Federal Regulations.

FOR FURTHER INFORMATION CONTACT: For additional information regarding any particular regulatory action contained in the agenda, contact the individual identified as the contact person in the agenda. Comments or inquiries of a general nature about the agenda should be directed to Sukari S. Smith, Office of the General Counsel, National Science Foundation, Washington, DC 20550, (202) 357-9435.

Dated: February 16, 1990.

Significance: Agency Priority

Legal Authority: 42 USC sec 1970; 16 USC sec 2405; 16 USC sec 2407; 16 USC sec 2408; 16 USC sec 2409; 16 USC sec 2411

CFR Citation: 45 CFR 671

Legal Deadline: None

Abstract: This action will amend NSF's regulations by adding a new Part 671 (45 CFR 671), entitled "Measures to Control Discharge and Disposal of Harmful Pollutants in Antarctica; Pollution Control Permitting Requirements." The Antarctic Conservation Act of 1978 requires NSF to issue regulations designating any substance that, if introduced into Antarctica, may create hazards to human health, harm living resources or marine life, damage amenities, or interfere with other legitimate uses of Antarctica. The Act also requires NSF to establish regulations and permitting procedures that prevent or control the discharge of such pollutants from any source within Antarctica.

Significance: Agency Priority

Legal Authority: 42 USC sec 1870; EO 12114; 16 USC sec 2405; 16 USC sec 2411

CFR Citation: 45 CFR 641

Legal Deadline: None

Abstract: This action will amend NSF's regulations by adding a new Part 641 (45 CFR 641), entitled "Environmental Impacts Abroad and Related Procedures." Executive Order 12114 directs every Federal agency to publish appropriate procedures for evaluating the environmental impacts of major Federal actions outside the United States, specifically "actions significantly affecting the environment of the global commons outside the jurisdiction of any nation (e.g., the oceans or Antarctica)." These regulations will set forth the procedures for assessing environmental impacts abroad, and determining the appropriate environmental review document to be used while making decisions concerning such major Federal actions.

3607. PATENTS

Legal Authority: 42 USC 1870(a) The Natl. Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Legal Deadline: None

Abstract: The Bayh-Dole Act (35 USC 200 et seq) was amended by Title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce has prepared a governmentwide implementing regulation. The Foundation's Patents regulation (45 CFR 650) conforms to it. Because the revision to the NSF patents regulation will merely echo a governmentwide regulation on which the public will have had an opportunity to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Final Action	00/00/00	

Small Entities Affected: None

Government Levels Affected: None

Additional Information: The notable changes to be made in the revision of the NSF patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

OFFICE OF GOVERNMENT ETHICS (OGE)

OFFICE OF GOVERNMENT ETHICS

5 CFR Ch. XVI

Semiannual Regulatory Agenda; April 1990

AGENCY: Office of Government Ethics.

ACTION: Semiannual agenda of substantive regulations.

SUMMARY: The following Office of Government Ethics (OGE) substantive regulations are scheduled for development or review during the period from April 1, 1990, through March 31, 1991. This agenda fulfills OGE's responsibility to publish a semiannual regulatory agenda under E.O. 12291 "Federal Regulation" and has been prepared in accordance with Office of Management and Budget Bulletin No. 90-03. None of the OGE regulations in this April 1990 agenda will have a significant economic impact on a substantial number of small entities as defined under the Regulatory Flexibility Act, 5 U.S.C. ch. 6. Furthermore, none of the listed OGE regulatory actions are major rules under E.O. 12291 nor procurement-related. Finally, the organizational and procedural rules of OGE, such as its future Freedom of Information Act and Privacy Act rules, are not listed herein. (See section 1(a)(3) of E.O. 12291.)

This is the first regulatory agenda published by OGE in its recently acquired separate executive agency status. (See Pub. L. 100-598 and 54 FR 50229-50231 (December 5, 1989).) OGE was formerly a part of the Office of Personnel Mangement (OPM), and its regulatory actions were included for the final time in OPM's agenda published last fall. (See 54 FR 45432, 45437 (October 30, 1989).) All of OGE's listed regulatory actions have now been assigned new OGE Regulation Identifier Numbers (RINs); the new RINs appear in this regulatory agenda. (For those items previously in the OPM agenda, while OGE was a part thereof, the old OPM RINs are also indicated.) This publication in the **Federal Register** does not impose a binding obligation on the Office of Government Ethics with respect to any particular item on its agenda. The dates shown for the future steps of each action are estimates and not commitments to act by the date shown. Moreover, substantive OGE regulatory actions, in addition to the entries listed, are not precluded. Finally, as noted above, OGE's procedural rules are not listed.

FOR FURTHER INFORMATION CONTACT: William E. Gressman, Office of Government Ethics, Suite 500, 1201 New York Avenue NW., Washington, DC 20005-3917; telephone (202/FTS) 523-5757, FAX (202/FTS) 523-6325.

Approved: March 21, 1990.

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Circulars and Policy Letters Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31, United States Code; Executive Order No. 11541; and other specific authority as cited. The agenda includes actions on issuances which are not guidelines but which are of public interest. While it is presented in the standard Governmentwide format of prerule, proposed rule, and final rule stages, the entries are not rules.

OMB Circulars and OFPP Policy Letters are policy guidelines that communicate Governmentwide policy of a continuing nature. For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda; c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell Johnson, (202) 395-7250, at the above address.

Dated: March 12, 1990.

Darrell A. Johnson,

Assistant Director for Administration.

3622. POLICIES ON GOVERNMENT PUBLICATIONS (CIRCULAR NO. A-3)

Legal Authority: 44 USC 1108

CFR Citation: None

Legal Deadline: None

Abstract: OMB Circular No. A-3, "Government Publications", last revised in May 1985, prescribes policies and procedures for approving funding for government periodicals to fulfill the requirements of 44 USC 1108, and for reporting periodicals and non-recurring publications. OMB is proposing to incorporate this Circular, with revisions, into OMB Circular No. A-130, "Management of Federal Information Resources" and published a proposed revision for comment on January 4, 1989. On June 15, 1989, OMB published a notice for comment summarizing comments on the January 1989 notice, presenting OMB reaction to comments, and further describing proposed revisions to Circular No. A-3. On August 18, 1989, OMB issued OMB Bulletin No. 89-15 which effected certain revisions to Circular A-3 in reporting requirements.

3625. "RULE OF ORIGIN" UNDER THE BUY AMERICAN ACT OF 1933 AS AMENDED

Significance: Agency Priority

Legal Authority: PL 100-418, Section 7002

CFR Citation: None

Legal Deadline: Other, Statutory, February 1990.
OFPP must present a report to Congress by February 1990 which includes policy guidance or recommended legislative changes on factors to be used in making determinations of country of origin.

Abstract: The Buy American Act (the Act) was enacted in 1933 to ensure Federal agencies gave domestic products priority in competition for government contracts. The Act provides that, unless it is inconsistent with the public interest or unreasonably costly, all materials and supplies purchased by any department of the Federal Government, and all materials and supplies furnished by contractors doing work for the Federal Government, be produced within the jurisdictional limits of the United States. In 1988, the Act was amended by several sections of Title VII of PL 100-418. among other things, the 1988 amendments, directed the Administrator of Federal Procurement Policy to "conduct an assessment of the rules currently used this Act for making determinations of country of origin and alternatives to

OMB **Prerule Stage**

such rules." In conducting this assessment, the administrator was directed to identify and evaluate reasonable alternative rules of origin, including one which requires that a determination be made on the basis of total cost. The results of this analysis, including policy guidance and recommended legislative changes,are to be submitted to designated committees of Congress by Feb. 90.

OFFICE OF PERSONNEL MANAGEMENT (OPM) — Proposed Rule Stage

3640. ORGANIZATION OF THE GOVERNMENT FOR PERSONNEL MANAGEMENT; PERSONNEL MANAGEMENT IN AGENCIES

Legal Authority: 5 USC 1104; 5 USC 1302; 5 USC 3301; 5 USC 3302; EO 10577

CFR Citation: 5 CFR 230; 5 CFR 250

Legal Deadline: None

Abstract: Deletes Part 230 and transfers its regulations to Part 250, to maintain parallel structure with 5 U.S.C. Combines material formerly in Part 230 with regulations now found in Part 250 to present all regulations on agencies' authorities for personnel management in a single part of the Code of Federal Regulations. Changes improve the technical integrity of the CFR by eliminating redundancies and improving the efficiency of OPM's regulations. No change in the coverage or substance of affected regulations.

CFR Citation: 5 CFR 293; 5 CFR 430

Legal Deadline: None

Abstract: Revises requirements for the Performance Management Systems for General Schedule and Prevailing Rate employees. Regulations will be streamlined to eliminate impediments to management flexibility while still assuring pay-for-performance systems. The section on filing and transfer of performance records contains a technical change that would bring the Official Personnel Folder (OPF) subpart into conformance with the Employee Performance Folder (EPF) subpart, indicating that performance ratings of record, and the performance plans on which they are based, may be filed in either the OPF or the EPF.

Significance: Regulatory Program

Legal Authority: 5 USC 5548(a); PL 101-173

CFR Citation: 5 CFR 550

Legal Deadline: None

Abstract: Public Law 101-173, November 27, 1989, amended 5 U.S.C. 5545(c)(2), effective in October 1990, to remove the GS-10, step 1, limit on the base rate of pay used to compute annual premium pay for administratively uncontrollable overtime (AUO) work. Under the amendment, AUO pay will be computed as a percentage (up to 25 percent) of an employee's full rate of basic pay, regardless of salary level. This amendment will affect higher graded law enforcement employees and others who receive AUO pay.

CFR Citation: 5 CFR 930, Subpart B

Legal Deadline: None

Abstract: OPM is proposing to amend its regulations governing the appointment, pay, and removal of administrative law judges. The proposed amendment would permit an administrative law judge to transfer to another agency before completing 1 year of service. If the gaining and losing agency agree to the transfer before the usually required 1 year of service following appointment is completed, such transfers should be permitted under the regulations so that the gaining agency does not have to request a variation from established regulations to effect the transfer.

Legal Authority: 5 USC 3301; 5 USC 3302; 5 USC 3304

CFR Citation: 5 CFR 300

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

3669. AMENDMENT TO SELECTIVE SERVICE REGISTRATION REQUIREMENTS

Legal Authority: 5 USC 3328

CFR Citation: 5 CFR 300, Subpart G

Legal Deadline: None

Abstract: We will issue a final rule delegating authority to agencies to determine whether a Federal job applicant's failure to register with the Selective Service System was knowing and willful. This change was authorized by an amendment to 5 USC 3328 which imposes the selective service registration requirement as a condition of employment in Federal executive agencies. The delegation will permit faster decisions for interested job seekers and reduce paperwork.

3671. PAY UNDER THE GENERAL SCHEDULE; "HIGHEST PREVIOUS RATE"

Legal Authority: 5 USC 5334(a); 5 USC 5338

CFR Citation: 5 CFR 531

Legal Deadline: None

Abstract: Under current regulations, Federal agencies must request prior OPM approval to use a special rate as an employee's "highest previous rate" upon reassignment to another position. The proposed regulations would revise the "highest previous rate" provisions of the regulations to remove this requirement and to clarify an agency's authority to establish an employee's rate of basic pay upon promotion, demotion, reassignment, transfer, reemployment, or change in type of appointment.

Panama Canal Commission

Semiannual Regulatory Agenda

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street NW., Suite 550, Washington, DC 20036-4996, (202) 634-6441 TDD; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011-5000.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 90-03.

Dated: February 23, 1990.

Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

3709. RULES FOR MEASUREMENT OF VESSELS

Significance: Agency Priority

Legal Authority: PL 96-70, Sec 1601

CFR Citation: 35 CFR 135

Legal Deadline: None

Abstract: In July 1982, 48 nations, representing more than 80 percent of world shipping, began implementing a new uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. Final implementation is scheduled for July 1994. The present Panama Canal measurement system is based upon the old national tonnage measurement system. The Panama Canal Commission is currently studying the possibility of adapting its tonnage measurement system to one which is compatible with the 1969 Convention. This would eliminate the need for vessels to be measured twice, once under the new system and again under the old system for Panama Canal assessment purposes. While no timetable for rulemaking has been established, tentative plans are to target any possible change to the Panama Canal measurement rules to the July 1994 final implementation of the 1969 Convention.

CFR Citation: 35 CFR 119.221 (Revision); 35 CFR 119.223 (Revision); 35 CFR 119.226 (New)

Abstract: The Panama Canal Commission is revising Subpart F "Engineers" of Part 119, Title 35 Code of Federal Regulations, to create a new license for the position of Assistant Engineer (watch standing). Other sections of the subpart are revised where appropriate. This change reflects the agency's desire to bring the licensing program more into line with the functions actually needed to be performed by certain marine personnel employed by the Panama Canal Commission. Essentially, the towboats, with an engine room electronic monitoring system presently manned by a Panama Canal oiler, will be manned on each operational watch by an assistant engineer (watch standing), towboats without an engine room electronic monitoring system are presently manned by Panama Canal Chief Engineers on each watch; however, as the chief engineer positions are reduced by attrition, they will be replaced by assistant engineers (watch standing).

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from April 1, 1990, to March 31, 1991. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 1990 K Street NW., Washington, DC 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register's** semiannual regulatory agendas in April and October of each year. The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation (PBGC).

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next 12 months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel, Code 22500, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact J. Ronald Goldstein, Senior Counsel, Office of the General Counsel, 202-778-8850. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive order requires that the agenda also include those currently effective regulations that are being reviewed by the Agency pursuant to the Executive order. The Regulatory Flexibility Act, Pub. L. 98-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 90-03) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next 12 months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

3724. PLAN RULES FOR REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1387(b)

CFR Citation: 29 CFR 2647 (Amendment)

Legal Deadline: None

Abstract: Under section 4207(a) of ERISA, the PBGC has issued a regulation (29 CFR Part 2647) providing for the reduction or waiver of an employer's liability for complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

3725. PAYMENT OF BENEFITS IN PBGC-TRUSTEED PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: 29 CFR 2624

Legal Deadline: None

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review. Subsequent to issuance of its October 1989 regulatory agenda, the PBGC has decided to reduce the scope of this regulation. As originally conceived, the regulation was to include all rules and procedures with respect to payment of benefits in trusteed plans, so that it would be the single source for members of the public for all questions dealing with PBGC benefit payment. Thus, a many of the provisions in the regulation

were included only for the sake of completeness and not because they were matters required by law to be issued in a regulation. (cont)

Additional Information: ABSTRACT CONT: The PBGC has now concluded that the provisions (most of which are procedural in nature) can be written in a manner that would be more easily understood by plan participants and beneficiaries if they were removed from the regulation and its various legal structural and stylistic requirements. Accordingly, work on this regulation has been delayed while PBGC staff identify those provisions that can be dropped from the regulation and decide on how best to convey this material to the public, e.g., pamphlets or form letters to be distributed to retirees and other participants when PBGC trustees a plan.

Therefore, the proposed regulation that will be issued will be much narrower in scope, dealing only with those matters on which public rulemaking is required or appropriate.

3726. PAYMENTS BY PBGC OF UNFUNDED NONGUARANTEED BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322(c) (Supp. V 1987)

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The Pension Protection Act repealed ERISA section 4049 and 4062(c). Those provisions established new employer liability to plan participants and beneficiaries in the event of a distress termination or involuntary termination by the PBGC of a plan without sufficient assets to pay all benefit commitments; the section 4049 trust was the vehicle for collecting and distributing these liability amounts. This system proved flawed in several respects, however, and Congress therefore created a new scheme by which to channel employer liability recoveries to plan participants and beneficiaries, amended ERISA section 4022(c).

Under section 4022(c), participants no longer have a direct claim for employer liability. Instead, the PBGC's claim covers both its shortfall (unfunded guaranteed benefits) and participants' losses (unfunded benefit liabilities in excess of guaranteed benefits). In turn, the PBGC is to pay a portion of its employer liability recovery to participants and beneficiaries. The amount to be paid is based on the PBGC "recovery ratio" (as defined in amended sec. 4022(c)(3)).(cont)

Additional Information: This new statutory rule contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work. The regulation will, for example, contain rules on how the PBGC will value its employer liability recoveries for purposes of computing the recovery ratio, whether the allocation of amounts payable under this provision will be done as part of the regular section 4044 asset allocation, and whether the PBGC will pay these benefits by increasing the amount of annuity payments it is making to participants or making lump sum payments.

3727. RETIREMENT EQUITY ACT AMENDMENTS - VALUATION OF PLAN BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341 (Supp. V 1987)

CFR Citation: 29 CFR 2619

Legal Deadline: None

Abstract: The Retirement Equity Act of 1984 ("REA") requires plans to provide certain benefits, prohibits the elimination of benefit options and certain early retirement benefits and retirement- type subsidies, and mandates the range of interest rates that may be used in calculating the amount of a non-consensual lump sum benefit. The Tax Reform Act of 1986 ("TRA '86") slightly modified the interest rate restrictions and extended them to the calculation of all lump sum benefits.

These rules necessitate several amendments to the PBGC's valuation of benefits regulation (29 CFR Part 2619). The major changes will address the rules on determining the form of benefit to be valued on plan termination and the interest rate rules for lump sum payments in standard terminations.

3728 REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1388(e)(3)

CFR Citation: 29 CFR 2646

Legal Deadline: None

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

CFR Citation: 29 CFR 2649

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

Thus, there is no double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan. This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

3730. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1082(f)

CFR Citation: 29 CFR 2615

Legal Deadline: None

Abstract: As part of its pension plan funding reforms, the Omnibus Budget Reconciliation Act of 1987 amended Section 302 of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and Section 412 of the Internal Revenue Code of 1986 (IRS) to give a pension plan a lien for missed contributions. The lien, which is against the assets of the contributing sponsor (and all members of the contributing sponsor's controlled group) if the sponsor fails to make required contributions and the total of missed contri utions and interest thereon exceeds $1 million (ERISA Section 302(f), IRC Section 412(n)). The lien arises on the 60th day following the due date of the missed contribution. This lien may be perfected and enforced only by the Pension Benefit Guaranty Corporation (PBGC) (or, at its direction, by the contributing sponsor). In order to enable the PBGC to carry out this function, the law requires a contributing sponsor that is subject to the lien to notify the PBGC within 10 days after the due date of an unpaid contribution. The law does not, however, specify the contents of this notice. This regulation will establish the contents of the notice.

3732. DISTRESS TERMINATIONS OF SINGLE-EMPLOYER PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c) (Supp. V 1987)

CFR Citation: 29 CFR 2616

Legal Deadline: None

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, a plan may voluntarily terminate only if the termination satisfies the statutory conditions for a standard or distress termination. These rules were further modified by the 1987 Pension Protection Act, which increased the benefits that must be provided, or for which the employer maintaining the plan is liable, upon plan termination. Thus, under current law, unless a plan has sufficient assets to satisfy all plan benefit liabilities, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and all members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, they are unable to continue to maintain the plan. Additional Information: ABSTRACT CONT: The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Although the notice of proposed rulemaking for this regulation was issued prior to enactment of the Pension Protection Act, the final rule will reflect the relevant statutory changes from that Act.

Abstract: Under ERISA Section 4041, as amended by the Single-Employer Pension Plan Amendments Act of 1986 and the Pension Protection Act, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan may be voluntarily terminated

only if it is sufficient for all benefit liabilities (i.e., all benefits provided under the plan on the termination date, whether or not vested). This is referred to as a "standard" termination. SEPPAA also modified many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing the new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 ("SEPPAA") and the Pension Protection Act ("PPA") made several changes in Title IV rules and procedures that affect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to the current law. For example, because SEPPAA altered the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2606.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contained, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA and the PPA significantly changed the rules on employer liability to the PBGC in distress and involuntary terminations. Now, an employer is liable to the PBGC for the total plan underfunding, (cont)

Abstract: The PBGC's employer liability regulation incorporates by reference the interest rate charged under section 6601 of the Internal Revenue Code as the interest rate charged, or credited, on late payments, or overpayments, of employer liability. The Tax Reform Act of 1986 significantly changed the way in which the section 6601 rate is established and creates two interest rates: one for underpayments and another, lower rate for overpayments. Because of these changes, the PBGC plans to conduct a new rulemaking proceeding to determine whether it should continue to use the section 6601 interest rates under the employer liability regulation or whether it should adopt a new rate(s) for this purpose.

Small Business Administration

Semiannual Regulatory Agenda

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 22nd semiannual agenda of regulations. Although not a regulatory agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291, the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and Public Law 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Patricia R. Forbes, Chief Counsel for Legislation, Small Business Administration, 1441 L Street NW., Washington, DC 20416, 202/653-6573.

SUPPLEMENTARY INFORMATION: The SBA agenda will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the 6-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: February 26, 1990.

Susan Engeleiter,

Administrator.

Abstract: These regulations would implement the passage of the Small Business and Federal Procurement Competition Enhancement Act of 1984, which authorized the placement of Small Business Administration (SBA) Breakout Procurement Center Representatives (BPCRs) at major procurement centers and the Small Business Administration Reauthorization and Amendment Act of 1988, which further expanded the authority of such personnel. The purpose of these proposed regulations is to advise Government personnel of the division of responsibilities that must be performed to implement the law. The current regulations in 13 CFR Part 125-6, Government Prime Act Contracts Assistance, addresses only one portion of the procurement center representatives (PCR) program as it relates to those PCRs known as Traditional PCRs. This group of individuals is basically responsible for the small business set-aside program versus the mandate to BPCRs to breakout acquisitions for full and open competition. The Federal Acquisition Regulations contain basic regulations for the breakout (cont)

Semiannual Regulatory Agenda

TENNESSEE VALLEY AUTHORITY (TVA)

TENNESSEE VALLEY AUTHORITY

18 CFR Ch. XIII

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations. However, TVA has four regulations under development, has published a notice of intent with regard to a fifth regulation, and has published a notice of proposed rulemaking with regard to a sixth regulation. In addition, TVA has published an interim final common rule with regard to a seventh regulation and a final rule with regard to an eighth regulation. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

Executive Vice President and Chief Operating Officer.

TENNESSEE VALLEY AUTHORITY (TVA) — Proposed Rule Stage

3801. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

3804. ● PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would amend the sections in the final uniform regulations to implement recent amendments to the Archaeological Resources Protection Act of 1979. Principally, these changes address public awareness programs, archaeological surveys and schedules, and guidance to Federal agencies on the disposition of human remains and directly associated objects found at archaeological sites. No direct costs to the public are anticipated, as the proposed rule would deal primarily

3805. PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470ii(a)

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would revise the prohibited acts section of the uniform regulations to conform to recent amendments to the Archaeological Resources Protection Act, thus enabling Federal land managers to assess civil penalties for the attempt to excavate, remove, damage, alter, or otherwise deface archaeological resources. The proposed rule would thus affect persons who make unauthorized use of archaeological resources or attempt to do so.

Legal Authority: 16 USC 831 to 831dd; 31 USC 1352

CFR Citation: 18 CFR 1315, (New)

Legal Deadline: None

Abstract: By this regulation the Tennessee Valley Authority adopts a common interim final rule issued in response to Section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, cooperative agreements, grants, and loans from using appropriated funds for lobbying the executive or legislative branches of the Federal Government in connection with a specific contract, cooperative agreement, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, cooperative agreement, grant, loan, or a Federal commitment to insure or guarantee a loan must disclose lobbying.

Semiannual Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291 "Federal Regulation." This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions; however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FACs). None of the regulations listed in this agenda are considered major under Executive Order 12291 "Federal Regulation."

Dated: February 14, 1990.

Albert A. Vicchiolla,

Director, Office of Federal Acquisition Policy.

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules, which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESS: Comments should be sent to: Gerry Smith, Special Assistant to the Executive Director, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, (202) 254-6090.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of April and October of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) a summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) the name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules, which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate of significant rules, which will be considered over the next 12 months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its April 1990 regulatory flexibility agenda as part of the Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's April 1990 regulatory flexibility agenda is set forth below.

Issued in Washington, DC, on March 5, 1990, by the Commission.

Lynn K. Gilbert,

Deputy Secretary of the Commission.

3918	Distribution of "Risk Disclosure Statement" by Futures Commission Merchants and Introducing Brokers	3038-AA64
3919	Orders From Another Exchange Member on the Floor	3038-AA69

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (April 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda, which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar and, on a weekly basis, an advisory which list rules that the Commission is considering or will consider in the near future.

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment preserves the one-day grace period for debit/ deficit accounts unless the account had been in debit/deficit status on the previous business day and the previous day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

Abstract: The Commission proposes to adopt rules establishing standards and procedures for Commission review of decisions of registered futures associations such as the National Futures Association ("NFA"). The Commission is proposing specific standards of review for decisions by NFA in four types of actions - disciplinary actions, membership denial actions, registration actions and member responsibility actions. The proposed rules would establish a common procedure for seeking review and a stay of a final decision by NFA in disciplinary, membership denial and registration actions. The proposed rules would also establish a procedure for seeking review and a stay of a final decision by NFA in member responsibility actions. In proposing these rules, the CFTC seeks to promulgate standards for review that will permit NFA to exercise its expertise and independent judgment in the proceedings subject to these rules while providing a person aggrieved by the result of NFA's action an effective means to obtain relief from prejudicial errors in NFA's determination. The Commission also seeks to establish an appellate process that is comprehensive, balanced, efficient and fair.

Abstract: The Commission is considering whether to amend Rule 1.55, its basic rule with respect to risk disclosure by futures commission merchants and introducing brokers. Any such amendments would be designed to further simplify risk disclosure with respect to trading of domestic and foreign futures products so as to reduce the number of separate risk disclosure documents required by the Commission, the National Futures Association and other self-regulatory organizations (SROs), including foreign SROs. The Commission may also consider whether the current rules need to be clarified regarding disclosure of the risk of bankruptcy and disclosures required when an account is transferred from one futures commission merchant or introducing broker to another futures commission merchant or introducing broker.

Legal Authority: 7 USC 6; 7 USC 6g; 7 USC 7; 7 USC 7a; 7 USC 12a

CFR Citation: 17 CFR 1.35

Legal Deadline: None

Abstract: The anticipated proposed regulation will amend existing regulation 1.35 to require that an order ticket be prepared for orders placed by members on the floor of an exchange with another member for execution (CTI 3 trades) as is presently required for all other orders. Currently, regulation 1.35 (a-1) (3) exempts a member receiving an order from another member on the floor from the requirements of this regulation, which requires that an order ticket be prepared and time stamped upon receipt, if the member receiving such order notes on his trading card or other record the time of execution to the nearest minute. Alternatively, the proposed regulation may require other audit trail improvements for such orders. The proposed amendment is intended to improve the available audit trail for orders executed on behalf of members on the floor of an exchange so that the trading activity of those members may be better monitored. The proposed regulation will contain an exemption for certain inter-commodity or futures/option spread transactions to preserve the efficient execution of such orders. Because of the relatively small number of orders for members on the floor, the Commission (cont)

Legal Authority: 7 USC 6b; 7 USC 6j; 7 USC 12a

CFR Citation: 17 CFR 155.2

Legal Deadline: None

Abstract: The proposed regulation will restrict, on a phased-in basis, beginning with an implementation plan, dual trading by floor members in certain markets, subject to stated exceptions. Specifically, a floor broker would be prohibited from (i) trading or placing an order for a futures or option contract for his own account, an account over which he had trading discretion, or an account in which he had a significant interest and (ii) holding or executing an order for a futures or option contract in the same commodity for a customer, during the same trading session, except to the extent determined by contract market rules. The proposed regulation is intended to promote integrity of futures markets by limiting potential illegal conduct resulting from the ability to trade in two capacities.

Abstract: The proposed rulemaking will establish requirements for frequent collection of trading cards and filled customer order tickets on the exchanges during the trading day. Specifically, the rulemaking will require that such records be collected within 15 minutes of designated intervals not to exceed 1/2 hour during a brief implementation stage. No earlier than 11 months after that requirement would become effective, the CFTC could require that such collection take place within intervals not to exceed 15 minutes. Such defined periods shall include separately designated opening and closing periods with a separate trade record submission requirement. In addition, the rule will require that all trading cards be timestamped upon collection, be prenumbered, be completed in indelible ink, that exchange members account for all trading cards and record trades in chronological order as sequential lines of a trading card. These rules, among other things, will improve the audit trail for all trades and limit any opportunity to alter such records.

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish, twice each year, a regulatory flexibility agenda listing the rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governmental units. In this document, the Commission publishes its semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions expected to be under development or review by the agency during the succeeding 12 months and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATES: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by June 30, 1990.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6980. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601-612, contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act, 5 U.S.C. 602, requires each agency to publish, twice each year, a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated which is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule, the objectives and legal basis for the rule, and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking. The regulatory flexibility agenda shall also contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or current regulations under review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The regulatory flexibility agenda published below lists, for a 12-month period, the regulatory activities expected to be under development or review. These include all such activities; not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

Dated: March 23, 1990.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPRM) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a three- or four-wheeled motorized machine, designed for off-road use, and intended to be ridden by one person. A consent decree in the U.S. District Court for the District of Columbia in U.S. v. American Honda Motor Co. et al., approved on April 28, 1988, Civil Act. No. 87-3525 GAG), required ATV manufacturers to attempt in good faith to reach agreement on a voluntary standard for the Commission's consideration. The Commission accepted that standard, along with an industry agreement concerning lateral stability, on October 28, 1988. Except for lateral stability and youth models, the Commission will defer rulemaking for a time sufficient for the voluntary standard to be adopted by the American National Standards Institute. Also, the Commission concluded that for labeling, manuals, age recommendations, advertising, training, point-of-purchase materials, and other (cont)

Abstract: On March 3, 1988, the Commission published an Advance Notice of Proposed Rulemaking (ANPRM) to announce its preliminary determination that unreasonable risks of death and injury may be associated with cigarette lighters because they are not sufficiently resistant to operation by children. The Commission staff is analyzing comments received in response to the ANPRM. A test protocol using panels of children and adults is under development. The test protocol will be used to determine the child resistance of lighters now on the market and to evaluate lighter modifications reported to be more child resistant. A child resistant cigarette lighter standard will be developed using the test protocol as a basis.

Abstract: On October 4, 1988, Edward Press, M.D. petitioned the Commission to issue a safety standard for saunas. A sauna is a wood-walled enclosure equipped with benches and a heater. The petition alleges that saunas are associated with risks of death and injury from heat stroke or hypothermia, cardiac arrhythmia and cardiac arrest, myocardial infarction, and syncope or fainting. The petition requests the Commission to issue a safety standard for saunas with requirements for signs to warn about hazards associated with use of saunas; a switch outside the sauna enclosure to limit operating time of the sauna to a maximum of ten minutes per setting; a switch inside the sauna enclosure to shut off the sauna when the dry-bulb temperature exceeds 195 degrees F.; adequate ventilation of tne sauna enclosure; and an alarm signal which can be activated inside the sauna enclosure to summon aid. Abstract: On July 10, 1989, the Commission received a petition from the New York State Attorney General and others requesting initiation of a proceeding for issuance of a labeling rule applicable to adult- sized water beds. The petition asserts that adult-sized water beds are associated with risks of death and injury by suffocation to infants and physically handicapped children, and requests issuance of a rule to require labeling of adult-sized water beds and point-of-sale information to warn of these risks. The Commission staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. CFR Citation: 16 CFR 1508; 16 CFR 1509

Legal Deadline: None

Abstract: On August 22, 1989, the Danny Foundation and others petitioned the Commission to issue a rule banning cribs with corner post extensions or other "catch points." The petition alleges that cribs with corner post extensions or other "catch points" present risks of death and serious injury to children from strangulation because children's neck cords, shirt straps, and clothing can become entangled on the corner post extensions or "catch points." If the Commission grants the petition it will begin a rulemaking proceeding under the Federal Hazardous Substances Act.

3933. ● CHOKING HAZARDS ASSOCIATED WITH TOYS AND CHILDREN'S ARTICLES

Legal Authority: 15 USC 1261 to 1262, Federal Hazardous Substances Act

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: On March 21, 1990, the Commission voted to begin rulemaking proceedings to address choking hazards associated with balloons, small balls, marbles, and toys intended for use by children from three to six years old. The Commission took this action after receiving reports of 146 incidents in which children died after choking on toys or other children's articles. Approximately 70 percent of these incidents involved balloons, small balls, or marbles. These proceedings could result in issuance of mandatory labeling requirements to warn of choking hazards associated with balloons, marbles, toys intended for children from three to six years old, and games of skill which include small balls. Additionally, the Commission is considering the prohibition of balls smaller than a specified diameter (not yet determined) which are not part of a game of skill.

3934. REQUIREMENTS FOR THE SPECIAL PACKAGING OF HOUSEHOLD SUBSTANCES; REVISION OF TEST PROTOCOL FOR CHILD RESISTANT PACKAGING

Legal Authority: 15 USC 1472 Poison Prevention Packaging Act; 15 USC 1473 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.20

Legal Deadline: None

Abstract: On January 19, 1983, the Commission published an Advance Notice of Proposed Rulemaking soliciting comments on ways to amend the existing requirements for child-resistant packaging to improve the effectiveness and efficiency of these requirements. In June 1985, the Commission staff completed testing to determine the feasibility of using some of the alternate procedures for evaluation of child-resistant packaging described in the ANPRM. In August 1987, the Commission considered the comments received in response to the ANPRM and the staff's recommendations regarding revision of existing requirements for child-resistant packaging. The Commission directed the staff to prepare draft proposals to amend the test protocols used to evaluate the effectiveness of child-resistant packaging. The staff is preparing a briefing package concerning specific revisions to the child test protocol and the adult test protocol. The staff anticipates that it will transmit the briefing package to the Commission in April 1990.

Legal Authority: 15 USC 1261 Federal Hazardous Substances Act; 15 USC 1262 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1500.12(a)(2)

Legal Deadline: None

Abstract: On August 20, 1986, the Commission proposed a rule to declare that household products containing methylene chloride are hazardous substances under the Federal Hazardous Substances Act. These products include some paint strippers and spray paints. The Commission's concern arises from animal tests showing that methylene chloride is a carcinogen by inhalation and studies indicating a significant human exposure as a result of reasonably foreseeable use of products containing methylene chloride. The initiation of this rulemaking proceeding granted one part of a petition (HP 85-1) from the Consumer Federation of America. The staff provided an analysis of the comments on the proposed rule to the Commission in June 1987. In August 1987, the Commission determined that there was insufficient controversy over the status of methylene chloride as a hazardous substance; therefore, the Commission suspended the rulemaking and issued a statement of enforcement policy stating the Commission's view that household products that contain methylene chloride and that expose consumers to significant levels of methylene chloride are (cont.)

Legal Authority: 5 USC 553 Administrative Procedure Act; 15 USC 1471 Poison Prevention Packaging Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 16 CFR 1700.14

Legal Deadline: None

Abstract: In the Federal Register of January 16, 1990, the Commission proposed rules to require child-resistant packaging for household glue removers in liquid form containing more than 500 milligrams of acetonitrile in a single container; and for home permanent neutralizers in liquid form containing more than 600 milligrams of sodium bromate in a single container, or more than 50 milligrams of potassium bromate in a single container. The Commission proposed these rules after it preliminarily determined that child-resistant packaging is required to protect children younger than five years of age from serious personal injury and serious injury and serious illness resulting from ingestion of any of the substances which would be subject to their requirements.

Abstract: Regulations implementing the Poison Prevention Packaging Act exempt effervescent acetaminophen tablets containing less than 10 per cent acetaminophen from requirements for child-resistant packaging. In the Federal Register of October 20, 1988, the Commission published a proposed amendment of those regulations to increase the acetaminophen content of tablets exempted from requirements for child-resistant packaging from less than ten per cent to not more than 15 per cent. Abstract: In the Federal Register of December 26, 1988, the Commission published a proposed regulation to establish procedures for submission and consideration of applications by state and local governments for exemption from preemption by statutes, standards, and regulations of the Consumer Product Safety Commission. The proposed regulation would implement provisions of the Consumer Product Safety Act, the Federal Hazardous Substances Act, the Flammable Fabrics Act, and the Poison Prevention Packaging Act which authorize state and local governments to petition the Commission for exemption from preemption of state and local laws by requirements enforced by the Consumer Product Safety Commission, and specify the conditions under which the Commission may grant such petitions.

Abstract: In the Federal Register of December 21, 1989, the Commission proposed amendments of regulations issued under the Federal Hazardous Substances Act to prescribe tests simulating use and abuse of toys and children's articles. The proposed amendments specify asbestos-free vinyl tile for the surface to be used for impact testing rather than asbestos-vinyl tile, which currently is required by the regulations. The Commission has proposed these amendments because vinyl-asbestos tile is no longer generally available, and many manufacturers, importers, and sellers of toys and children's articles want to be able to duplicate the equipment used by the Commission for conducting the use and abuse tests specified by the regulations.

Farm Credit Administration

Semiannual Regulatory Agenda

FARM CREDIT ADMINISTRATION (FCA)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department unified agenda of regulations and review list.

SUMMARY: The Farm Credit Administration (FCA), as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations, which it will have under development and review during the period of April 1990 through October 1990.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Office of General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090, (703) 883-4020, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. The FCA is an independent regulatory agency that is exempt from the provisions of Executive Order 12291. Additionally, FCA regulations, which apply to Farm Credit banks and associations and certain other federally chartered entities, generally do not and will not have a substantial impact on "small entities" as that term is defined in the Regulatory Flexibility Act.

While FCA is an independent agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Dated: February 23, 1990.

Jeffrey P. Katz,

Acting Secretary, Farm Credit Administration Board.

Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations; April 1990

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. The agenda also provides the CFR citations and legal authorities which govern these proceedings. The Regulatory Flexibility Act (94 Stat. 1167: 5 U.S.C. 605) includes notations on the applicability of the Regulatory Flexibility Act to each item.

The Unified Agenda is published in the **Federal Register** in April and October of each year.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tenecia Moncrief, Office of Managing Director, (202) 632-0923.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB publishes the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g., Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "MM Docket 79-164," which indicates that the responsible Bureau is the Mass Media Bureau. When a docket number consists of only five digits (e.g., Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking but before the Commission has taken action on the petition.

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

Donna R. Searcy,

Secretary, Federal Communications Commission.

Legal Deadline: Final, Statutory, May 16, 1989. Other, Statutory, July 27, 1989. Hearing Aid Compatibility Act of 1988. Telecommunications Accessibility Enhancement Act of 1988

Abstract: This proceeding consists of two phases; one dealing with the telephone hearing aid compatibility issue and the other addressing the implementation of an interstate relay system for users of telecommunications devices for the deaf (TDDs). In Phase One, consistent with P.L. 100-394, the FCC adopted rules on May 4, 1989, requiring nearly all telephones manufactured in or imported into this country after August 16, 1989, to be hearing aid compatible. On July 27, 1989, the FCC concluded its NOI in Phase Two of this proceeding by finding that an interstate TDD relay system is in the public interest and issuing a FNPRM. The FNPRM offers two approaches for providing interstate relay service: one requiring all interexchange carriers subject to Sec. 69.116(a) of the rules to individually or jointly provide the service, and the other assigning the managerial and operation responsibilities of the system to the National Exchange Carrier Association.

Abstract: Reconsideration in this proceeding indicates telephone companies are not receiving revenue for certain DID calls to PBXs and PBX-like CPE, due to the failure of this CPE to

return answer supervision. Part 68 of the rules was established to ensure that CPE directly attached to the telephone network causes no harm, including malfunctioning of telephone companies billing equipment. The proposed rule will minimize the number of completed DID calls which are not detected.

Abstract: The Commission seeks to develop a record and to solicit comments on the proposed rules. These proposed rules are designed to implement recommendations made by the joint industry/government Advisory Committee on 2 degree satellite spacing; and they will codify basic applications requirements for satellite services. The proposed rules would apply to all entities including small entities who seek authorization under Part 25 of the Commission's rules to construct and operate Fixed-Satellite communications facilities. The proposed rules would establish operational and technical procedures designed to alleviate adjacent satellite interference and may increase the reporting and cost burdens on all satellite licensees. The rules codifying basic applications requirements are codifications of existing policies. Will impose no additional burdens, and may, in fact, reduce the burden by eliminating several current requirements. In order to be effective, these rules must apply to all licensees and thus there is no significant alternative.

Abstract: The Commission has adopted final rules that implement price cap regulation for American Telephone and Telegraph Company. The price cap rules replace rate of return regulation, which sets limits on carrier earnings, with a system of regulation that directly limits the prices a carrier can charge for service. The Commission found that price cap regulation will provide incentive for AT&T to become more efficient and innovative, and will benefit consumers by creating a system that will result in aggregate prices that are lower than aggregate prices would have been under rate or return. The Commission has also adopted a Second Further Notice of Proposed Rulemaking containing a specific plan for implementing a modified form of price cap regulation for local exchange carriers' interstate rates.

3995. IN THE MATTER OF AN AUTOMATIC TRANSMITTER IDENTIFICATION SYSTEM (ATIS) FOR RADIO TRANSMITTING EQUIPMENT (GEN. DOC. #86-337)

Significance: Agency Priority

Legal Authority: 47 USC 154(i); 47 USC 154(j); 47 USC 302; 47 USC 303; 47 USC 403

CFR Citation: 47 CFR 25

Legal Deadline: NPRM, Statutory, October 20, 1986. Other, Statutory, September 14, 1987.
Further Notice of Proposed Rulemaking

Abstract: This proceeding looks to establish a means by which radio emissions might be encoded with a distinct automatically transmitted identifier to benefit orderly management of the radio spectrum by identifying the source of radio frequency interference to other radio signals. For video satellite uplink stations regulated under Part 25 of the Commission's rules, it proposes rules regarding such identifiers. There are no significant alternatives being considered that are consistent with

stated objectives. Every operator of a satellite video uplink would be required to purchase and operate a device to insert identification on all transmissions. Approximately 1,000 stations would be involved. Each encoder would cost under $2000. Operating upkeep expenses should be minimal.

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation (FDIC) is hereby publishing items for the April 1990 regulatory agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) and the FDIC statement of policy entitled, "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

The FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), which was enacted on August 9, 1989, contains reforms that significantly restructure Federal deposit insurance and the regulation of financial institutions. As a consequence, many of the regulations included in this agenda are in response to FIRREA.

Interested persons may petition the FDIC for the issuance, amendment, or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Dated: February 16, 1990.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC) — Prerule Stage

4030. PRIOR NOTICE BY INSURED BANKS OF INTENT TO DIRECTLY OR INDIRECTLY ENGAGE IN A NEW BANKING ACTIVITY AND OF INTENT TO ACQUIRE OR ESTABLISH A SUBSIDIARY

Legal Authority: 12 USC 1816; 12 USC 1817; 12 USC 1818(a); 12 USC 1818(b); 12 USC 1819; 12 USC 1820; 12 USC 1821(f)

CFR Citation: 12 CFR 304; 12 CFR 332

Legal Deadline: None

Abstract: The FDIC is considering amending its regulations to require any insured State nonmember bank to provide 30-day prior written notice to the regional director of the FDIC region in which the bank is located of the bank's intent to engage in a new banking activity and of its intent to acquire or establish a subsidiary. The planned rule also would require notice to the regional director of the FDIC region in which the bank is located not more than 10 days after the activity is started or the subsidiary is established or acquired.

4031. INSIDER TRANSACTIONS—CONFLICTS OF INTEREST

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1820; 12 USC 1821(f)

CFR Citation: 12 CFR 356

Legal Deadline: None

Abstract: The FDIC staff is considering whether to recommend to the Board of Directors that it amend its regulations to require any state-chartered nonmember bank and FDIC-insured foreign branch to adopt written guidelines governing all insider transactions beyond loans. Staff expects to recommend that the planned rule would require that no covered institution may enter into a business transaction with an insider (as defined) unless: (i) it is made on substantially the same terms as those prevailing at the time for comparable transactions, (ii) the board of directors or trustees states in writing that the business transaction is for the benefit of the bank and is not merely an accommodation to a bank insider, and (iii) the transaction does not present unfavorable features which may be detrimental to the bank's interest.

4032. SALARY OFFSET

Legal Authority: 5 USC 5514; 12 USC 1819

CFR Citation: 12 CFR 355

Legal Deadline: None

Abstract: The FDIC is planning to propose new regulations to implement salary offset procedures required by 5 USC 5514 and 5 CFR 550, Subpart K. The proposal would set out procedures to be used by the FDIC to offset the salary of any FDIC employee who is indebted to the United States and refuses to pay voluntarily. The proposal would also enumerate procedures through which the FDIC may request another agency to offset the salary of one of its employees to satisfy a debt that employee may owe the FDIC.

4033. SECURITIES RECORDKEEPING AND CONFIRMATIONS

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819

CFR Citation: 12 CFR 344

Legal Deadline: None

Abstract: The FDIC expects to propose an amendment to 12 CFR Part 344, which governs an insured nonmember bank's recordkeeping and confirmation requirements for securities transactions. The proposed amendment would expand an existing exception under Part 344 for low activity. The exception would be increased to allow banks which effect an average of fewer than 1,000 securities transactions per year to be exempt from certain recordkeeping and written policymaking requirements. The current "low-activity" threshold is 200 transactions per year. The amendment is needed to eliminate unnecessary paperwork burden and is intended to reduce the impact of FDIC's regulation on insured nonmember banks that engage in a low number of securities transactions per year.

Legal Authority: 5 USC 552; 12 USC 1817; 12 USC 1818; 12 USC 1819; 12 USC 1820

CFR Citation: 12 CFR 304

Legal Deadline: None

Abstract: The FDIC plans to substitute for its current regulation on reporting fully insured brokered deposits and fully insured deposits placed directly by other depository institutions (12 CFR 304.6) a new requirement calling for the reporting of planned rapid growth by certain limited means such as the solicitation and acceptance of brokered deposits, out-of-territory deposits and borrowings. The report would describe the volume, sources and anticipated uses of the funds to be borrowed.

Legal Authority: 12 USC 1819; 12 USC 1828(a); PL 101-73, Sec 221

CFR Citation: 12 CFR 328

Legal Deadline: None

Abstract: The FDIC has issued a final rule amending its regulation regarding advertisement of membership in order to comply with the requirements of section 221 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") (see 54 FR 33669, August 16, 1989). Because the FDIC acted under a statutory deadline, the final rule established only those requirements that were considered to be the minimum necessary to comply with FIRREA. The FDIC is now considering additional amendments to the regulation.

CFR Citation: 12 CFR 325

Legal Deadline: None

Abstract: This proposed rule would restrict the amount of purchased mortgage servicing rights that savings associations can recognize when calculating the amount of regulatory capital under the tangible capital standard issued by the Office of Thrift Supervision. The proposed rule would also place restrictions on the amount of purchased mortgage servicing rights that state nonmember banks can recognize in their regulatory capital calculations. The rule would implement section 301 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA").

Legal Authority: 12 USC 1819; PL 101-73, Sec 1110

CFR Citation: 12 CFR 323

Legal Deadline: NPRM, Statutory, February 9, 1990. Final, Statutory, August 9, 1990.

Abstract: The proposed rule would implement the mandate of section 1110 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") that requires each Federal financial institutions regulatory agency and the Resolution Trust Corporation to prescribe appropriate standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of each such agency or instrumentality. These standards must be in conformance with the provisions of title XI (REAL ESTATE APPRAISAL REFORM AMENDMENTS) of FIRREA.

CFR Citation: 12 CFR 337

Legal Deadline: None

Abstract: Section 224 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") prohibits the acceptance or renewal of brokered deposits by any undercapitalized insured depository institution (bank or thrift) after December 7, 1989, except on specific application to and waiver of the prohibition by the FDIC. The interim rule gives the circumstances under which a waiver from the prohibition may be granted.

The FDIC solicited comments on this interim rule with a view towards possible revision or modification at a later date. The interim rule will "sunset" or terminate automatically in six months following its publication unless modified or replaced by a final rule prior to that time.

Legal Authority: 12 USC 1815(d); 12 USC 1819; PL 101-73, Sec 206(a)(7)

CFR Citation: 12 CFR 312

Legal Deadline: None

Abstract: The FDIC adopted interim rules that prescribe entrance and exit fees to be paid by insured depository institutions that participate in certain "conversion transactions" authorized by section 206(a)(7) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Conversion transactions involve transfers or switches between the two deposit insurance funds: the Bank Insurance Fund ("BIF") and the Savings Association Insurance Fund ("SAIF"). One rule, published on October 2, 1989, at 54 FR 40377, set entrance fees for "SAIF-to-BIF" conversion transactions. Another rule, published on December 26, 1989, at 54 FR 52923, established the fee structure for "BIF-to-SAIF" conversion transactions. A third rule, that is expected to be adopted soon, will prescribe the exit fee for "SAIF-to-BIF" conversion transactions.

The public has been invited to comment on the fee structure set forth in the interim rules. Final rules will be issued following the expiration of the public comment period.

4049. ● ASSESSMENTS

Legal Authority: 12 USC 1817; PL 101-73, Sec 208

CFR Citation: 12 CFR 327

Legal Deadline: None

Abstract: The FDIC amended Part 327 of its regulations in response to the requirements of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). With respect to insured banks, the final rule continues the existing procedures for filing certified statements and making assessment payments. With respect to insured savings associations, the final rule prescribes new procedures for filing certified statements and making assessment payments.

Due to a need to clarify the assessment procedures quickly, the FDIC made the rule effective December 15, 1989, without formally seeking public comment in advance. However, the FDIC will consider any public comments received by January 16, 1990, in order to determine whether the new rule should be revised.

CFR Citation: 12 CFR 303

Legal Deadline: None

Abstract: The FDIC amended Part 303 of its regulations in response to the requirements of the Financial Institutions Reform , Recovery, and Enforcement Act of 1989 ("FIRREA"). The final rule also clarifies and, in some cases, modifies some delegations of authority for acting on a variety of applications (e.g., mergers, insurance fund conversions, branches, relocations, deposit insurance, trust and other banking powers, changes in control, management interlocks, and other applications).

Legal Authority: 12 USC 1813; 12 USC 1817; 12 USC 1821; 12 USC 1822

CFR Citation: 12 CFR 330

Legal Deadline: None

Abstract: The FDIC proposed amending Part 330 of its rules and regulations. Under the proposed rule, unit investment trusts would no longer be treated as corporations for purposes of insurance coverage limits where deposits in any one insured bank are insured to the maximum of $100,000. Instead, the proposal, if adopted, would result in deposit insurance up to $100,000 as to each beneficial owner of the trust's deposits.

Legal Authority: 12 USC 1464; 12 USC 1727; 12 USC 1730

CFR Citation: 12 CFR 565

Legal Deadline: None

Abstract: The Bank Board is reviewing a number of issues relating to the extent to which institutions insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") that terminate their insured status in connection with transfers by operation of law must pay a final insurance premium to the FSLIC. As part of its review, the Bank Board solicited public comment to ascertain whether to issue a proposal in this area. On October 7, 1986, the Bank Board adopted a clarifying amendment to the definition of "transfers" set forth in its statement of policy regarding mergers and transfers of assets. (12 CFR 571.5(a)). However, as the clarification indicates, the interpretation did not specifically address the separate issues of whether an insured institution undertaking a transfer of assets and liabilities by operation of law in which the surviving entity is not FSLIC-insured must pay a final insurance premium to the FSLIC, and if so, the amount of such payment. The Bank Board has been reviewing this so-called "exit premium" issue on an ongoing basis and as yet has made no final determination with respect to this matter. (cont)

Additional Information: ABSTRACT CONT: Notice was given on October 18, 1989, at 54 FR 42799, that 12 CFR 565 was among the regulations transferred to the FDIC as a result of the restructuring of the Federal banking agencies following the enactment of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). The issues described in the preceding paragraph will be addressed in the FDIC's regulation 12 CFR 312, ASSESSMENT OF FEES UPON ENTRANCE TO AND EXIT FROM THE BANK INSURANCE FUND OR THE SAVINGS ASSOCIATION INSURANCE FUND. 4056. BLANKET SALES CERTIFICATES FOR FIRST SELLERS OF NATURAL GAS

Significance: Agency Priority

Legal Authority: 15 USC 717 to 717w (1982); EO 12009 3 CFR 1978 Comp., p. 142; 15 USC 3301 to 3432 (1982); 42 USC 7101 to 7352 (1982)

CFR Citation: 18 CFR 270; 18 CFR 271

Legal Deadline: None

Abstract: The proposed rule would grant blanket sales authority to first sellers of natural gas (except gas marketers) to make sales for resale in interstate commerce. Marketers would be required to apply individually for this authorization. The rule would eliminate virtually all of the certificate and filing requirements presently applicable to these sales. (This NOPR would consolidate Docket No. RM88-20-000 into this rule.) Docket No. RM89-2-000.

4059. 5-YEAR TAKE-OR-PAY MAKE-UP PROVISIONS IN NATURAL GAS PRODUCER-PIPELINE CONTRACTS

Significance: Agency Priority

Legal Authority: 15 USC 717 to 717w (1982) Natural Gas Act; 42 USC 7101 to 7352 (1982) Dept. of Energy Organ. Act; EO 12009 (1978) 3 CFR Part 142; 31 USC 9701 (1970) Independent Offices Approp. Act

CFR Citation: 18 CFR 154

Legal Deadline: None

Abstract: This notice of proposed rulemaking would eliminate the requirement in the Commission's regulations that a gas gas purchase contract between an independent natural gas producer and an interstate natural gas pipeline must allow the pipeline a minimum 5-year make-up period in which to take gas for which payment has already been made. The Commission believes that this requirement, established in 1967, may no longer be necessary in light of current efforts by pipelines and producers to resolve take-or-pay issues and to enter into market-responsive contracts for future gas supplies. 4060. CALCULATION OF CASH WORKING CAPITAL ALLOWANCE FOR PUBLIC UTILITIES

Legal Authority: 16 USC 791a to 828c

CFR Citation: 18 CFR 35

Legal Deadline: None

Abstract: The proposed rule would provide that the cash working capital requirements of a public utility that files an electric rate schedule will be presumed to be zero dollars, and thus will not affect the utility's rate base, unless the utility shows there is a significant difference between the time it pays certain current operating expenses and the time it receives revenues from ratepayers. The proposed rule would establish a threshold standard that must be met to support a cash working capital adjustment to a utility's rate base, the expense elements to be considered in calculating cash working capital adjustments to rate base, and criteria applicable to studies submitted in support of a request for an adjustment to rate base. CFR Citation: 18 CFR 38; 18 CFR 382

Legal Deadline: None

Abstract: The Commission proposed to streamline regulation of a class of non-traditional utility suppliers, called independent power producers (IPPS). The proposed regulations would: (1) authorize rates for IPPS to be determined through competitive bidding or rate negotiation subject to a price cap, thereby freeing IPPS from cost-based ratemaking while ensuring that rates fall within a zone of reasonableness: (2) authorize IPPS to file rate schedules without having to provide extensive cost support; (3) exempt IPPS from cost-related accounting, reporting and recordkeeping requirements; (4) streamline the corporate and financial regulation of IPPS; (5) provide the blanket prior authorizations to engage in certain corporate activities; and (6) adopt certification procedures to qualify as an IPP. Agenda of Federal Regulations

AGENCY: Federal Housing Finance Board.

ACTION: Publication of agenda items.

SUMMARY: The Federal Housing Finance Board (FHFB) hereby publishes items for the "Unified Agenda of Federal Regulations." These items reflect the status of the regulatory agenda of the FHFB as of March 20, 1990.

The FHFB is an independent regulatory agency created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) Pub. L. 101-73, 103 Stat. 183 (August 9, 1989). The FHFB succeeded to the former Federal Home Loan Bank Board (Bank Board) as the regulatory overseer of the Federal Home Loan Bank System (Bank System). The FIRREA provided that all outstanding regulations and orders of the former Bank Board would remain in effect unless superseded by law or the successor agency. Many of the Bank Board's regulations were transferred by the FHFB to chapter IX of title 12 of the Code of Federal Regulations. The FHFB has also promulgated new regulations concerning the recently instituted Affordable Housing Program associated with the Bank System and is concerned with an ongoing regulatory program of implementing changes to the Federal Home Loan Banks' operations and organizations to reflect changes mandated by the FIRREA.

ADDRESS: Office of Administration, Attention: Federal Register Liaison Officer, Room 707, Federal Housing Finance Board, 1777 F Street NW., Washington, DC 20006.

Significance: Agency Priority

Legal Authority: 12 USC 1422A; 12 USC 1422B; 12 USC 1430(i)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Pursuant to section 721 of the Financial Institutions Reform, Recovery and Enforcement Act of 1989, Pub. L. 101-73, 103 Stat. 423, the Federal Home Loan Banks must establish a Community Investment Program ("Program") which will provide funds, through Bank advances (loans) to a Bank's member institutions at interest rates equal to interest rates on Federal Home Loan Bank consolidated bonds or notes having comparable maturity dates with the advances. These advances will be used by the member institutions to provide funding for community-oriented development projects or housing. These regulations will continue the commitment of the Federal Home Loan Banks to community development lending.

Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA"), Pub. L. 101-73, 103 Stat. 183 (1989). However, long-term advances may only be made for the purposes of providing funds for residential housing finance. Advances will be secured by eligible collateral consisting of (1) fully disbursed, whole first mortgages on improved residential property, or securities representing such mortgages; (2) securities issued or guaranteed by the United States Government or any agency thereof; (3) deposits in a Federal Home Loan Bank; and (4) certain other real estate related collateral. Advances available to members that are not Qualified Thrift Lenders, pursuant to FIRREA, are limited to advances for the purpose of residential housing finance.

Significance: Agency Priority

Legal Authority: 12 USC 1422B; 12 USC 1427

CFR Citation: 12 CFR 932.14

Legal Deadline: None

Abstract: The FHFB is amending its rules governing eligibility requirements for directors of the Federal Home Loan Banks ("Banks"). These changes are being implemented in order to comply with the recently enacted provisions of the Financial Institutions Reform, Recovery and Enforcement Act of 1989, Pub. L. 101-73, 103 Stat. 183, which substantially changed the eligibility requirements for appointive and elective directors. Bank directors appointed by FHFB may no longer have a financial interest in a member institution of a Bank. Bank directors elected by the member institutions must come from member institutions that meet their applicable minimum regulatory capital requirements. The regulations also address eligibility requirements and financial procedures for both elected, appointed and the new positions of community interest directors.

The FHFB adopted its new regulations as an interim rule effective January 5, 1990, but it provided for a comment period on its interim regulations until March 5, 1990, with a view towards making revisions and enacting a final rule at (cont)

Abstract: The Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA") Pub. L. 101-73, 103 Stat. 183, enacted on August 9, 1989, requires that each Federal Home Loan Bank ("Bank) establish an Affordable Housing Program ("Program"). The FIRREA added a new section 10(j) to the Federal Home Loan Bank Act, providing that each Bank establish a program to give advances (loans) to its members at subsidized, lower than market rate, interest rates if such advances are used by the Bank's member institutions to lend funds for long-term mortgages on very low-, low- or moderate-income, owner occupied housing or affordable rental housing. The Programs established pursuant to FIRREA is designed to strengthen the traditional commitment of the Federal Home Loan Bank System to the nation's housing needs by providing subsidized advances (loans) to its member lending institutions for the purpose of passing those subsidies to borrowers.

Significance: Agency Priority

Legal Authority: 12 USC 1422A; 12 USC 1422B

CFR Citation: 12 CFR Ch. IX

Legal Deadline: None

Abstract: The FHFB, as one of several successor agencies to the former Federal Home Loan Bank Board, transferred various regulations from Chapter V of title V of the Code of Federal Regulations to a new Chapter IX of title V, Code of Federal Regulations. The FHFB accomplished this task in order to continue certain regulations, promulgated by the former Federal Home Loan Bank Board, in effect without the need to repromulgate numerous regulations.

Abstract: Pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989, Pub. L. 101-73, 103 Stat. 183, the FHFB as a successor agency to the former Federal Home Loan Bank Board ("Bank Board") transferred many of the former Bank Board's regulations, located at chapter V of title 12, Code of Federal Regulations, to the FHFB's chapter IX of title 12, Code of Federal Regulations. These regulations followed up that action by making various technical changes to the transferred regulations, such as removing obsolete references to the former Bank Board or Federal Savings and Loan Insurance Corporation or references to paragraph sections at chapter V.

Abstract: Previous to the creation of the FHFB, pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA"), Pub. L. 101-73, 103 Stat. 189, the former Federal Home Loan Bank Board ("Bank Board") regulated the Federal Home Loan Banks ("Banks"), including the election of their boards of directors. During the enactment of the FIRREA, Congress considered making significant changes to the composition of the Banks' boards of directors. In anticipation of that development, the former Bank Board suspended the election of new directors to the twelve Banks' boards of directors. The FHFB needed to promulgate a temporary new schedule of elections to effectively accomplish the election of directors to the boards of the twelve Banks. This temporary schedule expires on June 14, 1990.

FEDERAL MARITIME COMMISSION (FMC)

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified agenda of federal regulations.

SUMMARY: Pursuant to section 5 of Executive Order 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Commission anticipates having under consideration during the period from April 1, 1990, to March 31, 1991, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: Joseph C. Polking, Secretary, 1100 L Street NW., Washington, DC 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of E.O. 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's unified regulatory agenda. The agenda does not necessarily include all petitions for rulemakings which are under staff review.

In addition, the Commission maintains a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda. This will be made available to the public, including the press and interested persons.

Joseph C. Polking,

Secretary.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from April 1 through October 1, 1990. The next semiannual agenda will be published in October 1990.

DATE: Comments about the form or content of the agenda may be submitted any time during the next 6 months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its April 1990 agenda as part of the April 1990 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next 6 months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous agenda and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

Proposed Rule Stage

4101. REGULATION: E - ELECTRONIC FUND TRANSFERS

Legal Authority: 15 USC 1693 et seq Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Legal Deadline: None

Abstract: The Board is conducting a review of Regulation E, which implements the Electronic Fund Transfer Act, and establishes the basic rights, liabilities, and responsibilities of consumers who use electronic fund transfer services and of financial institutions that offer these services (whether or not these institutions hold the consumer's account). The review will consider whether any provisions of the regulation are in need of updating and whether any substantive changes are necessary because of technological and other developments. The Board will also consider whether to make any legislative recommendations for statutory changes.

Public comment will be requested on any regulatory proposals that may be developed following the review. It is not anticipated that the revisions would have a significant economic impact on a substantial number of small banks.

Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 207; 12 CFR 221

Legal Deadline: None

Abstract: During the next three months the Board may address the ability of lenders subject to Regulations G and U to transfer a credit between these two types of lenders without treating the transaction as creating a new extension of credit. The regulations currently permit a transfer only between lenders subject to the same regulation. Several law firms have expressed an interest in such a deregulatory amendment.

It is not anticipated that this proposal will affect a significant portion of the overall lending activities of a substantial number of small firms.

Legal Authority: 12 USC 221 et seq; 12 USC 1841 et seq; 12 USC 3101 et seq

CFR Citation: 12 CFR 211

Legal Deadline: Other, Statutory, December 1989.
Section 3(b) of the International Banking Act of 1978 requires that Board review and revise Subpart A of Regulation K every five years, beginning in 1979.

Abstract: In 1990, the Board will conduct a broad-based review of Subpart A of Regulation K (International Operations of United States Banking Organizations), as required every five years by the International Banking Act. This review will include consideration of the powers of Edge corporations and additional overseas activities of U.S. banking organizations, including consideration of the authority to underwrite and deal in equity securities outside the United States. In addition, Subpart B (Foreign Banking Organizations) will be reviewed, particularly with respect to the effect of the revisions of the Standard Industrial Classification (SIC) codes on that Subpart. Subpart C (Export Trading Companies) will be reviewed with a view toward bringing that Subpart into conformity with the Export Trading Company Act Amendments of 1988.

It is not expected that any revisions would have an adverse impact on a substantial number of small banking organizations.

Legal Authority: 12 USC 1604, as amended, Truth in Lending Act

CFR Citation: 12 CFR 226

Legal Deadline: None

Abstract: The Board will consider soliciting for comment a possible amendment to Regulation Z dealing with home equity lines of credit. The proposal will discuss the ability of a creditor to suspend advances of credit during any period in which the maximum rate cap is reached. This action will be taken as a result of questions that have arisen in a recent lawsuit. It is not anticipated that this proposal would have any significant impact on small institutions.

4105. PRIVATE SECTOR PRESENTMENT (DOCKET NUMBER: R-0631)

Legal Authority: 12 USC 4008(c)

CFR Citation: None

Legal Deadline: None

Abstract: In April 1988, the Board requested comment on whether it should require paying banks to pay for checks presented by private sector collecting banks before 2:00 p.m. in same-day funds and without imposing presentment fees (53 FR 11911, April 11, 1988). The purpose of such a regulation would be to speed the forward collection of checks by requiring paying banks to accept checks without charging a fee later in the day, thus increasing the number of checks that can be collected that day. It would give private sector collecting banks the same rights vis-a-vis paying banks as the Federal Reserve Banks now have.

The Board has not yet made a specific proposal to amend its regulation in this regard. Rather, it merely requested comment on the idea of same-day payment in private sector presentments. If such a regulation were to be adopted, small entities that might be affected include small banks and State and local governments.

The Board is reviewing the public comments and conferring with an industry task force and will determine whether to propose specific regulations within the next twelve months.

Legal Authority: 12 USC 248(k); 12 USC 461(a)

CFR Citation: 12 CFR 204

Legal Deadline: None

Abstract: In May 1986, the Board issued for comment rules to clarify the definition of "deposit" in Regulation D to include the interest or liability associated with a borrowing in the form of certain sales of assets and related transactions by a depository institution (51 FR 16855, May 7, 1986). These transactions include a sale of assets that involves a full guarantee by the institution that, in effect, substitutes the institution's credit standing for that of the ultimate borrower and in which the institution retains the risk of borrower default after the asset is sold.

Further, the regulation currently treats obligations of an affiliate as deposits of the depository institution to the extent the proceeds are provided to the depository institution. The Board proposes to exclude proceeds received from a sale of assets without recourse to the affiliate. The proposal also would clarify the application of Regulation D to certain of these transactions involving organizations effectively controlled by the depository institution even though not formally affiliated. Finally, the proposal would (cont)

the "maturity" of an obligation for the purposes of Regulation D. The proposal requests comment on any alternatives that the public believes may be preferable to the Board's proposed amendments. Suggested alternatives will be considered when comments are analyzed.

The proposed rule would apply to all depository institutions. It is not anticipated that the proposal will have a negative impact on the ability of small depository institutions to attract deposits.

The Board will review the comments and take further action in the near future.

Legal Deadline: Final, Statutory, August 9, 1990.

Abstract: In January 1990, the Board requested public comment on a proposed regulation that prescribes standards for the performance of real estate appraisals in connection with federally related transactions (55 FR 4810, February 9, 1990). This regulation, which applies to real estate transactions entered into or regulated by the Federal financial institutions' regulatory agencies, is mandated by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). The member agencies of the FFIEC and the Resolution Trust Corporation are required by FIRREA to propose their appraisal regulations by February 9, 1990, and adopt them in final form by August 9, 1990. FIRREA contemplates a two-step phase-in of the provisions of Title XI, reflected in the proposed regulation. The first step requires that as of August 9, 1990, all appraisals rendered in connection with federally related transactions must be performed in accordance with the appraisal standards of the Appraisal Foundation and any additional standards adopted by the agencies. The second step requires that as of July 1, 1991, all such appraisals must be performed by appraisers either (cont)

On balance, it is not expected that adoption of the proposal would have a significant adverse economic impact on a substantial number of small business entities. Title XI specifies certain transactions requiring the services of an appraiser and does not distinguish between small and large financial institutions. The agencies are allowed some discretion in determining which other transactions should also require an appraiser. In this regard, the Board has attempted to alleviate the economic impact on small businesses, including small regulated institutions, by not requiring a State certified or licensed appraiser for transactions in which (i) the transaction value is below the de minimis cutoff established in the regulation, and (ii) a lien on real estate is taken as collateral solely as an abundance of caution.

Following review of the public comments, the Board is expected to take further action on this proposal by August 9, 1990.

Abstract: In December 1989, the Board requested public comment on proposed transition capital guidelines to be applied through the end of 1990, as well as guidelines for a proposed new leverage constraint (55 FR 581, January 5, 1990).

Under the proposal, State member banks and bank holding companies may choose up to the end of 1990 to conform to either the existing minimum capital adequacy ratios (5.5 percent primary capital and 6 percent total capital to total assets) or to the 7.25 percent year-end 1990 risk-based capital standards. In addition, the Board is proposing to establish and apply during this period a minimum ratio of 3 percent Tier 1 capital to total assets (leverage ratio). For leverage purposes, Tier 1 would be defined consistent with the year-end 1992 risk-based capital guidelines.

The Board is also proposing to drop the existing 5.5 percent primary and 6 percent total capital to total assets leverage ratios after year-end 1990. The 3 percent Tier 1 leverage ratio would then constitute the minimum capital to total assets standard for banking organizations. Under the

It is not expected that adoption of this proposal would have a significant economic impact on a substantial number of small banking organizations. Rather than requiring all banking organizations to raise additional capital, the guidelines are directed at institutions whose capital positions are less than fully adequate in relation to their risk and leverage profiles. In addition, these guidelines generally will not apply to bank holding companies

with consolidated assets of less than $150 million.

Legal Authority: 12 USC 1881 to 1884

CFR Citation: 12 CFR 216

Legal Deadline: None

Abstract: In December 1989, the Board approved issuing for public comment a zero-based review of Regulation P, the regulation which implements the Bank Protection Act of 1968, and establishes minimum security standards for Federal Reserve Banks and for State member banks (Federal Register cite unavailable). The review considers whether any provisions of the regulation are outdated and whether any substantive changes are necessary because of new technological developments. The regulation will also be reorganized and revised for simplicity and clarity. It is not anticipated that the revised regulation will have a significant economic impact on a substantial number of small banks. Following review of comments, the Board will consider changes in the regulation within the next six months.

Abstract: In January 1986, the Board issued for comment proposals to clarify, update, and simplify the advertising provisions of Regulation Q (51 FR 1379, January 13, 1986). The revisions incorporate and supersede the proposals of March 1984 concerning advertising of split-rate deposits and IRA/Keogh (HR 10) Plan accounts. The proposal is not expected to have a significant adverse effect on small banks.

The Board will review the comments and is expected to take further action within the next six months.

It is also anticipated that the Board will consider at that time various options with regard to providing written disclosures to consumers about their accounts.

Abstract: In September 1989, the Board proposed for public comment several amendments to Regulation T to accommodate settlement and clearance of foreign securities (54 FR 41454, September 29, 1989). The amendments would: (1) permit certain foreign debt and equity securities to be eligible for margin at broker-dealers on the same basis as domestic margin securities; (2) eliminate the current dollar-only accounting requirement for margin accounts; (3) tie the time for customer payment for foreign securities to the foreign settlement date; and (4) allow a registered broker-dealer to arrange credit on foreign securities. Following review of the public comments, the Board is expected to take further action on this proposal in the next three months. It is not anticipated that any proposals in this area would affect a significant portion of the overall lending activities of a substantial number of small firms.

Abstract: In December 1986, the Board requested public comment on a proposal to permit bank holding companies to engage in real estate investment activities within certain limits (52 FR 543, January 7, 1987). The proposed limits are designed to ensure that conduct of the activity does not result in unsafe or unsound practices, unfair competition, conflicts of interest or other adverse effects.

The Board requested public comment on a number of specific items, including whether real estate investment activities may be deemed to be closely related to banking and a proper

incident thereto for purposes of Section 4(c)(8) of the Bank Holding Company Act; whether the proposed limits on the size, scope, and manner in which the activity would be conducted are appropriate; whether nonbank companies owned by holding company banks should be prohibited from conducting these activities; and whether the Board should establish special capital requirements for bank holding companies that control banks directly engaged in these activities.

The proposal, if adopted, would permit bank holding (cont)

Abstract: In November 1987, the Board requested comment on whether, in evaluating proposals submitted under section 3 of the Bank Holding Company Act, the Board should consider the impact of real estate activities of the bank to be acquired by the bank holding company on the financial condition of the bank and bank holding company, and, where appropriate, should prohibit banks and savings banks that are acquired by bank holding companies from directly engaging in real estate investment and development activities (52 FR 42301, November 4, 1987).

The Board also requested comment on whether member banks that are not in a bank holding company should be made subject to the interaffiliate lending restrictions of section 23A of the Federal Reserve Act in their dealings with real estate investment and development subsidiaries of the bank.

Finally, the Board requested comment on whether the Board should impose special capital requirements on real estate subsidiaries of banks in a bank holding company, under the Board's authority in the International Lending Supervision Act. These three proposals supplement the Board's earlier (cont)

Additional Information: ABSTRACT CONT: request for comment in December 1986 regarding whether the Board should permit bank holding companies to engage in real estate investment activities.

This proposal is not expected to have a significant economic impact on small companies because the Board believes that very few small banks are currently engaged in real estate investment and development activities, and bank holding companies are not generally permitted to engage in these activities.

It is not expected that the Board would take action on this proposal until after resolution of pending rulemaking regarding the current Regulation Y provision permitting bank holding companies to acquire, through their subsidiary State banks, shares of companies engaged in activities that the bank is permitted to conduct under State law, so-called operations subsidiaries (R-0652).

Abstract: A provision of Regulation Y permits a State bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under State law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under Federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the

comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

In December 1988, the Board requested public comment regarding whether this rule, as it applies to nonbanking companies owned by state banks in a holding company system, continues to be valid and appropriate in light of enactment of the (cont)

Additional Information: ABSTRACT CONT: Garn-St Germain Act and certain recent court decisions (53 FR 48915, December 5, 1988). The Board also held an informal public hearing on this matter on April 7, 1989. The Board has not proposed revising its current rule regarding subsidiaries of national banks in a holding company. A determination to reverse the Board's state bank rule could have an adverse impact on small banks that are subsidiaries of holding companies because they might be required to restructure their nonbanking activities or to take other action. The Board has not determined what further action is appropriate.

Abstract: In December 1988, the Board requested public comment on a proposal by a bank holding company to provide armored car transportation services to non-affiliated customers and on whether the proposed armored car activities may be deemed to be closely related to banking and a proper incident thereto for purposes of Section 4(c)(8) of the Bank Holding Company Act (53 FR 50292, December 14, 1988).

The National Armored Car Association submitted comments in opposition to the application and requested a hearing on whether the proposal would meet Section 4(c)(8) of the Bank Holding Company Act. A formal, public hearing before a hearing officer was held on June 16 and July 11, 1989, at the offices of the Board in Washington, D.C. Following review of the recommended decision by the hearing officer, the Board will consider the application. The proposal, if adopted, would permit a bank holding company to engage in a broader range of armored car services than bank holding companies currently are permitted to conduct under 12 CFR 225. Abstract: On February 9, 1990, the Board approved issuing for public comment a proposed regulation, which implements section 914 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, requiring banks and bank holding companies to provide notice to the Federal Reserve System 30 days before adding any individual to the institution's board of directors or employing any individual as a senior executive officer under certain circumstances (55 FR 6787, February 27, 1989). Notice would be required if the institution is failing to meet minimum capital standards or is otherwise in a troubled condition, has undergone a change in control within the past two years, or has received a bank charter within the past two years. The regulation defines "senior executive officer," "troubled condition," and "change in control."

The proposal is not expected to have a significant economic impact on a substantial number of small business entities. State member banks and bank holding companies will be affected if they meet one of the criteria that triggers the notice requirements. Abstract: In December 1989, the Board requested comment on proposed

amendments to its Regulation CC, governing availability of funds and collection of checks (54 FR 51405, December 15, 1989). The proposals include shortening the time requirements for giving notice of nonpayment, proposed changes to the model forms, and other technical and clarifying modifications to the regulation and its commentary. These proposals are aimed primarily at reducing risk to depository banks under the permanent availability schedules and clarifying Regulation CC in response to questions the Board has received from depository institutions. In addition, the Board also proposed revisions to the deposit deadlines for the Federal Reserve notice of nonpayment service that would take effect if the time requirements for notice of nonpayment were to be shortened (54 FR 51493, December 15, 1989; Docket Number R-0680). Adoption of the proposals should not result in any significant economic impact on a substantial number of small entities.

Legal Authority: 12 USC 221 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In June 1989, the Board requested comment on several proposals that would modify its payments system risk reduction program (54 FR 26090, June 21, 1989). The proposals concerned pricing of daylight overdrafts (R-0668, previously proposed in Docket R-0592, 51 FR 45042, December 16, 1986), book-entry securities transfers (R-0669), and foreign bank agencies and branches (R-0670). In conjunction with the proposals, the Board issued three policy statements regarding private delivery-against-payment systems (R-0665), offshore clearing and netting systems (R-0666), and rollovers and continuing contracts (R-0667).

In addition, as another facet of its risk reduction program, in March 1989, the Board requested comment on changes in the way the Federal Reserve Banks treat automated clearing house transactions (Docket R-0661, 54 FR 8822, March 2, 1989). It is not expected that these actions will have a significant economic impact on a substantial number of small entities, because small entities do not usually participate in large-dollar wire transfer systems.

Abstract: In December 1989, the Board published a final rule revising Regulation B to implement amendments to the Equal Credit Opportunity Act that were part of the Women's Business Ownership Act of 1988, Pub. L. No. 100-533, 102 Stat. 26891 (54 FR 50482, December 7, 1989). The final rule required creditors (1) to give written statement of the reasons for a credit denial or other adverse action, and (2) to maintain for one year records used in evaluating business credit applications. The final rule closely parallels the rules that govern nonbusiness transactions with some variations that offer creditors more flexibility with regard to handling business credit applications. Creditors may follow the present notice and recordkeeping rules for nonbusiness credit and be in full compliance with the amended regulation. The rule is effective April 1, 1990.

The statutory changes were enacted to ensure that business owners applying for credit are afforded ECOA rights similar to those available to consumer credit applicants. As of January 1, 1990, lenders are required to collect the new information.

Abstract: In December 1989, the Board adopted revisions to Regulation C to implement amendments to the Home Mortgage Disclosure Act (HMDA) that were contained in the Financial Institutions Reform, Recovery and Enforcement Act, signed August 9, 1989 (54 FR 51356, December 15, 1989). HMDA requires covered institutions to disclose and report information regarding their mortgage lending. Among other things, the statutory amendments extend the coverage of HMDA to include most mortgage lenders. Covered institutions are required also to maintain and disclose information regarding mortgage loan applications, and information regarding the race, gender and income of applicants and borrowers. Under the amendments, banks and other depository institutions with $30 million or less in assets are not required to report data on the race, gender, and income level of applicants and borrowers. Institutions with $10 million or less in assets remain exempt from all requirements of the Act. Therefore, it is not expected that the amendments will have a significant economic impact on the smallest mortgage lenders; they will have significant economic impact on institutions that have over (cont)

Abstract: The last Semiannual Agenda included a possible amendment to Regulation K to permit U.S. banking organizations to engage in a broader range of activities abroad. Specifically, the Board would consider whether U.S. banking organizations should be permitted to underwrite, distribute, and deal in equity securities outside the United States in excess of the current restriction in Regulation K, which prohibits a subsidiary of a U.S. banking organization from making an underwriting commitment for shares of an issuer in excess of: (i) $2 million, or (ii) 20 percent of the capital and surplus of the issuer's voting shares, unless covered by binding commitments from subunderwriters or other purchasers. The Board will consider this item in connection with the broad-based review of Regulation K to be issued by mid-1990. See RIN: 7100-AA98.

It is not expected that the proposal would have a significant economic impact on a substantial number of small businesses because it applies to U.S. banking organizations involved in international securities activities.

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), and section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected date reflects an assessment by the FTC staff of the likelihood that the specified event will occur during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the notation of projected events in this agenda.

Several agenda items concern rulemaking proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding is likely to have a significant economic impact on such entities will depend upon the Commission's final determinations respecting the need for and the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents the judgment of Commission staff based upon information now available. These views should not be regarded as a final staff position nor should they be attributed to the Commission itself. The Commission will independently address the issues presented on the rulemaking record in each proceeding.

Agenda items include the projected timing of certain future actions. In most instances, the dates of future events are listed by month, not by a specific day. Acquisition of new information, change of circumstances, or changes in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the agency contact person listed for each particular proceeding.

4122. REVIEW OF TRADE REGULATION RULE CONCERNING PRESERVATION OF CONSUMERS CLAIMS AND DEFENSES ("HOLDER-IN-DUE COURSE RULE")

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Legal Deadline: None

Abstract: The Holder-In-Due Course Rule affects many sales that are financed by closed-end or open-end consumer credit; therefore, it may have a significant effect on a substantial number of small entities. The Commission has solicited comments and data on this issue and, if the Rule has had an effect, whether it should be amended to minimize what kinds of costs the Rule has imposed on small entities, how the Rule has affected the availability and cost of credit for small entities and how creditors and sellers have adapted to the Rule. This information will be used to determine whether the Commission should amend or repeal the Rule.

4123. MAIL ORDER MERCHANDISE

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Legal Deadline: None

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping dates or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. By subjecting sellers (cont)

Costs relating to the rule may include the cost of establishing a system for monitoring and recording orders, shipments, delays, cancellations, consents to delays, and refunds; the costs of complying with the rule's notification requirements regarding delays (printing, postage, etc.); the cost of processing refunds; and additional inventory costs. On October 11, 1989, the Commission commenced a rulemaking to amend the rule to cover orders placed by telephone, and to change the rule's definition of "properly completed order" for credit sales to mean the time the seller receives sufficient information to charge the buyer's account. The Notice of Proposed Rulemaking ("NPR") was published on November 28, 1989. The deadline for filing written comments is January 29, 1990. Public hearings are scheduled to commence March 28, 1990. After analyzing the rulemaking record, the staff will recommend that the Commission either adopt the proposed amendments or end the inquiry.

Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 703

Legal Deadline: None

Abstract: The Magnuson-Moss Warranty Act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. To assess whether any changes are needed, the Commission conducted a regulatory negotiation process in which an advisory committee was charged to recommend to the Commission revisions to the rule that would facilitate the Congressional (cont)

The committee met for the last time on June 17, 1987, and failed to reach a consensus on rule revisions. The Commission and its staff will continue to monitor the impact of the current informal dispute settlement procedures rule. On April 11, 1988, the FTC received a petition from the Motor Vehicle Manufacturers Association and the Automobile Importers Association to amend this rule in order to preempt certain state "lemon" laws. The Commission has issued an Advance Notice of proposed rulemaking requesting public comment on whether to initiate a review of the Rule and on the issues raised in the petition. Legal Authority: 15 USC 41 et seq, Federal Trade Commission

CFR Citation: 16 CFR 436

Legal Deadline: None

Abstract: On December 21, 1978, the Commission issued a trade regulation rule applicable to franchises and other business opportunity ventures. The franchise rule took effect on October 21, 1979. The rule requires franchisors to give pre-sale disclosures to prospective investors before they pay money or become legally bound to pay. The disclosures provide material information and are designed to assure that potential investors have the information they need to investigate the franchise offer so they can make an informed investment decision. The Commission is considering whether to amend its trade regulation rule concerning franchises and business opportunity ventures. In particular, the Commission is considering whether to amend the rule's earnings claim and preemption provisions.

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419

Legal Deadline: None

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in broadcast and print advertisements, as well as in point of sale information. In January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requested public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

Legal Authority: 15 USC 4401

CFR Citation: 16 CFR 307

Legal Deadline: Other, Judicial, July 31, 1989.
Deadline is for the NPR.

Abstract: On July 31, 1989, the Commission issued a NPR to amend its regulations under the Comprehensive Smokeless Tobacco Act of 1986, 15 U.S.C. 4401, and sought public comment. In 1986, the Commission had issued final regulations implementing the Act's requirements for the display of health warnings in the labeling and advertising of smokeless tobacco products and for the submission of plans specifying the method used to rotate, display, and distribute the mandated health warnings. The regulations exempted utilitarian objects that are sold or given to consumers for their personal use, that display the brand name, logo, or selling message of a smokeless product. The Commission's exemption of these items from the regulation's requirements was challenged in court and the Commission was ordered to delete this exemption. This proposed amendment deletes the previous exemption and proposes a method for the display of the mandated health warnings on utilitarian objects.

Legal Authority: 15 USC 45; 15 USC 46(g); 15 USC 57(a)

CFR Citation: 16 CFR 453

Legal Deadline: None

Abstract: The funeral industry practices rule, which became fully effective on April 30, 1984, seeks to increase consumer access to accurate information about prices and legal requirements prior to and at the time of purchase of funeral goods and services. The Rule: (1) requires funeral directors to provide consumers with written itemized pre-sale disclosures; (2) prohibits misrepresentation of legal and cemetery requirements and the preservative or protective value of embalming, caskets, and vaults; (3) prohibits funeral directors from requiring a casket for cremations, or any other tie-in arrangements; (4) prohibits funeral directors from charging for goods and services not specifically ordered, such as embalming, unless required by law; and (5) requires funeral directors to give, on request, price information over the telephone. The Rule provides that no later than four years after its effective date, the Commission will begin a rulemaking proceeding to determine whether the Rule should be amended or terminated. (cont)

Final Rule Stage

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, (Appendix)

Legal Deadline: None

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. These rules are continually reviewed in order to improve the program's effectiveness and reduce the paperwork burden on the business community. In September 1988, the Commission proposed to amend these rules to exempt the acquisition of small percentages of an issuer's voting securities, and proposed two alternative amendments that would provide other special treatment for acquisitions of small percentages of voting securities. CFR Citation: 16 CFR 305

Legal Deadline: Final, Statutory, July 1, 1989.
See section 2(d)(2)(B) of Pub. L. 100-357, June 28, 1988, 102 Stat. 672.

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator- freezers; (2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. In 1987, the Commission amended the rule to include central air conditioners and heat pumps and to include two new types of furnace under the rule's coverage. The provisions took effect on June 7, 1988. Since the Commission's rule implements the requirements of EPCA, most of the costs imposed on industry members may not be attributable to the rule. The rule applies mainly to manufacturers of household appliances but does impose some burdens on distributors and retailers. Some of those entities may be small businesses under section 610 of the Regulatory Flexibility Act. Therefore, the Commission (cont)

Legal Authority: 15 USC 41 et seq, Federal Trade Commission Act

CFR Citation: 16 CFR 414

Abstract: The Transistor Count Rule states that it is an unfair method of competition and an unfair or deceptive act or practice in connection with the sale of radio receivers (including transceivers) to represent that a radio set contains a specified number of transistors when the transistors counted do not function to detect, amplify, or receive radio signals. The rule was adopted May 4, 1968 and became effective on December 10, 1968. The Commission sought comment on

whether or not changes in technology and marketing over the last twenty years have rendered the rule obsolete and therefore no longer in the public interest. The Commission issued an NPR asking for comment on the continued viability of the rule and whether it should be repealed.

4132. REVIEW OF THE SEWING MACHINE RULE

Legal Authority: 15 USC 41-58

CFR Citation: 16 CFR 401

Legal Deadline: None

Abstract: On June 30, 1965, the Commission promulgated the Sewing Machine Rule. The Rule states that the use of the word "automatic" or terms of similar import to describe a household sewing machine is an unfair or deceptive act. The need for the Rule, stated at the time of promulgation, was that use of the word automatic as a description of a sewing machine led consumers "to believe that merely by the twist of a dial or the flick of a lever they will be able to perform sewing operations." On April 19, 1989, the Commission initiated a rulemaking proceeding to determine whether or not the Sewing Machine Rule should remain in effect without changes or should be repealed. In a Notice of Proposed Rulemaking, the Commission sought public comment on whether sewing machine technology and marketing have changed so that the Rule is no longer needed, and whether the Rule still provides any benefit.

[Ex Parte No. 420 (Sub-No. 18)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a unified agenda of federal regulations.

SUMMARY: Pursuant to OMB Bulletin No. 90-03, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive order concerning regulatory agendas, the Commission is publishing an agenda of: (1) Current and projected rulemakings and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule, including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: A list of proceedings appears below containing information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda also identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget, which is to be published in a single issue of the **Federal Register** in April 1990. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal Government's current regulatory plans and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: January 25, 1990.

By the Commission, Chairman Gradison, Vice Chairman Phillips, Commissioners Simmons, Lamboley, and Emmett.

Noreta R. McGee,

Secretary.

Abstract: This proceeding proposes to eliminate the requirement that motor common carriers of property and freight forwarders file with the Commission and maintain on a continuous basis evidence of cargo liability insurance for the protection of the public. The proposal seeks to eliminate unnecessary burden and cost on carriers and freight forwarders and, if adopted, would free shippers to negotiate directly with carriers for the protection of their goods from loss and damage.

Abstract: The ICC lifted a stay it had previously imposed in this proceeding in order to consider petitions for reconsideration. The result was that regulations which were previously adopted at 54 FR 6403 became effective for rail carriers only. Rail carriers are now permitted to file electronic tariffs as an alternative to printed tariffs. Rail carriers are required to accompany their electronic tariffs with identical printed tariffs until November 8, 1990. With respect to other modes, the effective date of adopted regulations is stayed pending consideration of a petition to reopen.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA)

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of January 31, 1990. NCUA will also include this agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of January 31, 1990.

ADDRESS: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: For each regulation listed, the person(s) named in the listing at the above address or listed telephone number.

SUPPLEMENTARY INFORMATION: The purpose of this agenda is to enable credit unions and the public to follow regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The agenda is divided into four parts: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

The agenda is published pursuant to NCUA Interpretive Ruling and Policy Statement Number 87-2 ("Developing and Reviewing Government Regulations"; 52 FR 35231; September 18, 1987). Executive Order No. 12291 does not require independent executive agencies, such as NCUA, to publish a regulatory agenda, but NCUA has voluntarily decided to do so by including this agenda in the Office of Management and Budget's next publication of its "Unified Agenda of Federal Regulations."

Approved by the NCUA Board on February 7, 1990.

Becky Baker,

Secretary of the Board.

Additional Information: The NCUA Board approved a final rule that was submitted to the Office of Government Ethics, OPM, for approval, in June 1988. The rule was reviewed by OPM and recommended changes have been made. In April 1989, the Board adopted a final package, designated as Part 796, as agency policy and guidelines. The package will not become a final rule until after OPM adopts its own new rules and approves Part 796 as a final regulation.

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION (NRC)

NUCLEAR REGULATORY COMMISSION

0 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual regulatory agenda in accordance with Public Law 96-354 "The Regulatory Flexibility Act" and Executive Order 12291 "Federal Regulation." The agenda is a compilation of all rules on which the NRC has recently completed action or has proposed or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual agenda on October 30, 1989 (54 FR 45620).

ADDRESSES: Comments on any rule in the agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555; Attention: Docketing and Service Branch. Comments may also be hand delivered to the One White Flint North Building, 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m., Federal workdays. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the agenda.

The agenda and any comments received on any rule listed in the agenda are available for public inspection and copying at a cost of ten cents per page at the Nuclear Regulatory Commission's Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC 20555. Single copies of the NRC quarterly agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7082. Customers may call (202) 275-2060 or (202) 275-2171.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this agenda, contact Michael Lesar, Chief, Rules Review Section, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone (301) 492-7758. Persons outside the Washington, DC, metropolitan area may call, toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the agenda is only required semiannually in April and October, the NRC has chosen to update and publish its agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual agenda on October 30, 1989 (54 FR 45620).

Within each group, the rules are ordered according to the Regulation Identifier Number (RIN).

The information in this agenda has been updated through February 23, 1990. The date under the heading "Timetable," for the next scheduled action, is the date the rule is scheduled to be published in the **Federal Register.** The date is considered tentative and is not binding on the Commission or its staff. The regulatory agenda is intended to provide the public early notice and opportunity to participate in the NRC rulemaking process. However, the NRC may consider or act on any rulemaking even though it is not included in the regulatory agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The EDO initiated a procedure for review of the regulations being prepared by staff offices that report to him to ensure that staff resources are allocated most effectively to achieve NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

The NRC agenda lists rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291.

Seven rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

Dated at Bethesda, Maryland, this 13th day of February 1990.

David L. Meyer,

Chief, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration.

NUCLEAR REGULATORY COMMISSION (NRC) — Prerule Stage

4178. NIGHT FIRING QUALIFICATIONS FOR SECURITY GUARDS AT NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Legal Deadline: None

Abstract: The rulemaking would ensure that security force effectiveness at nuclear power plants is not dependent on the time of day. Security guards currently are required to perform night firing for familiarization only. There is no requirement for standards to measure their effectiveness. The rule would change that by requiring that security guards at nuclear power plants qualify for night firing. The only alternative to rulemaking is to retain the current status.

Part 73, Appendix B, Part IV, will be amended to require reactor security guards to qualify annually in an NRC-approved night firing course with their assigned weapons. The amendment will standardize training and qualification in night firing and prepare power reactor guard forces to more effectively respond in the event of an incident occurring in limited lighting conditions. The cost to industry should be relatively modest since licensees already operate daylight firing training and qualification facilities and programs. The costs to NRC will also be minimal because it will only require minor licensing, inspection and other regulatory actions. (cont)

4180. AMENDMENTS TO PART 60 TO DELINEATE ANTICIPATED PROCESSES AND EVENTS AND UNANTICIPATED PROCESSES AND EVENTS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 060

Legal Deadline: None

Abstract: In 10 CFR Part 60, licensing requirements for disposal of radioactive wastes in geologic repositories, certain performance requirements for the repository are based on an assumption of the occurrence of anticipated processes and events. The specific meaning and use of this term, and unanticipated processes and events, needs further clarification. This rulemaking would modify the definition of this term in Section 60.2, modify Section 60.113, which describes the use of this term and modify the definition of "geologic setting" in Section 60.2, and modify the use of that term in Section 60.102.

The objective of the rulemaking is to improve the licensing process for the geologic repository program. It would have no adverse effects on the licensee or the public. It is expected that the resources expended by NRC on the rulemaking would be more than offset by resources saved during the licensing process.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 110

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations by reexamining the existing NRC regulations for the import and export of radioactive wastes. This action is necessary to respond to concerns that international transfers of radioactive wastes, in particular low-level radioactive wastes, may not be properly controlled. Various options for establishing a Commission policy on the import and export of radioactive wastes are being considered. The Commission is publishing this ANPRM to seek comments from the public, industry, and other government agencies on various regulatory options and issues developed thus far.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 051

Legal Deadline: None

Abstract: The final rule would amend the Commission's regulations concerning compliance with the procedural requirements of the National Environmental Policy Act of 1969, as amended (NEPA). This rule makes it clear that the provision excluding NRC enforcement activities from NEPA requirements not only encompasses formal enforcement actions but also encompasses informal administrative mechanisms relating to enforcement such as bulletins, information notices, generic letters, notices of deviation, notices of nonconformance, and confirmatory action letters.

NUCLEAR REGULATORY COMMISSION (NRC) Proposed Rule Stage

4183. AMENDMENT TO 10 CFR 51.51 AND 51.52, TABLES S-3 AND S-4, ADDITION OF RADON-222 AND TECHNETIUM-99 RADIATION VALUES, AND ADDITION OF APPENDIX B, "TABLE S-3 EXPLANATORY ANALYSIS"

Legal Authority: 42 USC 2011; 42 USC 2201; 42 USC 4321; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 51

Legal Deadline: None

Abstract: The proposed rule amends the Table of Uranium Fuel Cycle Environmental Data (Table S-3) by adding new estimates for releases of technetium-99 and radon-222, and by updating other estimates. The proposed rule's Appendix B to Subpart A (narrative explanation), also describes the basis for the values contained in Table S-3, explains the environmental effects of these potential releases from the LWR Fuel Cycle, and postulates the potential radiation doses, health effects, and environmental impacts of these releases. The proposed rule also amends 10 CFR 51.52 to modify the enrichment value of U-235 and the maximum level of average fuel irradiation (burnup in megawatt-days of thermal power per metric ton of uranium). The narrative explanation also addresses important fuel cycle impacts and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants.

Additional Information: The proposed revisions of 10 CFR 51.51 and the addition of Appendix B was published for public review and comment on March 4, 1981 (46 FR 15154). The final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v. NRC, No. 74-1486) in the U.S. Circuit Court of Appeals. The U.S. Court of Appeals (D.C. Circuit) decision on April 27, 1982, invalidated the entire Table S-3 rule. The Supreme Court reversed this decision on June 6, 1983.

The proposed rule to provide an explanatory narrative for Table S-3 has been revised to reflect new modeling developments during the time the rulemaking was deferred. Final action on the Table S-3 rule was held in abeyance until new values for radon-222 and technetium-99 could be added to the table and covered in the narrative explanation. The rule is being reissued as a proposed rule because the scope has been expanded to include radiation values for radon-222 and technetium-99 and the narrative explanation has been extensively revised from that published on March 4, 1981 (46 FR 15154).

4184. PROPOSED REVISIONS TO THE CRITERIA AND PROCEDURES FOR THE REPORTING OF DEFECTS AND NONCOMPLIANCE AND CONDITIONS OF CONSTRUCTION PERMITS

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Legal Deadline: None

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e), both of which require the reporting of safety defects by operating license (OL) holders and construction permit (CP) holders. In addition, Part 21 requires reporting of safety defects by non-licensee vendors. The proposed amendments were prompted by the TMI Action Plan Task II.J.4 and NRC staff experience with Part 21 and sec. 50.55(e) reporting. The main objectives of the rulemaking effort are: (1) reduction of duplicate evaluation and reporting of safety defects; (2) establishment of a consistent threshold for safety defect reporting in Part 21 and sec. 50.55(e); (3) establishment of a consistent, uniform content of reporting under Part 21 and sec. 50.55(e); and (4) establishment of consistent time frames for reporting of defects in Part 21 and sec. 50.55(e). Approximately 200 reports are submitted to the Commission annually under Part 21. Approximately 750 sec. 50.55(e) reports are submitted annually. These reports identify both plant-specific and generic safety defects requiring further NRC evaluation and regulatory action. (cont)

Additional Information: ABSTRACT CONT: Under the current Part 21 and sec. 50.55(e), these reports have formed the basis for NRC issuance of numerous NRC generic communications.

The proposed rulemaking will reduce duplicate reporting and evaluation of safety defects which now exist. The rulemaking will establish a more coherent regulatory framework that is expected to reduce the industry reporting and evaluation burden significantly without any reduction in reporting safety defect information.

Current annual costs of reporting under Part 21 and sec. 50.55(e) are estimated at approximately $6 million dollars for industry and $680,000 for NRC evaluations. It is anticipated that the annual industry reporting burden should be reduced by approximately $800,000 while the NRC burden will be slightly reduced. Additional industry burden, though minimal, is anticipated in the area of reissuing procedures for evaluation, reporting and recordkeeping and training in these procedures.

4185. CRITERIA FOR AN EXTRAORDINARY NUCLEAR OCCURRENCE

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Legal Deadline: None

Abstract: The proposed rule would revise the criteria for an extraordinary nuclear occurrence (ENO) to eliminate the problems encountered in the Three Mile Island ENO determination. It is desirable to get revised criteria in place in the event they are needed.

There are no alternatives to this rulemaking, as the current ENO criteria are already embodied in Subpart E of 10 CFR Part 140. The only way to modify these criteria, as this rule seeks to do, is through rulemaking.

There is no safety impact on public health or safety. The ENO criteria provide legal waivers of defenses. Industry (insurers and utilities) claims that a reduction in the ENO criteria could cause increases in insurance premiums. The final rule would also be responsive to PRM-140-1.

It is estimated that approximately 1.0 staff year of NRC time will be required to process the final rule.

Legal Deadline: None

Abstract: The proposed rule would shorten and simplify existing Commission procedural rules applicable to domestic licensing proceedings by comprehensively restating, revising and reorganizing the statement of those rules to reflect current practice. The changes in this proposed rule would enable the Commission, directly and through its adjudicatory offices, to render decisions in a more timely fashion, eliminate the stylistic complexity of the existing rules, and reduce the burden and expense to the parties participating in agency proceedings. In 1987, the Commission deferred consideration of this proposal which would have revised the Commission's procedural rules governing the conduct of all adjudicatory proceedings, with the exception of export licensing proceedings under 10 CFR Part 110. In 1989, former Chairman Zech requested resubmission of this proposed rule for reconsideration by the Commission.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would clarify in the Commission's regulations the use of the terms "important to safety" and "safety related" by adding definitions of these two terms and of "facility licensing documents" to 10 CFR Part 50 and by discussing how these definitions will be applied in NRC licensing reviews. Significant issues concerning the meaning of these terms as they are used in this part have arisen in Commission licensing proceedings. This proposed rule would define these terms and clarify the nature and extent of their effect on quality assurance requirements, thereby resolving these issues.

Rulemaking was chosen as the method of resolving this issue as a result of the Commission's directive to resolve the issue by rulemaking contained in the Shoreham licensing decision (CLI-84-9, 19 NRC 1323, June 5, 1984).

A position paper requesting approval of the staff proposed definitions and additional guidance from the Commission was signed by the EDO on May 29, 1986. In addition to rulemaking, the position paper discusses the alternative of the Commission (cont)

Since the proposed rule is only clarifying existing requirements, there is no impact on the public or the industry as a result of this rulemaking. It is anticipated that the NRC will expend 3.2 to 4.4 staff years in developing the final rule over a two year period. The manpower and time frame will depend on Commission guidance received on the extent to which 10 CFR usage of the terms is to be consistent, i.e., 10 CFR Part 50 only or all of 10 CFR Chapter I.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed amendment would conform the NRC's regulations pertaining to the availability of official records to existing case law and agency practice. The amendment would reaffirm that the terms of 10 CFR 2.790(c) provide submitters of information a qualified right to have their information returned upon request. This amendment informs the public of three exceptions to the right to withdraw, pursuant to 10 CFR 2.790(c) of the NRC's regulations, i.e., information submitted in a rulemaking proceeding that subsequently forms the basis for the final rule, information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a pending Freedom of Information Act request.

Additionally, the proposed amendment would add a notice statement to 10 CFR Part 2 that submitters of documents and information to the NRC should be careful in submitting copyrighted works. The agency in receiving submittals and making its normal distributions routinely photocopies submittals, makes microfiche of such submittals and insures that these (cont)

Accordingly, copyright owners are on notice that their act of submitting such works to the agency will be considered as the granting to the NRC an implied license to reproduce and distribute according to normal agency practice. Naturally, this notice does not prevent submitters from applying 10 CFR 2.790(b)(1) procedures to information that contains trade secrets or privileged or confidential commercial or financial information (proprietary information) and it is recognized that some information in those categories may be copyrighted. The key factor is that it is their proprietary information status that exempts them from public disclosure and not their copyright designation. Lastly, this implied license is not applicable to fair use of copyrighted works or the incorporation by reference of copyrighted works in agency submittals.

4190. RADIOACTIVE WASTE BELOW REGULATORY CONCERN; GENERIC RULEMAKING

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 2; 10 CFR 20

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) sought comments on a proposal to amend NRC regulations to address disposal of radioactive wastes that contain sufficiently low quantities of radionuclides that their disposal does not need to be regulated as radioactive.

The NRC has already published a policy statement providing guidance for filing petitions for rulemaking to exempt individual waste streams (August 29, 1986; 51 FR 30839). It is believed that generic rulemaking could provide a more efficient and effective means of dealing with disposal of wastes below regulatory concern. Generic rulemaking would supplement the policy statement which was a response to Section 10 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Pub. L. 99-240). The public was asked to comment on 14 questions. The ANPRM requested public comment on several alternative approaches that the NRC could take. The evaluation of public comment together with the results from a proposed research contract will help to determine whether and how NRC should proceed on the matter. (cont)

The purpose of this rulemaking action is to address each source of error that can lead to a misadministration. An ANPRM was published to request public comment on the extent to which in addition to the basic quality assurance procedures (being addressed by another rulemaking action, entitled "Basic Quality Assurance Program for Medical Use of Byproduct Material"), a more comprehensive quality assurance requirement is needed and invites advice and recommendations on about 20 questions that will have to be addressed in the rulemaking process.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

Abstract: The proposed rule would amend the Commission's regulations to include a procedure for licensing a custodian for the post-closure, long-term control of uranium mill tailings sites required by the Uranium Mill Tailings Radiation Control Act of 1987 (UMTRCA). This amendment would establish a general license for custody and long-term care of uranium mill tailings by the Department of Energy, other designated Federal agencies, or States when applicable. The general license would be formulated so that it would become effective for a particular site when (1) NRC concurs in the determination that the site has been properly reclaimed or closed and (2) a Surveillance and Maintenance Plan that meets the requirements of the general license has been received by NRC. No significant impact to the public or industry is expected as a result of this proposed action.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning the medical use of byproduct material. The proposed amendments would require medical use licensees to establish and implement a written basic quality assurance program to prevent, detect, and correct the cause of errors in the administration of byproduct material. The proposed action is necessary to provide for improved patient safety. The proposed amendment, which is intended to prevent errors in medical use, would primarily affect hospitals, clinics, and individual physicians. Modification of reporting and recordkeeping requirements for diagnostic and therapy events or misadministration are also proposed in this rulemaking.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

Legal Deadline: None

Abstract: The proposed rule would return the definition of "meeting" to its pre-1985 wording. The proposal is based on a study of comments submitted on an interim final rule published on May 21, 1985 (50 FR 20889), and the 1987 recommendations and report of the American Bar Association (ABA). Since the pre-1985 wording of the definition of meeting is fully adequate to permit the types of non-Sunshine Act discussions that the NRC believes would be useful, the proposal calls for the NRC to reinstitute its pre-1985 definition of meeting, with the intention of conducting its non-Sunshine Act discussions in accordance with the guidelines recommended by the ABA.

Abstract: This rulemaking would amend 10 CFR 20.403(a) and (b) to revise the licensees' reporting requirements for material licensees

only. In addition, new sections will be developed and added to Parts 30, 40, and 70. While 10 CFR 20.403(a) and (b) are reasonably clear in terms of licensee reporting requirements for events involving "exposures" and "releases" of radioactive materials, these sections are not clear concerning events involving "loss of operation" and "damage to property." The staff believes these criteria are not necessarily indicative of events that pose a hazard to public health and safety or the environment. The periodic loss of operation of a facility due to age or normal wear is expected and usually poses no additional hazard to the public or environment. The same is true for the cost of repairing damage which may be high because of extenuating circumstances and not due to the extent of the damage or its effect on any licensed material. The deleted sections will be replaced with new criteria which will be added to Parts 30, 40, and 70. The staff believes the new requirements to these parts are more indicative of potentially significant events (cont)

This rulemaking action will revise a current Commission regulation; there is no other appropriate procedure to accommodate the clarification.

The health and safety of the public will be better protected because improved reporting requirements will reduce the potential risk of exposure to radiation. Revising the reporting requirements will also simplify regulatory functions and free the staff from unnecessary additional investigation and, at the same time, protect the industry from unnecessary and unexpected fines.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would incorporate by reference Subsection IWE, "Requirements for Class MC Components of Light-Water Cooled Power Plants," of Section XI (Division 1) of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). Subsection IWE provides the rules and requirements for inservice inspection, repair, and replacement of Class MC pressure retaining components and their integral attachments, and of metallic shell and penetration liners of Class CC pressure retaining components and their integral attachments in light-water cooled power plants.

Incorporation by reference of Subsection IWE will provide systematic examination rules for containment structure for meeting Criterion 53 of the General Design Criteria (Appendix A of 10 CFR Part 50) and Appendix J of 10 CFR Part 50. Age-related degradation of containments has occurred, and additional and potentially more serious degradation mechanisms can be anticipated as nuclear power plants age. (cont)

Government Levels Affected: Undetermined

Additional Information: ABSTRACT CONT: If the NRC did not take action to endorse the Subsection IWE rules, the NRC position on examination practices for containment structure would have to be established on a case-by-case basis and improved examination practices for steel containment structures might not be implemented. The other alternatives of incorporating these detailed examination requirements into the American National Standard ANSI/ANS 56.8-1981 or into Appendix J are not feasible.

Incorporating by reference the latest edition and addenda of Subsection IWE will save applicants/licensees and the NRC staff both time and effort by providing uniform detailed criteria against which the staff can review any single submission. Adoption of the proposed amendment would permit the use of improved methods for containment inservice inspection.

CFR Citation: 10 CFR 036

Legal Deadline: None

Abstract: The proposed rule would develop regulations to specify radiation safety requirements and license requirements for the use of licensed radioactive materials in large irradiators. Irradiators use gamma radiation to irradiate products to change their characteristics in some way. The requirements would apply to large panoramic irradiators (those in which the radioactive sources and the material being irradiated are in a room that is accessible to personnel while the source is shielded) and certain large self-contained irradiators in which the source always remains under water. The rule would not cover small self-contained irradiators, instrument calibrators, medical uses of sealed sources (such as teletherapy), or non-destructive testing (such as industrial radiography).

The alternative to a regulation is continuing to license irradiators on a case-by-case basis using license conditions. The formalization would make the NRC's requirements better understood and possibly speed the licensing of irradiators. Development of the rule will require 2 staff-years.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 035

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations concerning training and experience criteria for individuals involved in medical use of byproduct material. Rulemaking may be needed to reduce the chance of misadministrations. The Commission may proceed with rulemaking, assist in the development of national voluntary training standards, or issue a policy statement recommending increased licensee attention to training. If the Commission proceeds with rulemaking, the NRC could publish criteria in its regulations or recognize medical specialty certificates. The NRC is not able to project costs or benefits at this time, and has requested cost/benefit comments in an ANPRM published May 25, 1988. The NRC has hired a contractor to study training, accreditation and certification programs that are now in place. The NRC staff will analyze the study results, due in January 1990, and the comments received to determine whether regulatory action is necessary.

4199. NUCLEAR PLANT LICENSE RENEWAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule is scheduled for completion prior to the anticipated submittal of license renewal applications for Yankee Rowe and Monticello. The rule will provide the basis for development and review of these two "lead plant" applicants and the concurrent development of implementing regulatory guidance. Timely completion of the rule is critical for establishing standards for continued safe operation of power reactors during the license renewal term and providing the regulatory stability desired by utilities in determining whether to prepare for license renewal or pursue alternative sources of generating capacity.

License renewal rulemaking to provide regulatory requirements for extending nuclear power plant licenses beyond 40 years was initiated in response to the Commission's 1986 and 1987 policy and planning guidance. Current regulatory provisions permit license renewal but do not provide requirements for the form and content of a license renewal application nor the standards of acceptability against which the application will be reviewed.

Abstract: The proposed rule would incorporate by reference the 1986 Addenda, the 1987 Addenda, the 1988 Addenda, and the 1989 Edition of Section III, Division 1, and Section XI, Division 1, with a specified modification, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). The ASME Code provides rules for the construction of light-water reactor nuclear power plant components in Section III, Division 1, and provides rules for the inservice inspection and inservice testing of those components in Section XI, Division I.

The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction, inservice inspection, and inservice testing of nuclear power plant components. Abstract: The advance notice of proposed rulemaking (ANPRM) would develop regulations requiring enhanced receipt inspection and testing of products purchased for use in nuclear power plant structures, systems, and components. Abstract: The proposed rule would amend the Commission's regulations governing the licensing proceeding on the disposal of high-level radioactive waste at a geologic repository (HLW proceeding). The proposed revisions are intended to facilitate the Commission's ability to comply with the schedule for the Commission's decision on the construction authorization for the repository, while providing for a through technical review of the license application and the equitable treatment of the parties to the hearing. The proposed rule would establish a new standard for the admission of initial contentions, would define "late contentions" as any contention proposed after the initial contentions were submitted, would require parties to present direct testimony on contentions, would establish a compulsory hearing schedule, and

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require that security personnel qualify and requalify annually on specific standardized day firing courses using all assigned weapons. Current regulations require day firing qualification using a national police course or equivalent for handguns and an NRA or nationally recognized course for semiautomatic weapons. A firing course specified for shotguns is in need of revision. Recent amendments to Part 73 added a requirement for night firing qualification using specific, designated firing courses. To ensure uniformity, the current day firing requirements should be compatible.

Additionally, current regulations specify that security personnel shall have no physical weaknesses that would adversely affect their performance of assigned job duties. However, no regulatory standards exist for assuring that security personnel are physically fit to perform their duties. Requirements for a physical fitness program and fitness standards at Category I fuel cycle facilities for security personnel need to be added to the regulations in order to provide a uniform, (cont)

The proposed rule would amend 10 CFR Part 73, Appendix H, to include day firing qualification courses in each type of required weapon as well as a standardized physical fitness training course and fitness standards for security personnel. Alternatives to the rulemaking would be to allow the status quo to continue. Standardization of day firing courses to be consistent with those established for night firing would be of negligible cost to the 3-4 affected licensees and to the NRC because day firing qualification using a variety of firing courses is already being done. Physical fitness training programs would incur moderate costs to the licensees in the area of personnel time and limited physical fitness equipment. The cost to the NRC would be in the area of licensing and inspection activities. Neither area of rulemaking affects occupational exposure.

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by requiring the implementation of the NRC-approved Emergency Response Data System (ERDS) at all licensed nuclear power plants. The primary role of the Nuclear Regulatory Commission during an emergency at a licensed nuclear power facility is one of monitoring the licensee to assure that appropriate recommendations are made with respect to necessary offsite actions to protect public health and safety. In order to adequately perform its role during an emergency, the NRC requires accurate and timely data on four types of parameters: (1) the reactor core and coolant system conditions to assess the extent or likelihood of core damage; (2) the conditions inside the containment building to assess the likelihood of its failure; (3) the radioactivity release rates to assess the immediacy and degree of public danger; and (4) the data from the plant's meteorological tower to assess the distribution of potential or actual impact on the public. Additional Information: ABSTRACT CONT: The rule would require that the licensees provide the required hardware and software to transmit the data in a format specified by the NRC. The NRC would require that the licensee activate the ERDS as soon as possible following the declaration of an alert condition. Based on a site survey of 80 percent of licensed facilities, the current estimates of licensee costs are $20K-50K for software and $0-100K for hardware. The current estimated cost to NRC is $2.6 million. The proposed changes to 10 CFR Part 50 will be issued for public comment. The rulemaking task will be scheduled over a 2-year period ending March 1991 and will consume 2-3 staff-years of effort depending on the number and difficulty of conflicts to be resolved.

4207. LOW-LEVEL WASTE MANIFEST INFORMATION AND REPORTING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 020; 10 CFR 061

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to: (1) augment and improve information contained in manifests accompanying shipments of waste to low-level waste (LLW) disposal facilities licensed under Part 61; (2) require that operators of these disposal facilities store portions of this manifest information in onsite computer recordkeeping systems; and (3) require that operators periodically submit, in an electronic format, reports of shipment manifest information.

To ensure safe disposal of LLW, the NRC must understand the mechanisms and rates by which radioactivity can be released from LLW and into the environment. To do this, the NRC must understand the chemical, physical, and radiological characteristics of LLW. This task is greatly complicated by the heterogeneous nature of LLW; it exists in a variety of chemical and physical forms and contains roughly 200 different radionuclides in concentrations that can range from a few microcuries to several hundred curies per cubic foot. Each year there are thousands of shipments of LLW disposal sites. (cont)

Government Levels Affected: Undetermined

Additional Information: ABSTRACT CONT: Pursuant to Section 20.311, a manifest must accompany each shipment of LLW to a disposal facility. Unfortunately, existing manifests do not describe the waste in detail sufficient to ensure compliance with the Part 61 performance objectives. In addition, NRC's regulations do not require that disposal site operators develop and operate computer systems for storage and manipulation of shipment manifests information. The NRC believes that such onsite computer systems are necessary for safe disposal facility operation. The NRC also believes that a national data base is needed which contains information on LLW disposed at all sites.

A rulemaking to upgrade shipment manifests and require disposal site computer recordkeeping systems will assure that technical information on LLW is available and in a form which can be used for performance assessments, technical analyses, and other activities. DOE has agreed to establish and operate a national LLW data system based on their mandate under the Low-level Radioactive Waste Policy Amendments Act of 1985.

Abstract: The proposed rule would amend the Commission's regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC on a periodic basis. The proposed report would indicate that the device is still in use or to whom the device has been transferred. The proposed rule would be the most efficient method, considering the number of general licensees and the number of devices currently in use, for assuring that devices are not improperly transferred or inadvertently discarded. The proposed rule is necessary to avoid unnecessary radiation exposure to the public that may occur when an improperly discarded device is included in a batch of scrap metal for reprocessing. The proposed rule would also avoid the unnecessary expense involved in retrieving the manufactured items fabricated from contaminated metal. The proposed rule would impose a small burden on device users and the NRC.

Abstract: The proposed rule would amend the Commission's regulations to require the implementation of the NRC's Emergency Telecommunications

The NRC's primary role in an emergency at a licensed nuclear facility is one of monitoring the licensee to ensure that appropriate recommendations are made with respect to offsite protective actions. In order to adequately perform this function, the NRC requires reliable communications with the licensee and the regional offices. Experience with the currently installed ETS has indicated that a sufficient number of problems exist to warrant a system upgrade.

The ETS upgrade will be comprised of a satellite network to transmit between the NRC Operations Center, the Regions, the Technical Training Center (TTC), and the licensee sites with a land-based telephone exchange backup system. 4211. ● CLARIFICATION OF EMERGENCY PREPAREDNESS REGULATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by clarifying the linkage between the need for "reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency" indicated in Section 50.47(a) and 16 planning standards outlined in Section 50.47(b). In addition, the rulemaking will clarify the term "range of protective" actions. Other issues to be simplified or clarified include monitoring of evacuees, actions for recovery and reentry, notification of the public, evacuation time estimates, and exercise frequency.

In a December 23, 1988, memorandum to the EDO from SECY, the staff was directed to review the "...NRC's emergency planning regulations and propose revisions designed to eliminate ambiguity and clarify the regulations to include what constitutes the exercise scope prior to the full power licensing...." The staff outlined the proposed rulemaking in a memorandum from the EDO to the Commission dated June 29, 1989. (cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 016

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to establish collection procedures enabling the NRC to recover certain debts (by deductions from pay) which are owned by Federal employees to the NRC or other Federal agencies. The proposed rule is necessary to conform NRC regulations to the Debt Collection Act of 1982 which requires each agency to establish a salary offset program for the collection of these debts. The proposed action is intended to allow the NRC to improve its collection of debts due to the United States. In August 1989, OPM alerted NRC that its proposed salary offset regulations had not been submitted for review and approval and requested that they be submitted as soon as possible. The procedures must be submitted to OPM for review and approval prior to becoming a final rule. Because the proposed regulation is necessary to implement the Debt Collection Act of 1982, there is no suitable alternative to rulemaking for this action. The proposed rule has no impact on the public and negligible impact on NRC resources to implement.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would amend the Commission's regulations governing the medical uses of byproduct material. The proposed amendment would add iridium-192 wire to the list of brachytherapy sources permitted for use in interstitial treatment of cancer. Under current NRC regulations, users must have their licenses amended before they may use this brachytherapy source. The proposed rule has been developed in response to a petition for rulemaking (Docket No. PRM-35-8) submitted by Amersham Corporation.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require periodic updates of FBI fingerprint checks for reinvestigation of individuals granted unescorted access to nuclear power plants or access to safeguards information. The current regulations require each licensee who is authorized to operate a nuclear power plant under Part 50 to submit fingerprint cards to the NRC for those individuals who are permitted unescorted access to a nuclear power facility or to safeguards information and who are used to secure a review of the individual's criminal history record by the FBI. Information received from the FBI is reviewed by the licensee in order to determine whether further unescorted access to the facility or to safeguards information should continue to be granted or denied. The current regulations do not include a reinvestigation element.

This rulemaking will have a minimal impact on the NRC because of the NRC's limited participation in processing the reinvestigations. The impact on industry will include (cont)

4216. ● RADIATION DOSE CRITERIA FOR ACCIDENTS AT HIGH-LEVEL WASTE GEOLOGIC REPOSITORIES

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 060

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning radiation dose criteria. Several issues associated with radiation dose criteria have been raised due to different interpretations of the rulemaking record for 10 CFR Part 60. The central issue is the development of radiation dose criteria for a postulated accident that DOE would use to establish a limited access area for the high-level waste (HLW) geologic repository. In order to meet the milestones mandated by the Nuclear Waste Policy Act of 1982, as amended, and milestones pertaining to DOE's production schedule in the Mission Plan amendments, guidance is needed from NRC on radiation dose criteria for postulated accidents to be used by DOE for the siting design of a geologic repository.

The proposed amendment would require the establishment of a limited access area, based on radiation dose criteria, for the siting of the geologic repository. In addition, a number of new definitions would need to be included. (cont)

4217. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Legal Deadline: None

Abstract: The proposed rule would implement the Equal Access to Justice Act (EAJA) by providing for the payment of fees and expenses to certain eligible individuals and businesses that prevail in agency adjudications when the agency's position is determined not to have been substantially justified. This proposed regulation is modeled after rules issued by the Administrative Conference of the United States (ACUS) and has been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent to develop government-wide, "uniform" agency regulations and would describe NRC procedures and requirements for the filing and disposition of EAJA applications. A draft final rule was sent to the Commission in June 1982, but Commission action was suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. This issue was also the subject of litigation in Business and Professional People for the Public Interest v. NRC, 793 F. 2d 1366 (D.C. Cir. 1986). This litigation is being evaluated to determine what if any changes may be necessary in the proposed rule. (cont)

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation that are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated, most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to provide better assurance of protection against radiation; establish a clear health protection basis for the limits; reflect current information on health risk, dosimetry, and radiation protection practices and experience; provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; be consistent with recommendations of world authorities; International Commission on Radiological Protection (ICRP); and apply to all licensees in a consistent manner.

Alternatives to the complete revision considered were no action, delay for further guidance, and partial revision (cont)

Benefits would include updating the regulations to reflect contemporary scientific knowledge and radiation protection philosophy; implementing regulations which reflect the ICRP risk-based rationale; reducing lifetime doses to individuals receiving the highest exposures; implementing provisions for summation of doses from internal and external exposures; providing clearly identified dose limits for the public; and providing an understandable health-risk base for protection.

The cost of implementing the revision is estimated to be $33 million for all NRC and Agreement State licensees in the initial year and about $8 million in each subsequent year. This cost does not include any savings which might also be realized by the revision.

4219. PRIMARY REACTOR CONTAINMENT LEAKAGE TESTING FOR WATER-COOLED POWER REACTORS

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations, current regulatory practice that is no longer being reflected accurately by the existing rule, and endorsement in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss-of-coolant accident conditions. The majority of the effort needed by NRC to issue the rule has already been expended. (cont)

4220. PERSONNEL ACCESS AUTHORIZATION PROGRAM

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050; 10 CFR 073

Legal Deadline: None

Abstract: The Commission has concluded that it is appropriate for each licensee who operates a nuclear power plant to establish an access authorization program to ensure that individuals who require unescorted access to protected areas or vital areas of their facilities are trustworthy, reliable, emotionally stable, and do not pose a threat to commit radiological sabotage. Accordingly, the NRC published a proposed rule on August 1, 1984, which would require an access authorization program at nuclear power plants (42 FR 30726).

An alternative proposal by the Nuclear Utility Management and Resource Committee (NUMARC) was submitted as a public comment on this proposed rule. The alternative proposed a voluntary industry commitment to implement an access authorization program at nuclear power plants based upon industry guidelines. Major provisions of this program include background investigation, psychological evaluation, and behavioral observation. (cont)

On June 18, 1986, the Commission approved developing a policy statement endorsing industry guidelines as an alternative to the proposed rulemaking. Commitments to adhere to these guidelines would be formalized through amendments to the physical security plans and be subject to inspection and enforcement by NRC.

On March 9, 1988 (53 FR 7534), the NRC published a proposed policy statement endorsing the NUMARC guidelines. In the Federal Register notice, the Commission specifically requested public comments as to whether the access authorization program should be a rule or a policy statement.

On April 19, 1989, the Commission decided to go forward with a final rule which would require all licensees to have an access authorization program and would specify the major attributes of the program. The NRC would also issue a regulatory guide which would endorse, with appropriate exceptions, the applicable industry guidelines, as an acceptable way of complying with the rule.

4221. ELIMINATION OF INCONSISTENCIES BETWEEN NRC REGULATIONS AND EPA HLW STANDARDS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Legal Deadline: None

Abstract: The proposed rule would eliminate several inconsistencies with the EPA standards to be developed for the disposal of HLW in deep geologic repositories. The Nuclear Waste Policy Act of 1982 (NWPA) directs NRC to promulgate criteria for the licensing of HLW geologic repositories. Section 121(c) of this Act states that the criteria for the licensing of HLW geologic repositories must be consistent with these standards. The proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement.

Because the NWPA directs NRC to eliminate inconsistencies between Part 60 and the EPA standard, the alternatives to the proposed action are limited by statute.

The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations. NRC resources needed would be several staff-years but will not include contract resources.

Because the Federal Court invalidated the EPA standards, action on this rule, which is in response to the EPA standards, is undetermined.

Legal Authority: 42 USC 2201; 42 USC 2167; 42 USC 2073

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: The proposed rule, which is being initiated in partial response to a petition filed by Edison Electric Institute and Utility Nuclear Waste Management Group (PRM-20-15, dated July 31, 1984), would amend NRC regulations to allow onsite incineration of waste oil at nuclear power plants subject to specified conditions. Currently, the only approved disposal method for low-level, radioactively contaminated waste oil from nuclear power plants involves absorption or solidification, transportation to, and burial at a licensed disposal site. There is a clear need to allow, for very low activity level wastes, the use of alternative disposal methods which are more cost effective from a radiological health and safety standpoint and which conserve the limited disposal capacity of low-level waste burial sites.

Increased savings to both the public and the industry could thereby be achieved without imposing additional risk to the public health and safety. (cont)

Abstract: The proposed rule, would in conjunction with a corresponding rule change by the U.S. Department of Transportation, make the United States Federal regulations for the safe transportation of radioactive material consistent with those of the International Atomic Energy Agency (IAEA). The IAEA regulations can be found in IAEA Safety Series No. 6 "Regulations for the Safe Transport of Radioactive Material," 1985 Edition.

Consistency in transportation regulations throughout the world facilitates the free movement of radioactive materials between countries for medical, research, industrial, and nuclear fuel cycle purposes. Consistency of transportation regulations throughout the world also contributes to safety by concentrating the efforts of the world's experts on a single set of safety standards and guidance (those of the IAEA) from which individual countries can develop their domestic regulations. In addition, the accident experience of every country that bases its domestic regulations on those of the IAEA can be applied by every other country with consistent regulations to improve its safety program. Abstract: The proposed rule would establish NRC as the sole authority for approving onsite disposal of very low-level waste at all NRC licensed reactors and at Part 70 facilities. There is a need to amend 10 CFR 150.15 to authorize one agency (the NRC) to regulate all such onsite disposal of very low-level waste in order to provide a comprehensive regulatory review, to ensure that sufficient records of disposals are retained, to avoid unnecessary duplication of effort, and to provide greater assurance that the site can be released for unrestricted use upon decommissioning.

Abstract: The proposed rule would amend the Commission's regulations concerning enforcement of Section 504 of the Rehabilitation Act of 1973, as amended, in Federally assisted programs or activities to include a cross-reference to the Uniform Federal Accessibility Standards (UFAS). Because some facilities subject to new construction or alteration requirements under Section 504 are also subject to the Architectural Barriers Act, government wide reference to UFAS will diminish the possibility that recipients of Federal financial assistance would face conflicting enforcement standards. In addition, reference to UFAS by all Federal funding agencies will reduce potential conflicts when a building is subject to the Section 504 regulations or more than one Federal agency. The U.S. Department of Justice (DOJ) is the lead agency in proposing this amendment. The U.S. Nuclear Regulatory Commission is joining DOJ and other Federal agencies in the proposed rule.

Legal Authority: 42 USC 10153; 42 USC 10198

Abstract: The proposed rule is in response to the Nuclear Waste Policy Act (NWPA) Section 218 (a) which states in part, that the Secretary of DOE shall establish a demonstration program, in cooperation with the private sector, for dry storage of spent nuclear fuel at civilian nuclear power reactor sites. The objective of this program is establishing one or more technologies that the Commission may, by rule, approve for use at sites at civilian nuclear power reactors. The NWPA also requires that the NRC establish procedures for the licensing of any technology approved by the Commission under Section 218(a) for use at the site of any civilian nuclear power reactor.

The staff anticipates a significant increase in the demand for use of dry spent fuel storage casks starting in the early 1990s, thus processing of this rulemaking is timely. NRC resource requirements are anticipated to be about two staff years.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 050

Abstract: The proposed rule revises the Pressurized Thermal Shock (PTS) rule, published on July 23, 1985, which established a screening criterion, a limit on the degree of radiation embrittlement of PWR reactor vessel beltline materials beyond which operation cannot continue without additional plant-specific analysis. The PTS rule prescribed how to calculate the degree of embrittlement as a function of the copper and nickel contents of the controlling material and the neutron fluence. The proposed amendment revises the calculative procedures to be consistent with that given in Revision 2 of Regulatory Guide 1.99. This guide, which was published in final form in May 1988, provides an updated correlation of embrittlement data.

The need to amend the PTS rule to be consistent with the guide became apparent when it was found that some medium-copper, high-nickel materials embrittlement is worse now than predicted using the PTS rule. A number of PWR's will reach the screening criterion sooner than previously thought, and three plants will need to make plant-specific analyses in the next 10 years. (cont)

Additional Information: ABSTRACT CONT: Therefore, a high priority is being given to this effort.

Immediate costs to industry will be those required for each utility to update the January 23, 1986, submittal required by the PTS rule, using fluence estimates that take account of flux reduction efforts in the interim and using the new procedure for calculating RT/PTS. In addition, three to five plants will need to make the expenditure of an estimated 2.5 million dollars for the plant-specific analysis in the 1990s instead of 10 to 15 years later.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 070; 10 CFR 072; 10 CFR 073; 10 CFR 075

Legal Deadline: None

Abstract: The proposed rule amends the Commission's regulations dealing with physical protection requirements that are out of date, susceptible to differing interpretations, or in need of clarification. These problems were identified by a systematic review of the agency's safeguards regulations and guidance documents conducted by the Safeguards Interoffice Review Group (SIRG). In addition, the staff has identified other areas in the regulations where minor changes are warranted. In response to these efforts, specific amendments to the regulations are being proposed. The proposed changes would: (1) add definitions for common terms not currently defined by frequent use, (2) delete action dates that no longer apply, (3) correct outdated terms and cross references, (4) clarify wording that is susceptible to differing interpretations, (5) correct typographical errors, and (6) make other minor changes. These minor amendments affect the public, industry and the NRC only in so far as they make the regulations easier to understand, implement, and enforce. It is estimated that 0.4 staff-years of NRC effort over 2 years will be required for the rulemaking.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 002

Legal Deadline: None

Abstract: The proposed rule would amend NRC regulations to provide rules of procedure for informal adjudicatory hearings in nuclear power reactor operator licensing proceedings. The Atomic Energy Act of 1954 requires that the NRC, in any proceeding for the granting, suspending, revoking, or amending of an NRC license, including licensing as an operator or senior operator at a nuclear power plant, afford an interested person, upon request, a "hearing." This proposed rule would amend an existing rule which provides for informal hearing procedures for materials licensing proceedings to include reactor operator licensing proceedings as well.

4232. EXPORT OF HEAVY WATER TO CANADA

Legal Authority: 42 USC 3201; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 110

Legal Deadline: None

Abstract: The final rule would amend the Commission's regulations concerning the import and export of nuclear equipment and material in 10 CFR Part 110. Current regulations require that license applications for the export of 1000 kilograms or more of heavy water to any country require review by the Commission. The Commission has reviewed its processing of nuclear export license applications and has determined that license applications for the export of any quantity of heavy water to Canada do not raise issues that require Commission review. Therefore, the Commission has delegated additional authority to the NRC staff to act upon such export license applications without prior consultation with the Commission. There is no acceptable alternative to rulemaking because an amendment to the regulations is necessary to identify the classes of export license application which require Commission review. The rule should benefit the NRC, the industry, and the public by expediting the review process for these kinds of applications.

Legal Authority: 31 USC 9701; 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would amend the Commission's regulations governing licensing and inspection fees for radioisotope licenses (small programs licensed under the provisions of 10 CFR Parts 30, 40, and 70). The revised schedule of fees that would more completely recover the costs incurred by the Commission in providing services to identifiable recipients. The proposed rule would establish a ceiling of $50,000 for Topical Reports, update the schedule of fees for small byproduct material applications for decommissioning, change the cost per professional staff hour for NRC services based on the FY 1990 budget, delete certain exemption provisions and clarify others for ease of administration, add a new exemption to provide that Indian tribes and Indian organizations will be exempt from the payment of fees, and request that bills in excess of $5,000 be paid by electronic fund transfer in accordance with U.S. Department of the Treasury cash management initiatives.

4234. ● ASNT CERTIFICATION OF INDUSTRIAL RADIOGRAPHERS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 034

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations on licenses for radiography and radiation safety requirements for radiographic operations to permit applicants for a license to indicate that all of their active radiographers are certified in radiation safety by the American Society for Nondestructive Testing (ASNT).

Current NRC sealed source radiography licensing requirements specify that an applicant will have an adequate program for training radiographers and will submit a schedule or description of the program including initial training, periodic retraining, on-the-job training, and the means to be used by the licensee to determine the radiographer's knowledge and understanding of, and ability to comply with, Commission regulations and licensing requirements, and the operating and emergency procedures of the applicant. The NRC is proposing to permit applicants to affirm, in lieu of submitting descriptions of their initial radiation safety training and radiographer qualification program, that all individuals acting as radiographers are or will be certified in radiation safety (cont)

Additional Information: ABSTRACT CONT: through the Industrial Radiography Radiation Safety Program of the ASNT. Contingent upon an analysis of costs and benefits and demonstrated success of the ASNT certification program, the NRC is planning to initiate a subsequent rulemaking which would require third-party certification of all radiographers.

The ASNT program will offer certification for both isotope and x-ray users. Certification would be valid for 5 years, with retesting required for renewal. The staff expects use of a certification program by licensees will not affect licensee training costs since the ASNT eligibility requirements

include documented training. Some small reduction in cost will be associated with the application process because, if a radiography licensee applicant elects to have his or her staff certified, he or she will not have to submit a detailed description of a planned radiation safety training and testing program. The total cost to the industry would be $6 million over a 5-year certification period, or $1.2 million per year.

Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The final rule would amend the Commission's regulations dealing with discrimination against persons who, on the grounds of sex, are excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity licensed by the NRC. The Commission has decided that Section 401 of the Energy Reorganization Act, which prohibits sex discrimination, applies only to the Commission and does not apply to NRC licensees and/or applicants. Since this decision invalidates 10 CFR 19.32 and 10 CFR 2.111, action is being taken to amend these sections and to incorporate appropriate language to clarify that these sections do not apply to licensee employees.

Abstract: The final rule provides for the sequestration of all persons compelled to appear before NRC representatives under subpoena during the conduct of investigative interviews. The final rule also gives the agency official conducting the investigation (after consultation with the Office of the General Counsel) the authority to exclude an attorney who represents multiple interests from the investigatory interviews of other witness clients or from the investigatory proceedings entirely whenever the agency official has a reasonable basis to believe that such representation might prejudice, impair or impede the integrity of the investigation. The final rule requires the official to document the basis for counsel's exclusion and to provide excluded counsel a written statement of the reasons for the exclusion. The final rule also provides disqualified counsel a right to Commission review of the disqualification decision. The final rule is intended to clarify and delineate the rights and responsibilities of the agency, interviewees, licensees, and attorneys during the conduct of agency investigations. (cont)

Abstract: The final rule amends the Commission's regulations on property insurance as they apply to commercial power reactor licensees. The final rule, which is in response to three petitions for rulemaking (PRM-50-51, PRM-50-51A, PRM-50-51B), (1) clarifies the scope and timing of the stabilization and decontamination processes after an accident at a covered reactor; (2) specifies that the insurance is required to ensure that commercial power reactor licensees will have sufficient funds to carry out their obligations to clean up and decontaminate after an accident; (3) eliminates the requirement that insurance proceeds after an accident are paid to an independent trustee; and (4) solicits comments on appropriate level of required insurance in view of inflation of decontamination and clean up costs.

Unified Regulatory Agenda

AGENCY: Oversight Board.

ACTION: Publication of agenda items.

SUMMARY: The Oversight Board is hereby publishing items for the April 1990 Unified Agenda of Federal Regulations. The agenda items reflect the status of the Oversight Board's regulatory projects as of the date of this notice.

ADDRESS: Oversight Board, Office of General Counsel, 1825 Connecticut Avenue NW., Washington, DC 20232.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

SUPPLEMENTARY INFORMATION: The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), Pub. L. 101-73, 103 Stat. 183, signed into law on August 9, 1989, established the Oversight Board and the Resolution Trust Corporation (RTC). The RTC was created as the operational entity to manage and resolve all cases involving depository institutions that were insured by the Federal Savings and Loan Insurance Corporation (FSLIC) before the enactment of "FIRREA" and for which a conservator or receiver is appointed between January 1, 1989, and August 9, 1992. The RTC is also responsible for reviewing and, if appropriate, revising the case resolutions completed by FSLIC during 1988 and 1989 and for dissolving the Federal Asset Disposition Association. The Oversight Board oversees the RTC's operations; and to this end, Congress vested it with the authority to make policy, review performance, and approve financing.

As a consequence, the Oversight Board has begun to propose and adopt a number of regulations, either as required by "FIRREA" or as deemed necessary by the Oversight Board. Although not required to do so, the Oversight Board is pleased to participate in the Unified Regulatory Agenda in order to further the objectives of managing the Government's regulatory program as detailed in OMB Bulletin 90-03.

Dated: February 22, 1990.
Oversight Board for Resolution Trust Corporation.
William Taylor,
Acting President and Chief Executive Officer.

4252. ● QUALIFICATION OF, ETHICAL STANDARDS OF CONDUCT FOR, AND RESTRICTIONS ON THE USE OF CONFIDENTIAL INFORMATION BY INDEPENDENT CONTRACTORS

Legal Authority: 12 USC 1441a

CFR Citation: 12 CFR 1506

Legal Deadline: Final, Statutory, February 5, 1990.

Abstract: The Financial Institutions Reform, Recovery, and Enforcement Act of 1989, "FIRREA," directed that, no later than 180 days after its enactment, the Oversight Board and the Resolution Trust Corporation (RTC), promulgate rules applicable to independent contractors governing conflicts of interest, ethical responsibilities, and the use of confidential information. Working jointly, the Oversight Board and the RTC, on November 28, 1989, published in the Federal Register a joint notice of proposed rulemaking which provided for public comment.

Fifty-six comments were received during the comment period and, as a result, the final regulations were significantly modified to reflect a number of the concerns expressed. The final rule was effective on February 5, 1990, and it has been determined not to be a "major rule" for the purposes of EO 12291.

RESOLUTION TRUST CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Resolution Trust Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Resolution Trust Corporation (RTC) is hereby publishing items for the April 1990 regulatory agenda. The agenda contains information about the RTC's current and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all staff identified in the agenda is Resolution Trust Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: The RTC was created on August 9, 1989, as an instrumentality of the United States by title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Under FIRREA, the RTC was given the power to adopt such rules, regulations, standards, policies, procedures, guidelines, and statements as the Corporation considers necessary or appropriate to carry out its mission. Twice each year, the RTC will publish an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*).

Interested persons may petition the RTC for the issuance, amendment, or repeal of any regulation by submitting a written petition to the Executive Secretary, Resolution Trust Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Dated: March 2, 1990.
Resolution Trust Corporation.

John M. Buckley, Jr.,

Executive Secretary.

4253. ● REAL ESTATE APPRAISAL STANDARDS

Significance: Agency Priority

Legal Authority: PL 101-73, Sec 1110

CFR Citation: 12 CFR 1608

Legal Deadline: NPRM, Statutory, February 9, 1990. Final, Statutory, August 9, 1990.

Abstract: The proposed rule would implement the mandate of section 1110 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") that requires each Federal financial institutions regulatory agency and the Resolution Trust Corporation to prescribe appropriate standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of each such agency or instrumentality. These standards must be in conformance with the provisions of title XI (Real Estate Appraisal Reform Amendments) of FIRREA.

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions pursuant to chapter 6 of the Administrative Procedure Act and Office of Management and Budget Bulletin 90-03. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission invites questions and public comment on individual agenda entries.

DATE: Public comments are due by June 30, 1990.

ADDRESSES: Persons wishing to submit written views should file three copies with Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 5th Street NW., Room 6184, Stop 6-9, Washington, DC 20549. All submissions should refer to File No. S7-6-90 and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: William J. Atkinson, Office of Economic Analysis, Securities and Exchange Commission, 450 5th Street NW., Room 9200, Stop 9-1, Washington, DC 20549 (202-272-7100). The names of persons to contact concerning particular rules are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each Federal agency, during April and October of each year, to publish in the **Federal Register** a regulatory flexibility agenda identifying rules which the agency expects to propose or adopt that are likely to have a significant economic impact on a substantial number of small entities.[1]

The RFA also requires the Commission to publish a plan for the periodic review of all rules issued by the agency which have or will have a significant economic impact on a substantial number of small entities.[2] The Commission published such a plan in 1981.[3] The plan provides for the review of all rules in effect on January 1, 1981, within 10 years of that date and for the review of all rules adopted thereafter within 10 years of their adoption as final rules. The RFA further requires publication, each year, of a list of those rules which are to be reviewed during the succeeding 12 months.[4]

The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be subject to RFA review requirements. The Commission is identifying them here in order to inform the public of its intention to review them. The agenda also identifies the rulemaking actions which have been completed (or withdrawn) since the last RFA release was published.[5]

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included nor is the Commission required to consider or act on any matter which is included.[6] Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities.[7] This preliminary judgment may be changed upon further analysis.

The Commission's entries to the April 1990 Unified Agenda of Federal Regulations are listed below. The Commission's agenda includes new entries as well as items carried over from the October 1989 publication. New entries are marked with a bullet next to the Sequence Number. Priority items are identified under the heading "Significance."

Copies of the Commission's regulatory agenda are available from the Commission's Office of Public Affairs (Room 1015). The Commission's regulatory agenda is also available for inspection and copying in the Public Reference Room (Room 1026). Please refer to File S7-6-90 as noted above.

The Commission invites public comment on the individual entries in its regulatory agenda.

By the Commission.

Dated: April 3, 1990.

Jonathan G. Katz,

Secretary.

Abstract: The Division of Investment Management, together with the Divisions of Corporation Finance and Market Regulation, is undertaking a year-long comprehensive study of the Investment Company Act of 1940 in an effort to modernize the existing regulatory structure governing investment companies. The study will consider a broad range of issues including: possible alternative regulatory structures for certain investment vehicles; corporate governance; distribution; securitization of assets; internationalization of the securities markets; issues arising under the Securities Act of 1933; issues related to tax law; issues related to the entry of banks into the investment company business; insurance products; and other matters. Proposed amendments to Rules 12b-1 and 17d-3 and proposed rule 6c-10, all under the Investment Company Act of 1940, and Mutual Fund Governance, were formerly separate items on the agenda that have been merged with this item.

Abstract: The staff is considering whether to recommend that the Commission propose rules that would promote shareholder analysis of extraordinary corporate transactions recommended or approved by the board of directors of the subject company. Amendments would be proposed to Rule 13e-3 and Schedule 13E-3 to apply those provisions to transactions where it is anticipated that management will have a significant interest in the transaction, such as an equity interest in the surviving entity. The proposals also would adopt enhanced disclosure requirements, similar to those of Rule 13e-3 for a broader class of extraordinary transactions. The objective of the proposals would be to provide investors with more information concerning the transaction (including the values inherent in the transaction) and the evaluation processes of the board of directors. In connection with this rulemaking project, a review of Rules 13e-3 and 14d-1 through 14f-1 and Schedule 13E-3 for Regulatory Flexibility Act purposes will be conducted.

CFR Citation: 17 CFR 240.12a-7

Abstract: The Commission has proposed Rule 12a-7, which would exempt from registration under Section 12(a) of the Securities Exchange Act of 1934 securities that are traded as part of a market basket transaction, provided that each component security otherwise is a national market system security, is listed and registered on another national securities exchange or quoted on the National Association of Securities Dealers Automated Quotation System and is part of a standardized market basket containing a least 100 securities. The proposed rule, if adopted, would reduce costs to national securities exchanges because without the exemption such exchanges would either have to apply for unlisted trading privileges, or register, under Section 12 of the Act securities that are only traded on their exchange as part of a market basket. In addition, the proposed rule should not have any significant economic impact on small issuers because the trading of stocks solely as part of a market basket should not impact the primary market for the individual securities comprising the market basket.

Abstract: Absent an exception, every solicitation of a proxy, authorization or consent with respect to any security issued or to be issued by a registered investment company, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to some duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. Abstract: The Commission has proposed rules that would exempt smaller investment advisers from most federal adviser regulation, other than the general antifraud provisions, if the advisers are registered in all states in which they do business. The proposed exemptions should significantly diminish the costs and paperwork associated with dual federal and state regulation of small advisory businesses. The proposed rules would rely on the states to assume responsibility for the detailed regulation that, at the federal level, would no longer be applicable to small advisers exempt under these rules. The proposed rules, which include both an interstate and an intrastate exemption, would determine eligibility for the exemptions by reference to the size of the adviser's business; whether the adviser has custody of client funds or securities; and whether the adviser is registered as an adviser in the state or states in which it does business. The proposed exemptions, together with the amendment of several rules, would eliminate costs of registration and reporting as well as compliance with the brochure rule, the recordkeeping rule, the performance fee rule, the cash (cont)

Legal Authority: 15 USC 80a-37; 15 USC 80a-24

CFR Citation: 17 CFR 270.24f-1; 17 CFR 270.24f-2

Legal Deadline: None

Abstract: Rules 24f-1 and 24f-2 under the Investment Company Act of 1940, respectively, permit certain investment companies to register securities sold in excess of the number of shares included in a registration under the Securities Act of 1933. The changes proposed will clarify operation of certain provisions of the rules with respect to time periods provided therein (by changing the measurement of the time periods from months to days) and by clarifying the filing requirements of Rule 24f-2 in the context of investment company reorganizations.

Abstract: The Commission has proposed amendments to require (1) presentation of certain industry segment information for interim periods; (2) a discussion of reportable segments in management's discussion and analysis; and (3) modifications of other miscellaneous interim reporting requirements. The release also provides advance notice of possible future rulemaking regarding (1) additional segment reporting disclosures and (2) uniform disclosure of off balance sheet financing arrangements. The proposals are designed to enhance analysis of financial information. They may entail some new recordkeeping, but the costs, if any, that may be associated with the additional recordkeeping have not been determined. The Commission's interim reporting rules will be reviewed as a part of this project.

Abstract: The Commission has proposed a multijurisdictional disclosure system that would permit Canadian issuers that, depending on the nature of the offering, meet market value, public float and Canadian reporting history tests to register securities in the United States using disclosure documents prepared according to the requirements of Canadian regulatory authorities. Certain Canadian issuers would also be able to use such documents to meet U.S. periodic disclosure requirements. Companies subject to U.S. proxy requirements could use Canadian documents for certain solicitations. Canadian insider reports could be filed with the Commission. Additionally, tender offers for Canadian companies could be made in accordance with Canadian rules where a limited number of shareholders reside in the United States.

Legal Authority: 15 USC 78o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.15c3-1

Legal Deadline: None

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the specialist financial responsibility rules and specialist financial surveillance systems of the various exchanges. As a result, the Commission has proposed amendments to the net capital rule that, among other things, will make the rule applicable to certain specialists that are now exempt from the rule. In addition to the consequential overall financial accountability and discipline that results from the application of the net capital rule, the Commission believes it would be desirable to have a uniform measure whereby it may review the financial health and liquidity of all specialists at all exchanges.

Significance: Agency Priority

Legal Authority: 15 USC 78o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.15c3-1

Legal Deadline: None

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the appropriate levels of minimum net capital required of registered broker-dealers. As a result, the Commission has proposed amendments to the net capital rule that, among other things, would raise the minimum net capital required of various classes of registered broker-dealers. The Commission believes that these higher levels of required net capital are justified based upon the risks posed by undercapitalized firms to customers and to the securities system as a whole. In addition, in light of the recent bankruptcy of Drexel Burnham Lambert

Group, Inc., the Division of Market Regulation has begun an examination of possible changes to the financial responsibility rules relating to (1) the appropriate levels of capital (including early warning levels) for large securities firms, (2) notification of capital transfers between a registered broker-dealer and its affiliates, and (3) restrictions on transfers of capital in the event of a financial or operational problem that may adversely affect the capital condition (cont)

Abstract: On March 9, 1987, the Commission reproposed for public comment Form N-7, a new form for registering unit investment trusts("UITS") and their securities under the Investment Company Act of 1940 and the Securities Act of 1933. Form N-7 was originally proposed by the Commission on May 14, 1985. Adoption of Form N-7 would (i) codify the disclosure requirements for UITS into one form; (ii) codify the disclosure standards that have been developed for UITS; and (iii) shorten and simplify the prospectus used in connection with the sale of units in both the initial offering and in the secondary market maintained by the sponsor. The requirement for audited financial statements would be eliminated under certain circumstances. Under the reproposal, the requirement that registrants include certain third party financial statements in the registration statement would be extended to insurers as well as guarantors of portfolio securities of the trust.

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies that issue periodic payment plan certificates or are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission has proposed a simplified three-part form because current prospectuses have become too cumbersome for the average investor to understand and current requirements result in the disclosure of much information that is not necessarily material to an investment decision.

Abstract: Proposed Rule 17 clarifies under what conditions diversification into non-utility enterprises would not be deemed detrimental to the public interest or the interest of investors or consumers within the meaning of the "unless and except" clause of Section 3(a)(1) of the Public Utility Holding Company Act of 1935. The rule would provide two alternative "safe harbors". A companion proposed amendment to rule 2 under the Act would require that, in order for a claim of exemption under rule 2 to be effective, the claimant must meet one of the safe harbor provisions of rule 17. Also proposed is an amendment to Form U-3A-2, the statement filed annually by holding companies claiming exemptions under rule 2, that would request information necessary to determine whether a rule 2 claim of exemption by an intrastate holding company was meritorious in light of the requirement added to rule 2. These proposals could significantly increase regulatory compliance costs for those intrastate public utility holding companies that have diversified operations, or that intend to do so. The proposals could require such a company to forego acquisition of (con't)

Abstract: The Commission has proposed amendments to the disclosure requirements for mutual funds, that would include alternative amendments for providing investors information about the investment results achieved by funds. The first proposal would require management to discuss and analyze the mutual fund's performance during its previous fiscal year and the techniques used to achieve that performance in light of the fund's objectives. The second proposal would require a comparison of fund performance over certain time periods to the performance of an appropriate securities index over the same periods. The proposed amendments also would require disclosure about persons who significantly contribute to the investment advice relied on by funds. Finally, the proposed amendments would shorten and simplify the per share table contained in the prospectus.

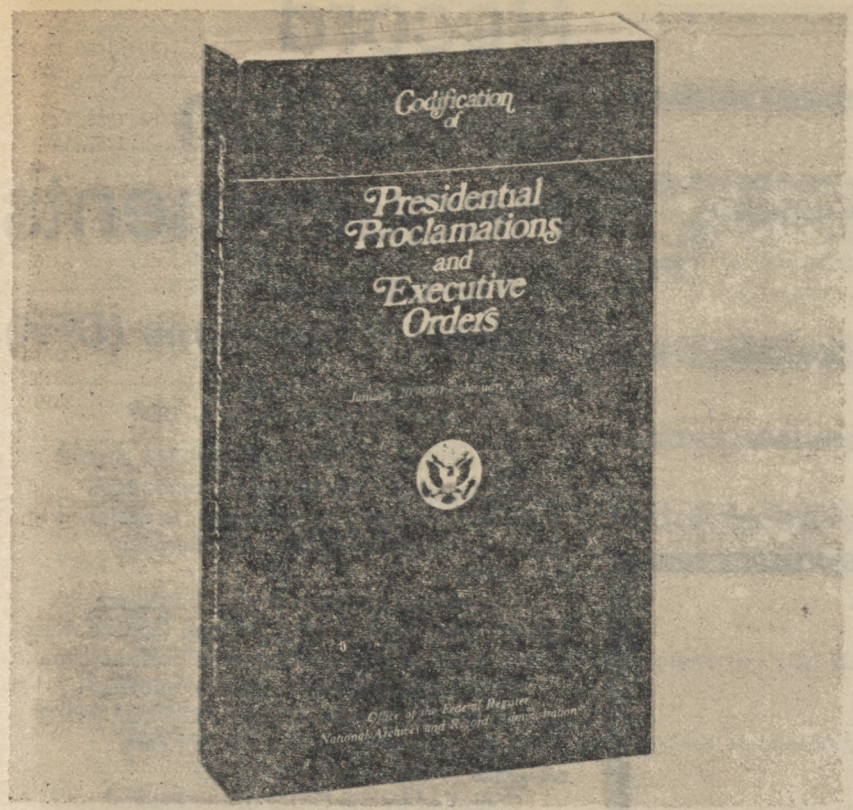
New edition .... Order now !



For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1990

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

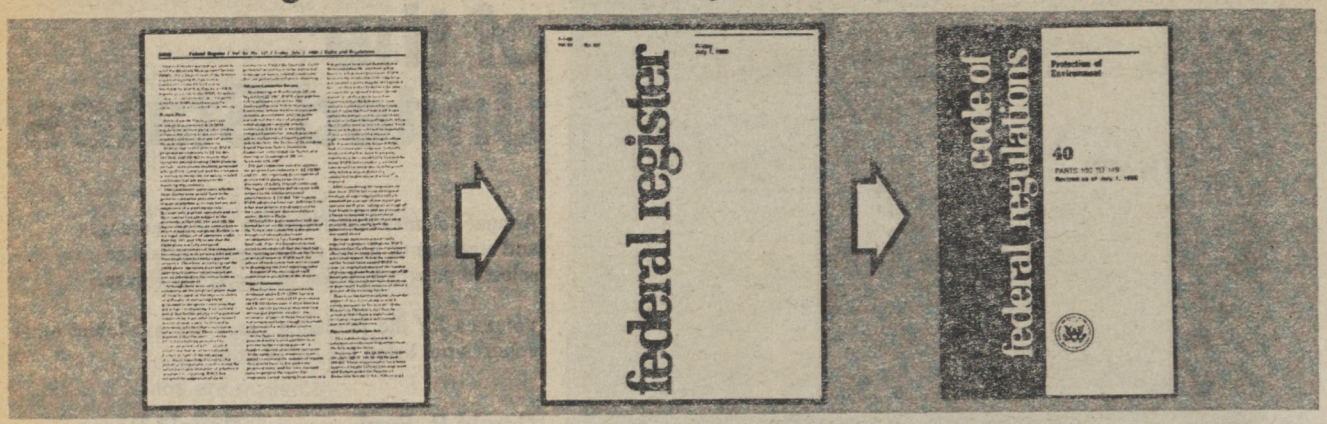
The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**



The **Federal Register,** published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register;** and the cumulative **Federal Register Index.**

The **Code of Federal Regulations** (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the **Federal Register.** Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current **CFR** volumes appears both in the **Federal Register** each Monday and the monthly **LSA** (List of **CFR** Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

Introduction to the Unified Agenda of Federal Regulations

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 5 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry and publication in a uniform format. In addition, the Office of Federal Procurement Policy Act Amendments of 1988 (41 U.S.C. 402) require the development and semiannual publication of a report on procurement regulations. The Unified Agenda helps fulfill that requirement. All Federal Regulatory agencies have chosen to publish their regulatory agendas as part of this **Unified Agenda of Federal Regulations.**

The following separate parts in this issue of the **Federal Register** are the agency agendas, which together comprise the April 1990 edition of the semiannual **Unified Agenda of Federal Regulations.**

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 725 Seventeenth Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory actions, please refer to the Agency Contact listed for each entry. INTRODUCTION TO THE UNIFIED AGENDA OF FEDERAL REGULATIONS

About the Unified Agenda

The Regulatory Information Service Center (the Center) compiles the **Unified Agenda of Federal Regulations** for the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing Executive Orders 12291 "Federal Regulation" (46 FR 13193; 3 CFR 1981 Comp., p. 127) and 12498 "Regulatory Planning Process" (50 FR 1036; 3 CFR 1985 Comp., p. 323). Under E.O. 12498, OMB publishes the **Regulatory Program of the United States Government** each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Unified Agenda differ in several ways. The Unified Agenda includes more regulatory actions because it covers all Federal agencies that issue regulations and includes almost all the rulemakings they have under development. The Regulatory Program includes fewer than half of those agencies and contains only the most significant of all the regulatory actions that each of those agencies plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

The regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government. This edition of the Unified Agenda includes 59 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. The National Capital Planning Commission has published a regulatory agenda in the past but has nothing to report for this edition of the **Unified Agenda**. Agencies of the United States Congress are not included.

Beginning with the October 1989 edition, the Agenda has helped fulfill the statutory requirement that the Office of Federal Procurement Policy (OFPP) publish a **Procurement Regulatory Activity Report** as required by the Office of Federal Procurement Policy Act Amendments of 1988 (102 Stat. 4055; 41 U.S.C. 402). In their agendas, agencies indicate which regulatory actions are procurement-related, as well as whether or not there is a statutory requirement or a paperwork burden associated with the procurement-related actions. This procurement information will be used by OFPP to produce its report.

The Unified Agenda is produced through a computer system designed and maintained by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use. In order to further facilitate producing the Agenda, many agencies currently use computer terminals at their offices to enter agenda information into the Center's computer system.

The Agenda contains a Subject Index based on the **Federal Register Thesaurus of Indexing Terms** to help the reader locate entries from various agencies that may affect a particular area of interest. The index also contains cross references to assist the reader's search. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For each agency that requested it, the Center provided a computer-produced Table of Contents that appears after the preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, legal deadline, abstract, timetable, small entities affected, government levels affected, agency contact, and a unique Regulation Identifier Number. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The **Unified Agenda of Federal Regulations** is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

Dated: April 1, 1990.

Mark G. Schoenberg,

Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate part in this edition of the **Federal Register.** The parts are organized alphabetically in four groups: Cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency lists its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking (NPRM) and may include Advance Notices of Proposed Rulemaking (ANPRMs) and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a NPRM as the next step in their rulemaking process or for which the closing date of the NPRM comment period is the next step.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or an interim final rule or to take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under E.O. 12291, such as those concerning military or

foreign affairs functions and regulations related to internal agency management.

Entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry that appears when:
  a. The action is included in the **Regulatory Program of the United States Government** for the 1989 program year or
  b. the agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the United States Code (U.S.C.) or Public Law (P.L.) or the Executive order (E.O.) that authorize(s) the regulatory action. Agencies may provide common name references to laws in addition to U.S.C. or P.L. references.
- CFR Citation -- the section(s) of the Code of Federal Regulations that affects or will be affected by the action.
- Legal Deadline -- an indication of whether the rule is subject to a statutory or judicial deadline; the date of that deadline; and whether the deadline pertains to an NPRM, a Final Action, or some "Other" action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 04/00/90 means the agency can predict the month and year the action will take place but not the day it will occur.
- Small Entities Affected -- indicates whether the rule is expected to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601) and, if so, whether the small entities are businesses, governmental jurisdictions, and/or organizations.
- Government Levels Affected -- indicates whether the rule is expected to affect levels of government and, if so, whether the governments are local, State, and/or Federal.
- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.
- Procurement-Related Actions -- in the Additional Information section, a statement identifying procurement-related actions and indicating whether there is a statutory requirement for the action and whether or not there is a paperwork burden associated with the action.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of February 23, 1990, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles. Where applicable, individual actions will be subject to review for compliance with Executive Order 12291, the Regulatory Flexibility Act, the OFPP Act, and the Paperwork Reduction Act at appropriate points in the regulatory process.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule. The ANPRM describes the general area that may be subject to regulation and usually asks for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a notice of proposed rulemaking.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the **Federal Register** by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area subject to Federal regulation. The CFR is keyed to and kept up-to-date by the daily issues of the **Federal Register**.

EO -- An Executive order is a directive from the President to an executive agency issued under constitutional or statutory authority. Executive orders are published in the **Federal Register** and in title 3 of the Code of Federal Regulations.

FR -- The **Federal Register** is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents issued by Federal departments and agencies.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the **Federal Register** that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- a reference to the legal authority under which the rule is proposed; and
- either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the 2-year life of each Congress; for example, PL 97-17 would be the 17th public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill;

any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM, and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by E.O. 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of section 2 of E.O. 12291; namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- not be undertaken unless the potential benefits outweigh the potential costs to society;
- maximize net benefits to society;
- entail the least net cost to society of the alternatives considered; and
- take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulation Identifier Number is assigned by the Regulatory Information Service Center to identify each regulatory action listed in the Agenda.

USC -- The United States Code is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.

Semiannual Regulatory Agenda; Spring 1990.

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and nonmajor regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291 "Federal Regulation." The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication, except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

ADDRESS: Requests for copies of the agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 147-E, Administration Building, U.S. Department of Agriculture, Washington, DC 20250, (202) 382-1272.

7. PROPOSED NEW MARKETING AGREEMENT AND ORDER FOR SEEDLESS EUROPEAN CUCUMBERS

Significance: Agency Priority

Legal Authority: 7 USC 601 to 674 Agricultural Marketing Agreement Act of 1937

CFR Citation: 7 CFR 968, (New)

Legal Deadline: None

Abstract: To establish minimum quality standards, container requirements and market promotion. The proposal was submitted by the Greenhouse Vegetable Growers Association. The proposed agreement and order would promote the quality and pack of seedless European cucumbers in the marketplace. In addition, it would enable the establishment of production research and marketing research and development activities to improve production practices and increase the consumption of seedless European cucumbers. The program would be financed by assessments levied on seedless European cucumber handlers. The assessment rate would be recommended by the committee and approved by the Secretary.

10. 1990 RICE PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1441; The Agricultural Act of 1949, as amended, Sec 101

CFR Citation: 7 CFR 707; 7 CFR 709; 7 CFR 713; 7 CFR 719 to 720; 7 CFR 794 to 796; 7 CFR 1421

Legal Deadline: Final, Statutory, January 31, 1990.

Abstract: To assure sufficient supplies of rice for domestic and export use, support farm income, combat inflation, hold down Government costs, conserve natural resources, and comply with statutory requirements. Primary determinations to be made are (1) loan and purchase rates--85 percent of the previous 5-year average, excluding the high and low years, but cannot be reduced more than 5 percent from previous year's level nor be lower than $6.50/cwt, (2) target price--no lower than $10.71/cwt, (3) acreage limitation--no more than 35 percent, with a target carryover level of 30 million cwt. Determinations are also to be made on (1) a land diversion program, (2) advance deficiency/diversion payments, (3) purchase of marketing certificates under marketing loan, (4) loan deficiency payments, (5) inventory reduction program (half-ARP), and (6) loan rate adjustments (loan differentials). The expected cost to USDA will likely range from $0.8 to $1.1 billion.

Significance: Regulatory Program

Legal Authority: 7 USC 1782 et seq; National Wool Act of 1954, as amended, Sec 201

CFR Citation: 7 CFR 1468; 7 CFR 1472

Legal Deadline: None

Abstract: To encourage the continued domestic production of wool at prices fair to both producers and consumers, in a manner which will ensure a viable domestic wool industry in the future, by supporting the price of wool and mohair by means of loans, purchases, payments, or other operations. The support level for wool is set by statutory formula. Determination is to be made on the support level for mohair, which may not be more than 15 percent above or below the comparable percentage of parity at which shorn wool is supported. The cost to USDA will likely range from $0.1 to $0.2 billion.

CFR Citation: 7 CFR 1434.26; 7 CFR 1434.27

Legal Deadline: None

Abstract: Legislation requires that 1990-crop honey be supported at 95 percent of the 1989 level, or $0.5402 per pound. This price support level must be further reduced by $0.0025 per pound under the provisions of the Omnibus Budget Reconciliation Act of 1987. Legislation also provides the Secretary with the discretion to allow loan repayment at a rate below the support level. The objective of a lower repayment rate is to (1) minimize loan forfeitures, (2) avoid excessive stocks, (3) reduce Federal storage costs, and (4) maintain the competitiveness of U.S. honey in domestic and export markets. Determinations to be made are (1) the type of support to offer (loans, purchases, or loans and purchases), and (2) implementation of the lower repayment provision. Federal outlays are expected to be less than $60 million if the lower repayment provision is adopted.

Legal Deadline: Final, Statutory, February 1, 1990.

Abstract: Burley marketing quotas and price support are required by legislation. The purpose of quotas and price support is to balance supply with demand at levels assuring stable supplies for domestic and export use at prices that are fair to producers. The national quota is based on manufacturers' intentions, 3-year average exports, an adjustment to maintain loan stocks, and a discretionary adjustment of plus or minus 3 percent. The price support level is based on a formula that weighs average market prices (2/3) and a cost index (1/3), plus discretion to limit any increase to 65 percent of the formula increase. Federal net outlays for the 1990-crop burley tobacco program are expected to be approximately $35 million in FY 1990. These outlays will be offset by receipts in FY 1991.

29. ● 1990 MARKETING YEAR PENALTY RATE FOR PUERTO RICAN CIGAR-FILLER TOBACCO

Legal Authority: 7 USC 1314; The Agricultural Adjustment Act of 1938, as amended, Sec. 312

CFR Citation: None

Legal Deadline: None

Abstract: This action announces the penalty rates for overmarketing Puerto Rican Cigar-Filler Tobacco for the 1990 marketing year. Legislation provides that the penalty rate shall be 75 percent of the previous year's average marketing price. Tobacco producers and dealers need to be advised of the penalty rate prior to the beginning of the marketing year.

Significance: Agency Priority

Legal Authority: 7 USC 2131 to 2157

CFR Citation: 9 CFR 1; 9 CFR 2; 9 CFR 3

Legal Deadline: None

Abstract: The Department is authorized to regulate the treatment of certain horses and other farm animals under the Animal Welfare Act (the Act). Under the Act, the Department is authorized to regulate the treatment of horses used for research purposes, and is authorized to regulate the treatment of other farm animals, unless those animals are used or intended for use as food or fiber, for breeding management or production efficiency, or for improving the quality of food fiber. As a matter of policy, however, the Department has not been regulating such horses and other farm animals. However, because of the increasing use of these animals for research purposes, the Department is giving notice of its intent to regulate such animals, and is requesting comments on standards to be developed for the inclusion of these animals under the regulations. These actions will help ensure that the animals are treated humanely, in accord with the Act.

Abstract: Exotic Newcastle Disease (also known as viscerotropic velogenic Newcastle disease and as VVND) and pscittacosis or ornithosis (now generally referred to as chlamydiosis) are communicable diseases of birds and poultry. The spread of these diseases in the United States could have serious consequences for the United States poultry industry. A review of the Department's regulations to prevent the interstate spread of these diseases indicates the need for a complete revision to make the regulations more effective and to increase compliance with them.

Abstract: An increased number of exotic pests have been introduced recently into the United States. Some of these pests may have arrived on importations of fruits and vegetables. Abstract: Under the Scrapie Eradication Program and the regulations in 9 CFR Part 54, indemnity for an animal destroyed because of scrapie, a highly transmissible and fatal disease of the central nervous system of sheep and goats, is paid to its owner at fair market value, not to exceed $300 per head. Under the present program, indemnities are paid for affected and bloodline animals only. There is no diagnostic test for the disease and no treatment. The existing Scrapie Eradication Program is not federally mandated and depends upon state efforts and funds, industry cooperation, and reporting by flock owners. APHIS is considering the regulatory option of negotiated rulemaking in order to develop a program which will satisfy animal health needs, industry needs, and State and Federal governmental needs.

Abstract: The Department is proposing to revise "Subpart--Imported Fire Ant," which contains quarantine and interstate movement regulations for the containment and control of this destructive plant pest. Executive Order 12291 and Department Regulation 1512-1 require that agencies initiate reviews of currently effective rules to bring about the goal of reduction of regulatory burdens and to minimize impacts on small entities. The proposed rule is part of the scheduled review of "Subpart--Imported Fire Ant" to meet regulatory review requirements. Revising the regulations would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the interstate spread of the imported fire ant.

Abstract: The Department currently regulates the importation of certain animals and animal products to prevent the introduction of communicable animal diseases into the United States. With certain exceptions, most animals imported into the United States must be quarantined upon arrival at facilities operated by the Federal Government; only sheep, birds, and horses may be quarantined in privately-operated facilities. Some importers have expressed interest, however, in importing ruminants and swine, other than sheep, in greater numbers per shipment than can be handled at existing Federal facilities. The Department is considering amending the regulations to allow all species of domesticated ruminants and swine, from countries free of certain serious diseases, to be quarantined upon arrival in the United States at privately operated facilities.

CFR Citation: 7 CFR 301.75

Legal Deadline: None

Abstract: Under the current regulations, the entire State of Florida is under quarantine because of citrus canker, a bacterial disease of citrus and citrus relatives. The regulations were established in 1984, after what was thought to be a previously undescribed strain of the bacterium that causes citrus canker was found at several plant nurseries in Florida. In 1986 the Asiatic strain of citrus canker a known aggressive strain also was detected in the State. The regulations restrict the interstate movement of citrus plants and fruit from Florida to prevent the spread of citrus canker to other citrus-producing areas of the United States. Over the past several years, research and experience in the field have shown that the Florida nursery strain is not citrus canker, and further, does not appear to be a dangerous plant disease. The regulations need to be revised to remove restrictions related to the Florida nursery strain. The Department also is considering reducing the area of Florida under quarantine to the part of the State affected by the Asiatic strains. The actions would relieve restrictions on the interstate movement of citrus from most of Florida.

Significance: Agency Priority

Legal Authority: 15 USC 1823 to 1825; 15 USC 1828; 44 USC 3506

Abstract: Horses whose treatment is regulated under the Horse Protection Act are subject to inspection by licensed Designated Qualified Persons (DQP's). As part of the licensing process, DQP's are trained in procedures for examining a horse prior to exhibition. However, the regulations in 9 CFR Part 11 do not contain detailed procedures for conducting inspections. In order to ensure a uniform and adequate inspection of all horses examined by DQP's, the Department is proposing to add such detailed procedures to the regulations. Setting forth these procedures will enable DQP's to better protect horses through more thorough and uniform inspections.

Abstract: The National Environmental Policy Act (NEPA) (42 USC 4321, et. seq.) and the regulations promulgated by the Council on Environmental Quality (CEQ) (40 CFR 1500 et. seq.) require that every Federal Agency establish procedures to implement NEPA. The proposed APHIS NEPA Implementing Regulations have been developed to ensured compliance with NEPA and are consistent with the Regulations of CEQ for Implementing the Procedural Provisions of NEPA (40 CFR 1500-1509) and the USDA Regulations for Implementing NEPA (7

CFR lb). These Agency-specific regulations will enable APHIS decision makers to reach decisions in which environmental concerns are fully reviewed and will ensure timely public involvement in the NEPA process. The regulations will identify Agency actions, requirements, guidance, and references for completion of environmental assessments, and environmental reviews. The new APHIS NEPA Implementing Regulations will supersede the previous issues, APHIS Guidelines for Implementing NEPA Procedures (44 FR 50381-50384 and 44 FR 51272-51274), upon publication of the final rule.

Abstract: The Department intends to reorganize and revise the regulations in 9 CFR Part 92, which, among other things, govern the importation into the United States of certain animals and poultry, and certain animal and poultry products. Executive Order 12291 and Departmental Regulation 1512-1 require that agencies periodically review current regulations. The Cyclical Review of Part 92 is such a review. Reorganizing and revising the regulations in Part 92 would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the introduction into the United States of various diseases of livestock and poultry.

The Department is conducting this Cyclical Review in several phases. Phase II is a revision of a portion of the existing regulations. Later phases will consist of revisions of other portions of the existing regulations.

Abstract: The Department regulates the importation of certain animals, animal products, and animal embryos, to prevent the introduction of communicable animal diseases into the United States. Under the current regulations, cattle embryos may not be imported into the United States from countries where rinderpest or foot-and-mouth disease exists. This limits the importation of cattle germplasm to live animals and semen. Live cattle from countries where rinderpest or foot-and-mouth disease exist may be imported through the Harry S. Truman Animal Import Center; importations of animal semen do not provide complete genetics. The Department is considering amending the regulations to establish conditions under which cattle embryos could be imported from countries where rinderpest or foot-and-mouth disease exists.

Abstract: The regulations covering importation of horses from countries affected with Contagious Equine Metritis (CEM) contain requirements for testing and treating horses in the country of origin. Some of the requirements are duplicative of requirements in the United States. Also, the removal of the clitoral sinuses, required of some mares in the country of origin, could be done in the United States without increasing disease risks. The Department is proposing to amend the regulations to eliminate unnecessary testing and treatment in the country of origin and to allow clitoral sinusectomies to be carried out in the United States. These amendments would eliminate unnecessary restrictions from the regulations, while continuing to ensure that CEM is not introduced into the United States. Also, the regulations do not provide criteria for the approval of laboratories in the United States for CEM culturing and testing. The Department is proposing to add such criteria. Such criteria would help ensure

that CEM culturing and testing in the United States is being done accurately.

Abstract: Current regulations quarantine certain States to control Gypsy Moth, establish high-risk and low-risk regulated areas within those States, and restrict the interstate movement of regulated articles and outdoor household articles from regulated areas. Plant Protection and Quarantine is developing new definitions and restrictions for these areas and articles to more effectively control Gypsy Moth.

Abstract: Current regulations prohibit, with certain limited exceptions, the importation of ruminants and swine from countries where foot-and-mouth disease (FMD) exists. However, the regulations are unclear with respect to the application of this prohibition to animals that originate in an FMD country but are moved to a FMD-free country and are then offered for importation into the United States. Veterinary Services is developing regulations to clarify import restrictions for these situations.

Abstract: In 1985 Congress amended the Animal Welfare Act, 7 USC 2131 et seq., and required the Secretary of Agriculture to promulgate regulations and standards governing the humane handling, housing, care, treatment, and transportation of certain animals by dealers, research facilities, operators of auction sales, carriers, and intermediate handlers. The standards and regulations will provide minimum requirements with respect to handling, housing, feeding, sanitation, veterinary care, and other related matters. APHIS is proposing to amend, revise, and expand the "Standards" relating to dogs and cats, guinea pigs and hamsters, and nonhuman primates, and will include provisions for exercise of dogs and for promoting the psychological well-being of primates.

Abstract: The Department intends to reorganize and revise the regulations in 9 CFR Part 92, which, among other things, governs the importation into the United States of certain animals and poultry and certain animal and poultry products. Executive Order 12291 and Department Regulation 1512-1 require that agencies periodically review current regulations. The Cyclical Review of Part 92 is such a review. Reorganization and revising the regulations in Part 92 would make them easier to understand, thereby increasing compliance and the effectiveness of the regulations in preventing the introduction into the United States of various diseases of livestock and poultry. The Department is conducting this Cyclical Review in several phases. Phase I is a reorganization of the existing regulations.

CFR Citation: 9 CFR 92

Abstract: The Department currently regulates the importation of poultry and poultry products, including eggs for hatching, to prevent the introduction of certain poultry diseases into the United States. These regulations need to be revised to add restrictions to prevent the introduction of Salmonella enteritidis, serotype enteritidis, phage-type 4 (referred to below as S. enteritidis, phage-type 4), a virulent type of Salmonella that has not been detected in poultry flocks in the United States. Canada is the only country other than the United States in which poultry flocks are recognized as being free of S. enteritidis, phage-type 4. Because poultry and poultry eggs for hatching are being imported from countries where this organism is considered to exist, the Department needs to take prompt action to prevent its introduction into the United States. Safeguards under consideration include testing of individual poultry of the flock of origin in the country of origin, and testing and inspection during quarantine in the United States.

Abstract: Create a new Subpart D to cover liquidation of Single Family Housing (SFH) loans, and management and sale of SFH inventory property; and revise existing Subparts A, B, and C to have them apply to all programs other than SFH. Costs to create new subpart and revise and/or amend existing ones is minimal and would enhance all programs' ability to revise and/or amend the regulations with reduced clearances and provide personnel with clearer and simpler regulations to follow and implement. Will avoid "tie-up" of the regulations for one program subject to changes mandated by legislation or court order for another program, such as SFH changes being held up subject to Farmer Program changes being completed as has frequently been the case.

Abstract: The Farmers Home Administration (FmHA) proposes to revise the regulation for the recapture of subsidy granted on Section 502 Rural Housing Loans. This action is necessary because of an accounting system change resulting from the September 1987 congressionally mandated rural housing asset sale. The intended effect of this action is to adjust the formula to coincide with the revised method of applying monthly subsidy to interest credit accounts. In addition, this action will also shorten and simplify the recapture process.

Abstract: This regulation is being revised to provide clarification on the processing differences between membership changes and transfers, to broaden the ability to consolidate and reamortize loans, to clarify actions to be taken during a bankruptcy, and to clarify and discuss the classification of problem loans and their resolution, along with other minor revisions. These revisions are needed so as to provide

more complete guidance to field staff and borrowers on the topics discussed above. Potential costs consist of administrative time involved with Agency personnel drafting and completing regulation. No alternatives were identified as being appropriate to address the several problems being corrected with this regulation. Regulations to broaden the ability to consolidate and reamortize loans were issued for prior rulemaking (FR Vol. 54 Nbr. 248) on December 28, 1989 with public comments accepted through February 26, 1990. Regulations governing multi-housing debt settlements were published for prior rulemaking (FR Vol. 54 Nbr. 133) on July 18, 1989 and the public comment period has closed.

Abstract: Legislation mandates that the Secretary develop procedures to facilitate, administrate and promote secondary market operations for FmHA guaranteed farm loans. It is suggested that the Secretary, directly or through a market maker, provide for the pooling of guaranteed loans and the issuance and sale of certificates backed by those loan pools. Through this procedure, secondary market activities could be promoted and expanded, thereby increasing the supply of loan money in rural areas -- allowing rural banks to increase their lending activity to farmers, rural businessmen and residents. Obtaining the services of a private agent to act as a central registry and fiscal agent -- coordinating fund flows from lenders to pool investors; handling pool formations and executions, issuance and ownership of pool shares, and monitoring of loan payments -- is the favored alternative expected to successfully meet the legislative mandate. FmHA would act as the facilitator, arranging for the creation of this private market activity, (cont)

Abstract: Will effectuate a comprehensive civil rights regulation implementing the following laws: The Equal Credit Opportunity Act (ECOA), Title VIII of the Civil Rights Act of 1968, as amended by the Fair Housing Amendments Act of 1988 (The Fair Housing Act), Title VI of the Civil Rights Act of 1964 (Title VI) Section 504 of the Rehabilitation Act of 1973 (Section 504), The Age Discrimination Act of 1975, and Executive Order 11246.

The revised regulations will provide detailed guidelines for field officers for improved enforcement and compliance with these laws which heavily impact FmHA's programs. Mechanisms for monitoring compliance by field officers and recipients of FmHA's financial assistance at all levels will decrease the Agency's vulnerability due to noncompliance with recently enacted civil rights legislation.

97. DROUGHT AND DISASTER GUARANTEED LOANS

Significance: Agency Priority

Legal Authority: 7 USC 1988 Consolidated Farm and Rural Development Act; PL 100-387 Disaster Assistance Act of 1988, Sec 331

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: Sec. 331 of the Disaster Assistance Act of 1988 mandated that the Secretary of Agriculture guarantee loans made by private sector lenders to rural business entities which experienced losses or financial distress as the direct or indirect result of drought, hail, excessive moisture or related condition in 1988. The refinancing of existing loans is specified as an eligible purpose of such guaranteed loans. Farmers Home Administration modified its existing Business and Industrial (B&I) guaranteed loan program to implement the program mandated by the Disaster Assistance Act of 1988, using B&I rules as to eligibility, application, loan making, and loan servicing except where the statute requires otherwise.

100. ● FARMER PROGRAM LOANS

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: The problem is the need to reduce the Government's cost of providing financial assistance to Farmer Programs Borrowers. Lenders and Loan applicants prefer that applicants use the insured loan programs rather than the guaranteed programs due to the lower interest rates on insured loans. This regulation will provide for a government subsidy to lenders for interest rates for guaranteed Farmer Programs loans so the borrower will be paying interest rates for guaranteed loans that is similar to insured loans. This should provide an incentive for using the guaranteed loan program. The potential cost to the Government will be reduced as the Government will only pay a lender up to 90 percent of the losses on loans and only part of the interest rate rather than loaning a borrower the full amount of the loan and paying an investor the full cost of the Government borrowing the money for an insured loan. The benefit is that the borrower will be paying an interest rate for guaranteed loans that is comparable to that for insured loans the lender will receive the subsidy for the lower interest rate and the Government (cont)

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1951; 7 CFR 1955

Legal Deadline: None

Abstract: Present regulations require the Agency to place conservation easements on inventory farm property. Previous owner and operators have the option of leasing back or buying back such property from inventory. They object to the placement of such easements. This regulation revision will allow these parties to lease or buy these properties back without the easements except for limited easements. There should be little cost involved for the Government as the value of the easement is reflected in the lease or sale value of the property. It is estimated that less than seven percent of the inventory farm property is involved. The benefit is that the previous owner/operator will receive the property back in a similar condition as when it was taken into inventory.

Significance: Agency Priority

Legal Authority: 7 USC 1989 Consolidated Farm and Rural Development Act; PL 101-82, Sec 401

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: Section 401 of the Disaster Assistance Act of 1989 mandated that the Secretary of Agriculture guarantee loans made or private sector lenders to rural businesses entities which experienced losses of financial distress as the direct or indirect result of drought, freeze, storm, earthquake, excessive moisture or related conditions occurring in 1988 or 1989. The refinancing of existing loans, hotels, motels, tourist and recreation facilities and certain agricultural production are eligible purposes for guaranteed loans. FmHA modified its existing Business and Industry (B & I) guaranteed loan program to implement the Disaster Assistance Act of 1989, using B & I rules as to eligibility, application, loan making and loan servicing except where the statute requires otherwise.

Proposed Rule Stage

107. ● COMMON CROP INSURANCE REGULATIONS AND PCLICY

Significance: Agency Priority

Legal Authority: 7 USC 1501 et seq Federal Crop Insurance Act

CFR Citation: 7 CFR 499, (New)

Legal Deadline: None

Abstract: Establishes a single crop insurance regulations and policy for insuring crops which proposes to provide a common set of insurance regulations and terminology between private insurance companies under the Standard Reinsurance Agreement which will (1) substantially reduce the time involved in amendment or revision; and (2) eliminate the necessity of repetitious review process. Additionally, this rule also clarifies FCIC's long standing position on the preemption of inconsistent State laws and regulations.

Legal Authority: 7 USC 1621 et seq

CFR Citation: 7 CFR 68

Legal Deadline: None

Abstract: The Federal Grain Inspection Service (FGIS) is proposing to change the manner in which beans with surface dirt and grime are graded under the United States Standards for Beans. Currently, beans with a significant amount of dirt and grime adhering to the seedcoat are considered damaged beans. FGIS proposes that "dirt grime" be established as a separate nongrade determining factor. The percent of dirt and grime-affected beans in the lot/sample would be shown on the inspection certificate for informational

purposes. Furthermore, FGIS proposes to add provisions for grading beans which are seriously blemished by dirt and grime as U. S. Substandard.

137. ● FEES FOR FEDERAL AFLATOXIN TESTING AND FALLING NUMBER DETERMINATION SERVICES

Legal Authority: 7 USC 1621 et seq

CFR Citation: 7 CFR 68

Legal Deadline: None

Abstract: The Federal Grain Inspection Service (FGIS or Service) proposes to establish an hourly rate and laboratory fee for a new type of aflatoxin test performed under the Agricultural Marketing Act of 1946 (AMA). In addition, FGIS proposes to establish a unit fee for the aflatoxin test kit. The unit fee will be assessed in addition to the hourly rate when the test is performed at the point of service. The laboratory fee, assessed when the test is performed at the FGIS Commodity and Testing Laboratory in Beltsville, Maryland, will include the test and the aflatoxin test kit. FGIS is also proposing to increase the hourly rate and laboratory fee for falling number determination services. These proposed fees are intended to recover as nearly as practicable, projected operating costs, which include related supervisory and administrative costs, and to maintain reasonable operating reserves. The unit fee for the aflatoxin test kit will cover, as nearly as possible the cost of each testkit used in the aflatoxin tests.

CFR Citation: 7 CFR 275

Retroactive for Fiscal Year 1985 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) revised the Food Stamp Act of 1977, as amended, specifying that Food Stamp Program quality control (QC) payment error rate (PER) liability appeals by State agencies be conducted by Administrative Law Judges. The use of Administrative Law Judges replaces the current appeal process which is conducted by the State Food Stamp Appeals Board. This regulation will delineate the procedures to be followed in these QC appeals. (88-011)

Significance: Agency Priority

Legal Authority: PL 100-435, Sec 602; PL 100-435, Sec 604(1)

CFR Citation: 7 CFR 275

Legal Deadline: NPRM, Statutory, October 1, 1985.
Most of the changes are retroactive for Fiscal Year 1986 Quality Control payment error rate liability claims.

Abstract: This regulatory action is required because the Hunger Prevention Act of 1988 (PL 100-435) modified the Food Stamp Program quality control (QC) system provisions of the Food Stamp Act of 1977, as amended. Section 602 requires that State agencies be charged interest on unpaid QC payment error rate (PER) liability claims from the date the billing is received by the State agency, unless the State agency appeals the billing. If the State agency appeals, interest will begin to accrue from the date of the appeal decision or 2 years from the date the billing is received by the State agency, whichever is earlier. Section 604 revised the provisions for paying State agencies enhanced administrative funds for low PERs. It also revises the threshold for State agencies' liabilities for excessive payment error rates. Finally, it provides that PER liability claims will be assessed based on a State agency's total allotments issued, rather than as a percentage of administrative costs. (89-001)

Abstract: The proposed food delivery regulations will strengthen and improve vendor management and food instrument accountability. Vendor management areas addressed include: selection,training, high-risk identification and monitoring, sanctions, and appeals. Among the additional areas covered are: dual participation, food instrument reconciliation, and food instrument security. The proposed changes are being made in response to a recent audit by the Office of the Inspector General, and program deficiencies identified through management evaluations and ongoing contact with State agencies. This regulation will control potential program vendor and participant abuse and result in more efficient use of program funds.

Significance: Regulatory Program

Legal Authority: PL 100-435

CFR Citation: 7 CFR 271; 7 CFR 273

Legal Deadline: Fina , Statutory, April 1, 1991.
The new performance standards as required by regulations must be implemented by States by April 1, 1991.

Abstract: The Hunger Prevention Act of 1988 mandates that the U.S. Department of Agriculture change the basis of its performance standards for Food Stamp Employment and Training programs from process-based to outcome-based measures. The new standards must be implemented by April 1991. Consequently, the Food Stamp regulations must be revised to reflect the new measurement criteria for performance and the methodology for computing the new standards.

Significance: Agency Priority

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 246

Legal Deadline: Final, Statutory, October 1, 1989.
The law made these provisions effective October 1, 1989.

Abstract: This regulation would set forth the major revisions to the funds allocation process brought about by Public Law 101-147. The objective of this action is to provide guidelines for the allocation of funds, including changes in the administrative funding structure, breastfeeding targets, and conversion of food funds to administrative funds.

The revised funding structure eliminates the 20 percent limit on administrative and program services funds. Instead, administrative and program services funding will be determined based on a national administrative grant per person. In addition, State agencies must spend at least $8 million for breastfeeding promotion in addition to the current 1/6 nutrition education requirement. For those State agencies that achieve participation increases above the federal projected level through acceptable measures such as cost containment, curtailment of vendor abuse, and breastfeeding promotion activities, conversion of food funds to cover administrative expenses is authorized. Finally any State agency using a cost containment measure may temporarily borrow 1st quarter funds to pay 4th quarter expenses.(cont)

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule outlines the responsibilities of the Food and Nutrition Service and State agencies concerning the distribution of USDA-donated foods acquired under various legislative authorities. The rule prescribes the terms and conditions under which donated foods may be obtained through distributing agencies for use in schools, child care institutions, nonprofit summer camps for children, charitable institutions, nutrition programs for the elderly, and otherwise in the assistance of needy persons. A number of provisions to strengthen and improve the State Processing Program were separated and published in a final rule July 1, 1986. (51 FR 23719) (FNS 84-513)

Significance: Regulatory Program

Legal Authority: 7 USC 2011 to 2029

CFR Citation: 7 CFR 273.1; 7 CFR 273.7

Legal Deadline: None

Abstract: The proposed rule will clarify several aspects of the Food Stamp Program Employment and Training Rule published December 31, 1986, and will accomplish minor corrections in other portions of this rule. The clarifications and corrections are the result of program experience gained through the initial operations of a program component entirely new to the Food Stamp Program as a whole.

The Department is concerned that current regulations may be inequitable to State by mandating that they use the full October 1988 count of mandatory E&T participants in computing the base on which the Fiscal Year 1989 first reporting period 35 percent E&T placement standard will be applied. This procedure inflates State placement obligations for this period and makes it difficult for them to meet these obligations. This proposed rule implements Departmental action to correct this inequity, together with other minor alterations and clarifications.

Abstract: This rule establishes procedures for State agencies to use to participate in the Systematic Alien Verification for Entitlements (SAVE) system. As required by IRCA, the Immigration and Naturalization Service (INS) implemented this system. IRCA requires the Food Stamp Program (FSP) and certain other entitlement programs to use SAVE to verify the immigration status of aliens applying for benefits. 160. PRODUCTION OF CERTAIN MINIMALLY PROCESSED, UNCURED, PERISHABLE PRODUCTS PACKED IN SEALED CONTAINERS

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 308; 9 CFR 318; 9 CFR 320; 9 CFR 381

Legal Deadline: None

Abstract: This advanced notice of proposed rulemaking would request information, scientific data and comments from the public regarding the need for new requirements governing the production of certain minimally processed, uncured, perishable meat and poultry products that are packed in sealed containers bearing a "Perishable, Keep Refrigerated," or similar label statement. Examples of such products include, but are not limited to, soups, sauces, pastas, salads, and entrees.

Abstract: This advanced notice of proposed rulemaking would solicit information and comments from the public regarding the need for heat-processing procedures, cooking instructions and cooling, handling, and storage requirements for certain uncured, comminuted meat and poultry products. The information is requested to determine if a rulemaking is needed for processing controls covering other

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 317; 9 CFR 381

Legal Deadline: None

Abstract: This advanced notice of proposed rulemaking would seek information and solicit comments from the public regarding the use of labeling claims on meat and poultry products reflecting various animal production practices; e.g., "raised in fresh air and the sunshine," "grass fed," and "drinks pure spring water." Although some animal production claims have been permitted to be made on labels of meat and poultry products, FSIS is concerned that substantiating documentation currently required may not be sufficient to adequately support some of these claims. This action is taken to determine what kinds of claims should be permitted, what level of verification is necessary, and how and by whom such verification should be conducted.

163. REQUIREMENTS FOR PARTIALLY DEFATTED MEAT PRODUCTS

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 319

Legal Deadline: None

Abstract: Would establish a standard of identity and composition, and would provide temperature and handling requirements for partially defatted meat products. Would also allow for use of these products in a greater number of meat food products at higher use levels.

Current regulation is not adequate to assure accurate labeling or to prevent commercial misrepresentation of such products.

Legal Authority: PL 99-198

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would respond to amendments to the Federal Meat Inspection Act by the Food Security Act of 1985. The amendments require that FSIS periodically certify residue control programs submitted by foreign countries desiring to export meat products to the United States and provide the Secretary with the authority to issue an order prohibiting the importation of livestock for immediate slaughter that have been administered a drug or antibiotic banned for use in the United States. The proposed rule would also provide the Secretary with the authority to revoke eligibility requirements of countries that do not regularly submit residue control programs to FSIS for review.

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 301; 9 CFR 303

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to exclude specific products and classes of products containing meat, meat byproducts, and/or meat food products from the definition "meat food product" and thereby would exempt these products from Federal inspection. The proposal identifies two broad conditions for exemption: (1) products containing 3 percent or less of raw meat or other portion of any carcass, or less than 2 percent of cooked meat or other portion of any carcass, and (2) products that historically have not been considered by consumers as products of the meat food industry. This proposal would replace current informal standards for exemptions with formal, codified exemptions.

Abstract: This proposed rule would amend the regulations to permit use of an approved method for examining swine for evidence of trichinosis. The Food Safety and Inspection Service (FSIS) has been petitioned by a manufacturer of serological tests to amend the Federal meat inspection regulations to approve the use of immunoassays for the examination of swine for evidence of trichinosis infection. FSIS has reviewed the performance of the petitioner's assay in a laboratory where sera prepared by the Agency were tested by a precisely defined procedure and has concluded that immunoassays can effectively detect evidence of trichinosis in swine

172. REQUIREMENTS FOR THE PRODUCTION OF FERMENTED SAUSAGE

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to establish specific requirements concerning processing procedures used in the production of semi-dry and dry fermented sausages. Currently, the Agency has only general requirements concerning the processing procedures for these products. This proposal will provide that a manufacturer of semi-dry and/or dry fermented sausages use either a model good manufacturing practice (GMP) procedure with specified or described critical control points, process control limits, and monitoring activities; or an approved processing procedure from a processing authority who would define the critical control points, process control limits, and monitoring activities for each processing procedure. In addition, the proposal requires that all processes for semi-dry and/or dry fermented sausages comply with a set of validation criteria to assure the product is not adulterated. The proposed rule provides the necessary processing requirements to assure that the production of fermented meat food products does not result in adulterated products.

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Abstract: This rule will provide processors of fully and partially cooked, and char-marked, uncured meat patties with specific manufacturing, handling, and labeling requirements for these products to reduce the potential for incidents of food-borne, pathogen-caused illness from consumption of inadequately cooked, uncured meat patties. This rule will also establish (1) holding temperature and time requirements for raw meat used for cooked, uncured meat patties; (2) internal temperature and time combination processing requirements for fully and partially-cooked, uncured meat patties which are char-marked with heat but remain raw; (3) a requirement that a cooking instruction be placed on the label of partially-cooked and char-marked, uncured patties, instructing the final preparer to cook the patties to a well done state (a minimum internal meat temperature of 160 degrees Fahrenheit); and (4) requirements to assure that fully-cooked, uncured meat patties are not contaminated after cooking. This action will prevent instances of illness from the consumption of such patties.

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations by restricting the movement of imported product to within one of five geographical port areas where the product is unloaded. FSIS is also proposing to amend the regulations to require that such imported product be transported directly to an import inspection establishment from the place that the product is unloaded and that such product be reinspected within 30 days of its arrival in the United States. These actions are expected to increase FSIS's ability to gain and maintain control over imported meat and poultry products prior to their reinspection by FSIS.

184. PROCESSING REQUIREMENTS FOR DRIED READY-TO-EAT MEAT AND POULTRY PRODUCTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 318; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to require establishments to treat certain dried, ready-to-eat meat and poultry products to eliminate microbial contamination. Past food-poisoning outbreaks from dried meat products confirm that present processing requirements do not assure that the finished product is free from contamination by salmonellae. Treatment would assure the destruction of infectious disease bacteria, such as Salmonella, often present on the raw ingredients. The proposed rule would cover all dried ready-to-eat meat and poultry products except fermented sausages and dry cured hams and pork shoulders treated by one of the processing methods in section 318.10(c)(3) (ii), (iii), or (iv) of the Federal meat inspection regulations. The required treatment would either be a lethal heating step, a combination curing and heating process, or an alternate processing method which establishments have shown to be effective. The proposed rule would also contain provisions to prevent contamination of treated product by direct or indirect contact with untreated product.

185. ANTE-MORTEM INSPECTION OF DISABLED ANIMALS ON TRANSPORT VEHICLES

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 309; 9 CFR 320

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat inspection regulations to permit an alternate method of ante-mortem inspection of disabled animals. This method would allow a transport vehicle to be an extension of an official establishment's

premises for purposes of ante-mortem inspection of disabled animal(s) that are within the vehicle. FSIS received a request from the Western States Meat Association, Oakland, California, to allow ante-mortem inspection of disabled animals to be performed on a transport vehicle. This proposed rule would (1) specify establishment responsibilities for maintaining control over the transport vehicle, for providing proper ante-mortem inspection facilities, for complying with the veterinary disposition, and for providing assistance to the veterinary Medical Officer when performing the ante-mortem inspection; (2) prescribe the facility requirements needed for safe ante-mortem inspection of disabled animals; and (3) provide the requirements for the written request for this inspection.

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to revoke the requirements for vacuum packaged meat and poultry products in glass containers. FSIS was petitioned by the National Food Processors Association, Washington, DC, to revoke jar closure regulations that are no longer necessary to prevent contamination of products packed in glass containers. This action would be consistent with the requirements of the Food and Drug Administration for nonmeat products.

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide administrative procedures whereby a foreign country may petition FSIS to be exempted from certain specified inspection requirements. FSIS has received several requests for exemption from specific regulations and procedures to assure that the foreign inspection program will maintain its eligibility to export product to the United States. Present meat and poultry products inspection regulations do not contain a procedure that advises how such requests should be made. Exemption requests are received in various forms and with a variety of information included, and as a result unnecessary time and effort is expended to develop an exemption request in the proper form for consideration. This action will provide a procedure for the submission of exemption requests from countries exporting product to the United States and to permit a timely Agency response.

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to simplify the procedures by which FSIS approves food additives and Generally Recognized as Safe (GRAS) substances to be used as ingredients in meat food products and poultry products. The proposed rule will be developed in cooperation with the Food and Drug Administration to make the Federal regulation of food additives and other substances that may be used as ingredients in meat food and poultry products more efficient and uniform.

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 322

Abstract: This proposed rule would amend the Federal meat inspection regulations to provide export certification of all meat and poultry products exported to foreign countries. Domestic inspectors certify that the product is USDA inspected and passed, and that all foreign requirements have been met. In 1988, the Agency conducted a pilot test to determine the feasibility of streamlining export certification procedures by centralizing control; utilizing contemporary communications technology; establishing plant review criteria; and modifying stamping requirements. The export certification project, of which the pilot was a part, will continue in 1989. FSIS will review the current regulations and determine what, if any, changes should be considered from the outcome of this project.

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 308; 9 CFR 381

Legal Deadline: None

Abstract: This proposed rule would amend the Federal meat and poultry products inspection regulations to provide consistency of existing provisions and ensure enforceability of the requirements for controlling pests such as flies, rodents, insects, and vermin in official establishments. In the past, establishments used pesticides as the primary means of controlling pests. Presently, establishments rely on the use of primary controls to prevent pests from entering an establishment; that is, they use such techniques as preventive construction, maintenance and sanitation. This action would also provide uniform requirements for both meat and poultry products regarding the use of the words "pesticides" and "poison," and the use of other chemical compounds as a means for eliminating or controlling pests in official establishments.

Abstract: This rule will improve post-mortem inspection procedures for cattle in establishments currently using three or more line inspectors. To keep pace with technological advances, streamline procedures, focus resources on critical areas, and hold establishments accountable for their actions, the Agency wants to modernize its inspection procedures while still assuring that only wholesome products enter commerce. It is anticipated that the meat industry will experience a net gain if this system of inspection is implemented in spite of the initial costs of facility modifications which may be necessary in some establishments. Savings to the industry as a whole should occur because of increased productivity and reduced overtime.

This will replace the term "reasonable variation." Moreover the amendment will grant concurrent jurisdiction to State and local authorities to enforce net weight labeling of federally inspected meat and poultry products within their geographic area. The amendment will promote uniform treatment of moisture loss and weights and measures standards as well as encourage and enable greater State and local participation.

Abstract: This rule will amend the poultry products inspection regulations to permit the use of added water in turkey ham. The new standard provides for several categories of products that are delineated according to the protein content on a fat-free basis. FSIS was petitioned by the National Turkey Federation, Reston, Virginia, to establish protein fat-free values for turkey ham to promote product standardization and permit producers of turkey ham to compete more equitably with pork producers. This rule will replace the current provision which limits the amount of added water and other substances contained in turkey ham products by requiring the weight of the finished product to be no more than the original weight of the turkey thigh meat used prior to curing.

210. IMPORTED CANADIAN PRODUCT; PROVISION FOR "STREAMLINED" INSPECTION PROCEDURES; EXEMPTION FROM OFFICIAL MARK OF INSPECTION

Significance: Agency Priority

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq

CFR Citation: 9 CFR 327; 9 CFR 381

Legal Deadline: None

Abstract: This rule will amend the Federal meat and poultry products inspection regulations to provide "streamlined" inspection procedures for the reinspection of Canadian meat and poultry products and by exempting Canadian meat and poultry products offered for importation from the requirement that such product and/or containers of product be marked with the official mark of inspection once they are passed for entry into the United States. These actions stemmed from the Canada-United States Free Trade Agreement Implementation Act of 1988, Pub. L. 100-449. These actions specifically responded to one goal of

USDA—FSIS **Final Rule Stage**

the Agreement whereby both countries are charged with liberalizing agriculture trade practices by seeking ways to eliminate technical or procedural requirements which now may serve to impede trade in agricultural products.

Legal Authority: 16 USC 551; 16 USC 472

CFR Citation: 36 CFR 294.1

Legal Deadline: None

Abstract: The agency has undertaken a review of its existing regulations at 36 CFR 294.1 that provide for the setting aside of areas of National Forests, other than Wilderness or wild areas, which should be managed principally for recreation. The rule establishes size classes for areas that may or may not

USDA—FS **Prerule Stage**

be designated by the Chief of the Forest Service and the Secretary of Agriculture; describes examples of the types of areas that might be set aside, and provides for clearly marking these areas on the ground. Areas classified under this section are set apart and reserved for public recreation use and such classification constitutes a formal closing of the area to any use or occupancy inconsistent with the classification. The review is completed and notice of the results of that review will be published soon.

Significance: Agency Priority

Legal Authority: PL 94-588, Sec 14; 16 USC 472a

CFR Citation: 36 CFR 223, Subpart C

Legal Deadline: None

Abstract: Currently, suspension and debarment of timber purchasers means the debarred entity is prevented from bidding or being awarded Forest Service timber sale contracts. Recently, suspended and/or debarred purchasers have been serving as subcontractors on Forest Service timber sale contracts, or acting as purchaser's representatives to receive notices and to take action on contracts. This has the effect of negating the suspension/debarment action, which is to protect the Government. The rule will be revised to prevent suspended and/or debarred purchasers from serving as subcontractors or purchaser representatives.

Legal Authority: 16 USC 472a; 16 USC 618

CFR Citation: 36 CFR 223.52; 36 CFR 223.50

Legal Deadline: None

Abstract: The Federal Timber Sale Contract Payment Modification Act directs the Forest Service to require purchasers to make down payments and periodic payments on timber sales. The objective of these requirements is to discourage speculative bidding on National Forest System timber sales. A rule published 10/11/85 at 50 FR 41498 requires cash down payments and a midpoint payment. However, to fully comply with the Act, additional rules are required. This rule will identify the requirements for down payments, periodic payments, and market-related contract term additions. This rule will eliminate discounting and the requirement to hold a down payment until the last timber is removed. Based on comments received the agency has decided to issue a new proposed rule. In addition, the Government's position with respect to performance bonds will be strengthened by elimination of the $500,000 ceiling; providing for two-track bonding procedures, i.e. 20 percent upfront bond with reduction in amount as purchaser harvests; increasing the bid guarantee to 10 percent of the advertised value; assessing damages in the amount of bid guarantee or the difference between bid (cont)

Abstract: This rulemaking seeks to remove outdated provisions to incorporate policies and procedures issued in the Forest Service directive system, and to revise the remaining

regulations making them clearer and easier for the public and Agency personnel to use. The proposed regulations (1) clarify the definitions of excess livestock and unauthorized use rate; (2) remove the rule for grazing advisory boards; (3) establish requirements or procedures for minimum permit size, eligibility related to compliance with permit terms, permits for livestock use in vegetation management, valuing range improvements when livestock grazing is eliminated, charging a fee for processing actions initiated or caused by a permittee or applicant, and association meeting frequency of a least 1 every 12 months; (4) incorporate currently used policies and procedures for escrow waivers, associated member grievances, permit cancellation or suspension for excess use, charges for excess use, running a child's livestock under a parent's permit, requests for information for evaluating grazing applications and action on apparent violations of permit terms. Significance: Regulatory Program

Legal Authority: 43 USC 1764; 31 USC 483a; 30 USC 181 Mineral Leasing Act; 16 USC 551

CFR Citation: 36 CFR 251, Subpart B

Abstract: The objective of this rulemaking is to conform the rule to the requirements of 3 laws approved since the regulation was revised in 1980. These laws include special provisions for authorizing irrigation and livestock watering facilities constructed prior to 1976, electrical and telephone facilities financed pursuant to the Rural Electrification Act of 1936, and special uses in Alaska. In addition, the proposed rulemaking will clarify applicant responsibilities for providing data and studies needed to process a special use application and will provide for the advanced payment of land use rental fees for longer time periods, including the life of the special use authorization. That portion of this action relating to collection of reimbursable costs for processing special use applications is being deferred and will be addressed as a new action in a future agenda. For other changes affecting special use applications and authorization of special uses, see Agenda entry RIN 0596-AA20.

Legal Authority: 16 USC 113 to 136; 16 USC 528 to 531; 16 USC 577 to 577c; 16 USC 1133

Abstract: Except where specifically provided for, the Wilderness Act (16 USC 1133) prohibits both motorized equipment and mechanical transport. Mechanical transport includes devices such as bicycles, hang gliders, wheeled carts, and other items designed to carry people or supplies and powered by either "nonliving" or "living" power sources. The objective of this action is to clarify the definition of mechanical transport in 36 CFR 293.6(a) and to make corollary revisions in the prohibitions applicable to wilderness use, including prohibiting competitive events and expanding the definition of aircraft to include hang gliders, parachutes and parasail. Abstract: The present timber sale contract Form FS-2400-6 was developed in September 1973, and the Form FS-2400-6T was developed in October 1973. Since these dates several Acts, Laws, and policy changes have necessitated deletion of existing provisions and inserting supplemental provisions. The need to revise these documents has been recognized since the late 1970's. The revision will provide for clarification of provisions to reduce the potential for disputes between purchasers and the Forest Service. There will be no changes in the basic contract concepts except those dictated by law, regulation, and related policy. Comments from interested individuals and organizations will be utilized, as

appropriate, in the formulation of the provision language.

243. APPLICATION PROCEDURES AND FEES FOR HYDROELECTRIC USES ON NATIONAL FOREST SYSTEM LANDS

Legal Authority: 16 USC 551; 43 USC 1761

CFR Citation: 36 CFR 251.54; 36 CFR 251.57

Legal Deadline: None

Abstract: Regulations are needed to reduce confusion regarding the role of the Forest Service in permitting hydroelectric uses on National Forest System lands. The objective of the rules will be to establish procedures, compatible with the procedures of the Federal Energy Regulatory Commission (FERC) for obtaining various approvals and involvement of the Forest Service in a timely manner.

In addition, the rules will establish a fee system for hydroelectric uses as required by Title V, Section 501 of the Federal Land Policy and Management Act of 1976. A Notice of Proposed Policy was published 6/8/84 and comments were received. The proposed rule will take those comments into account.

Significance: Agency Priority

Legal Authority: 16 USC 478; 16 USC 551; 43 USC 1701 et seq

CFR Citation: 36 CFR 228, Subpart A

Legal Deadline: None

Abstract: Since the regulations were promulgated in 1974, certain legal requirements have changed due to the provisions of the Wilderness Act and recent court decisions; some sections of the regulations no longer apply and revisions and updating are necessary. Major changes proposed will specifically address the requirements for wilderness operations and, secondly, will clarify the mechanism for administering locatable mineral activities not conducted on mining claims but which are nevertheless authorized by the 1872 mining law.

Abstract: The regulations govern how the name or image of "Smokey Bear" may be used, who may authorize the use of "Smokey Bear," and the use of official campaign materials, commercial licensing, and the association with the State Foresters and the Advertising Council. This review will focus on licensing and especially exclusive licenses and will consider counterpart regulations in Part 272-Use of "Woodsy Owl" Symbol as a possible approach.

Abstract: These rules declare the range of unacceptable public behavior when visiting or using National Forest System lands. Among topics covered are prohibitions on setting campfires in certain areas, unlawful cutting of trees, and other unlawful uses of resources and property of the National Forest System. Violations of these prohibitions carry legal penalties.

Review has examined the adequacy of the rules for administration of the National Forest System and whether changes in conditions, laws, or other factors require revision. The agency has completed its review and is now preparing a proposed rule to revise the prohibitions.

247. REVISE SMALL TRACTS ACT REGULATIONS

Significance: Agency Priority

Legal Authority: 16 USC 521(c) to 521(i)

CFR Citation: 36 CFR 254, "Subpart C"

Legal Deadline: None

Abstract: Implementation of the agency's Small Tracts regulations has revealed an inadvertent inconsistency between the regulations at 36 CFR 254.35(f) and 254.41(a) and the legislative history of the Small Tracts Act of January 12, 1983. The regulations imply that the disposal of mineral fractions by sale can only be made in response to an application from an abutting landowner, thus discouraging the conveyance by sale to the public. The Act clearly authorizes sale of mineral fractions to the public through public sale, as well as individual applications, provided that certain conditions are met. The revisions will clarify the application of the Act to ensure that both individual applications and public sale are permissible means of disposing of qualifying tracts.

248. REVISE RULES GOVERNING SPECIAL USES OF NATIONAL FOREST SYSTEM LANDS AND RESOURCES AT 36 CFR 251 TO REMOVE AMBIGUITIES REGARDING FIRST AMENDMENT RIGHTS

CFR Citation: 36 CFR 251 Subpart A; 36 CFR 251 Subpart B; 36 CFR 251 Subpart E (New); 36 CFR 251 Subpart F (New)

Legal Deadline: None

Abstract: A Federal District Court has ruled that existing regulations discriminate against groups who wish to gather on National Forests to exercise their first amendment rights of assembly and free speech. The proposed rule will seek to remove ambiguities regarding these first amendment rights.

The agency is reviewing the rules of other Federal land managing agencies for possible approaches and is considering establishing separate rules for authorizing short-term, noncommercial uses of National Forests.

There will be no additional costs as a result of the proposed rule change. The benefit will be that the Forest Service will be able to adequately regulate large group use on the National Forests in a manner that ensures protection of the public health and safety and National Forest resources.

250. HELL'S CANYON NATIONAL RECREATION AREA—PRIVATE LANDS

Legal Authority: PL 94-199, Sec 10(a)

CFR Citation: 36 CFR 292, Subpart E (New)

Legal Deadline: None

Abstract: The Forest Service proposes to issue regulations concerning use of private lands in the Hell's Canyon National Recreation Area (HCNRA) on the Oregon - Idaho border, as required in PL 94-199. The intended effect of this action is to establish standards for use and development of privately owned lands within the HCNRA.

The standards are intended to achieve the following management objectives for the Recreation Area: (1) The

conservation and continuance of forest land for forest uses and farm land for farm uses; (2) The maintenance and protection of the free flowing nature of rivers within the HCNRA; (3) Conservation of scenic, wilderness, cultural, scientific, and other values contributing to the public benefit; (4) Preservation, especially in the area generally known as Hell's Canyon, of all features and peculiarities believed to be biologically unique; (5) Protection and maintenance of fish and wildlife habitat; (6) Protection of archaeological and paleontological sites; (7) Preservation of historic sites associated with and typifying the economic and social history of the region (cont)

251. SOLID WASTE DISPOSAL POLICY

Significance: Regulatory Program

Legal Authority: 16 USC 497; 43 USC 931c

CFR Citation: None

Legal Deadline: None

Abstract: Solid waste disposal sites (sanitary landfills) on National Forest System lands present the potential for resource degradation, hazardous waste dumping, and future liability. A proposal for solid waste disposal is being developed to reflect changes which have occurred as a result of the Resource and Conservation Recovery Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and an increased knowledge of solid waste disposal. The proposal would prohibit the authorization of new sites and provide for the phase out of existing sites. During the phase out period, authorizations would be amended to provide resource protection and limit the Government's potential liability. Adoption of this policy would reduce administrative costs associated with administration of solid waste disposal sites, limit future liability, and protect the resources on National Forest System lands. The proposal would impact 110 sites currently authorized.

Significance: Agency Priority

Legal Authority: 16 USC 472a; 16 USC 528 to 531; 16 USC 1600 et seq; 12 USC 1 et seq

CFR Citation: None

Legal Deadline: None

Abstract: In a 1987 court decision, a letter of credit issued in lieu of surety bond was found to be unenforceable because the person who signed the letter of credit did not have authority to do so and because the bank had violated State law in regard to limits of liability. Others were invalid because they exceeded the expiration date. To remedy this problem, the Forest Service is proposing to issue Handbook directions that will require the bank president to certify as to the authority of the person signing the letter of credit and the conformance with State and Federal statutes. An automatic extension of the expiration date would also be required.

253. RESERVED AND OUTSTANDING MINERAL RIGHTS

Significance: Regulatory Program

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 228, Subpart B

Legal Deadline: None

Abstract: Substantial acreage of National Forest System land is underlain by privately owned mineral deposits. During extraction of the mineral resources, the mineral owner is required to take measures to protect Federal surface resource values. The Forest Service must analyze the effects of the proposed mineral extraction and determine what mitigation measures should be specified. Currently, there are no regulations describing the process to be followed by the Forest Service or the private mineral owner.

The regulatory approach has not yet been determined. A working group was formed in February 1989 to begin to determine the scope, form, and details to be included in a proposed rule.

Abstract: This regulation is a direct response to the direction in Section 323 of Public Law 100-446 which classified quartz mineral on the Ouachita National Forest in Arkansas as no longer subject to location under the General Mining Law of 1872. These materials are now to be managed in the same manner as common varieties of mineral materials under regulations prescribed by the Secretary of Agriculture.

Significance: Agency Priority

Legal Authority: PL 100-691

CFR Citation: 36 CFR 290 Subpart A (New)

Legal Deadline: Final, Statutory, August 18, 1989.

Abstract: These regulations will implement the Federal Cave Resources Protection Act of 1988, which requires that the rules define what is a significant cave for purposes of this Act. The Act also requires that the rules address an inventory of cave resources, provide for confidentiality of information concerning the nature and location of caves on Federal land, and permits for collection and removal of cave resources. The regulations are being developed in concert with agencies of the U.S. Department of the Interior as required by the act.

Legal Authority: 16 USC 472(a); 16 USC 618

CFR Citation: 36 CFR 223.101

Legal Deadline: None

Abstract: Recently, as the number of timber sale defaults have increased, the number of debarred purchasers have increased, and the Government has initiated a policy of only doing business with responsible parties, it is becoming commonplace for bidders to form new affiliates in order to continue to be awarded Forest Service timber sale contracts. Unless the bidder voluntarily identifies affiliates, the Agency must make the determination through a time consuming process prior to award, prior to determining if double downpayment rules apply, and prior to taking debarment action. This rule would require bidders to disclose, prior to award of sales, all affiliates, and to certify that none are suspended or debarred. Filing false claims would be cause for contract cancellation and debarment action.

Abstract: Revisions to Chapter 2320, Forest Service Manual (FSM), are proposed to remove barriers to implementation of the National Recreation Strategy. Also includes revisions needed to be consistent with 36 CFR 261, 293 (see RIN 0596-1139). Changes will include guidance on access by people with disabilities, expanded policy on controlling insect and disease outbreaks, amending prohibited activities to include competitive events and use of hang gliders, parachutes and parasails as aircraft. The policy will incorporate Congressional Grazing Guidelines, provide more specific direction for wildlife and fish management, and will also include guidance on structures, cultural resources, research and law enforcement in wilderness.

259. RECREATION RESIDENCE AUTHORIZATION POLICY

Significance: Agency Priority

Legal Authority: 16 USC 497

CFR Citation: 36 CFR 251

Legal Deadline: None

Abstract: The policy for administering recreation residences on National Forest lands was adopted August 16, 1988 (53 FR 30924) and subsequently appealed under the administrative appeal process (36 CFR 211.18). In rendering his decision on the appeal the Assistant Secretary of Agriculture for Natural Resources and Environment suspended certain provisions related to tenure and the offering of in-lieu sites; designated the remaining features interim policy; and directed the Chief of the Forest Service to review and reconsider the entire policy (54 FR 23499: June 1, 1989). The policy is being reconsidered and alternatives are being developed. The purpose of the policy is to improve the administration of recreation residence permits and implement a revised fee schedule that obtains fair market value for the use. The policy affects about 15,800 permittees.

260. FEE POLICY FOR RESERVOIRS

Significance: Agency Priority

Legal Authority: 43 USC 1764 Federal Land Policy and Management Act

CFR Citation: 36 CFR 251.57

Legal Deadline: None

Abstract: The Forest Service proposes to change the policy and procedure for determining the land use rental fees for dams and reservoirs located on National Forests lands that are authorized by special use authorizations. This would eliminate the need for individual appraisals of reservoir areas and would reduce the cost of administering the special use permits. The fees would be comparable to the fees charged by the Federal Energy Regulatory Commission for reservoirs on Federal lands. There would be no change in the fee waiver policy for reservoirs. Reservoirs that are currently exempt by law from payment of land use rental fees would not be affected by the proposed change in policy.

The Forest Service is beginning a revision process that based on existing regulations, is costly and time consuming. CFR Citation: 36 CFR 217

Legal Deadline: None

Abstract: The current rule at 36 CFR Part 217 provides for a streamlined intervention process. Intervention is granted if requested within 20 days of the filing of a notice of appeal. If request is timely, intervenors have an additional 30 days after receiving a copy of the Notice of Appeal from the Reviewing Officer to file comments on issues raised in the Notice of Appeal. Three problems have surfaced with this process: the definition of "filing"; timeframes available for requesting intervention; and the actual comments that intervenors are to submit. To resolve these problems, the agency is proposing that: the 20-day period for filing notice of intervention start on the day following the end of the period available for filing an appeal and timely intervenors would have until the record is closed, 50 days following the end of the period available for filing an appeal, to provide their comments; and the Reviewing Officer would provide a list of appeals of specific decisions to interested persons upon request.

268. MODIFY THE GENERAL PROHIBITION AGAINST USE OF VEHICLES IN EXCESS OF 40 INCHES IN WIDTH ON TRAILS

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261.12(e)

Legal Deadline: None

Abstract: The objective of this action is to permit Forest officers more discretion for controlling off-road vehicle use. Three factors have created the need to modify this regulation: (1) the general prohibition at 36 CFR 261.12(e) controls trail use by width of vehicle. Originally developed to control four-wheel-drive vehicles on trails, this method uses a fairly arbitrary device (width) to control use; (2) off-road vehicle plans (36 CFR 295) use vehicle types to prescribe the vehicles that are permitted to use forest trails; (3) some recent models of trail vehicles (all terrain vehicles and snowmobiles) exceed the forty inch rule by one to five inches. The combination of the two methods of control with the larger model sizes has created confusion among users about ORV plan direction and created law enforcement difficulties. This rule will clarify the regulations and still maintain the tools necessary to control off-road vehicle use. (FS 86-007)

269. CONSERVATION OF FISH, WILDLIFE, AND THEIR HABITATS; CHUGACH NATIONAL FOREST, ALASKA

Legal Authority: PL 96-487 Title V

CFR Citation: 36 CFR 241, (New)

Legal Deadline: None

Abstract: December 2, 1980, the Alaska National Interest Lands Conservation Act was signed into law. Section 501 (b) of the law requires that the Secretary of Agriculture promulgate regulations for the conservation of fish and wildlife and their habitats on the Chugach National Forest. The general National Forest System regulations and other existing laws governing management of National Forest System lands are applicable except as supplemented by these regulations or amended by the ANILCA, August 17, 1984. The new Chugach National Forest land management plan was appealed by 17 appellants. The settlement agreement specifies that subject to valid existing rights, the Forest Service will not allow timber harvest, road construction, surface occupancy for mineral leasing prior to publication of final regulations or completion of management area analysis for the Copper River Management Area. There are no alternatives to development of these regulations.

Significance: Regulatory Program

Legal Authority: 15 USC 631

Legal Deadline: None

Abstract: The policy is designed to ensure that small business purchasers have the opportunity to purchase a fair proportion of National Forest Timber. Based on comments received in response to the 9/25/87 proposal, review of market data and Congressional direction, the agency is withdrawing its 1987 proposal and offering a new proposal.

The proposed policy will be consistent with the current standards and establish procedures for determining what share of timber volume small business will have the opportunity to bid on without competition from large business.

CFR Citation: 36 CFR 228, Subpart C

Legal Deadline: None

Abstract: Whether a mineral deposit is a "common variety" determines whether or not it can be disposed of or sold by the Government under the 1947 Mineral Materials Act. Judicial and administrative interpretations defining common variety characterization determinations can only be made in court. Rulings in common variety cases are generally unpredictable, and the costs to both the Government and miner are high.

After a review of the legislative history of the 1955 Surface Resources Act, which defined common varieties, it is clear that Congress did not intend for certain minerals to be locatable under the Mining Laws; however, a failure to explicitly define the "common variety" term has led to misinterpretation and actions contrary to the original intent of the law. It is proposed that 36 CFR 228 Subpart C be amended to clarify this confusing classification situation. We believe PL 167 expressly provides for this action as it allows the Secretary of Agriculture to dispose of mineral materials "under such rules and regulations as he may prescribe."

The Forest Service has no regulations at this time which have resulted in inconsistent and untimely responses to the DOI. The only other alternative considered is not to promulgate regulations. Public costs are insignificant but public benefits could be substantial in that proposals should be processed more efficiently. Abstract: Objectives are to set forth Forest Service procedures and role in the regulation of Indian allotments on National Forest System land. The Indian Allotment Act, as amended, authorizes the Secretary of the Interior to make allotments of National Forest System lands to Indians for homesteading and agricultural and grazing purposes. The Forest Service has relied upon USDI rules and procedures at 43 CFR 2533 to govern its involvement in Indian allotment cases. Recent litigation and a decision by the Interior Board of Land Appeals indicate the need for the Forest Service to set forth its own regulations when the Forest Service determines that lands are not chiefly valuable for agricultural and grazing purposes. The only alternative is not to issue regulations. This is unacceptable since it leaves the Agency vulnerable to future IBLA appeals cases as well as future litigation.

Abstract: In response to comments from the scientific and academic communities and in keeping with the recommendations of the National Academy of Sciences "Report on Guidelines for Paleontological Collecting," the Forest Service is clarifying its regulations concerning fossil collecting on National Forest System lands. The language on "paleontological resources" is being moved to a separate paragraph and the requirement for permits is being limited specifically to quarrying for fossils and for commercial activities. The no-action alternative would be to leave the regulation of paleontological resources the same as for archeological resources, with permits needed for all activities. Since there is no evidence of widespread problems, the permit process imposes unnecessary burdens on the casual collector and creates added paperwork for the Forest officer to manage.

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309; 31 USC 223 to 225

CFR Citation: None

Legal Deadline: None

Abstract: Following a period of high-priced timber sales bid prior to 1982, the Forest Service experienced a number of contract defaults on these sales. Subsequently, the Forest Service has had difficulty collecting from some sureties on the bonds guaranteeing performance on these sales. As part of a financial security initiative affecting future sales, the Forest Service is proposing to revise the payment and performance bonds to clarify surety's obligation in regard to what is being guaranteed, when payment is due in case of default, what additional charges will be assessed if payment is not made when due and when collection action may be suspended. Other alternatives include eliminating surety bonds as a form of security, reducing surety guarantee to mid-point and periodic payment and retention of current bond forms. Upon adoption the final revised bond forms will be issued for use by Forest Service Contracting and Fiscal Officers for future timber sale contracts.

278. HELLS CANYON NATIONAL RECREATION AREA—USE OF NATIONAL FOREST LANDS

Significance: Agency Priority

Legal Authority: 16 USC 460(gg) Hell's Canyon National Recreation Area

CFR Citation: 36 CFR 292 F (New)

Legal Deadline: None

Abstract: In Oregon Natural Resource Council v Lyng, the 9th Circuit Court of Appeals ruled that the Secretary must promulgate regulations as required by the Hells Canyon National Recreation Act (HCNRA) governing federal and private land uses in the HCNRA. The Department had argued that such rules were discretionary and the agency's comprehensive management plan for the NRA, which was prepared as required by the Act, was sufficient to guide management of the area. As a result of the court's ruling, the risk of litigation to halt ongoing activities, particularly timber sales, is high. Accordingly, there is an urgent need to promulgate an interim rule governing management of the federal lands in the HCNRA. While many existing regulations governing National Forest System lands, remain applicable to the Hells Canyon NRA, pending projects and plans are vulnerable to continued litigation until final rules are effective. An interim rule is the most expeditious way to effect rules. Public comment will be invited on the interim rule and will be considered in development of the final rule. (cont)

Abstract: This interim rule would require Deciding Officers to give notice of decisions in newspapers of general circulation or, in some cases, the Federal Register. The appeal filing period would begin the day after the notice is published. It is necessary to make the rule effective upon publication to bring order and consistency to the agency's appeal process. The rulemaking would also clarify grounds for dismissal of an appeal without a decision on the merits, make clear that dismissal decisions are subject to discretionary review at a higher level, and require appellants to submit 2 copies of a notice of appeal when the notice is 10 pages or longer, and delay implementation of a decision for 7 days following publication of legal notice.

Significance: Agency Priority

Legal Authority: 7 USC 901 et seq; PL 100-203

CFR Citation: 7 CFR 1709.10 to 1709.31

Legal Deadline: None

Abstract: This subpart contains policies, requirements and procedures that implement a rural economic development loan and grant program established by Section 313 of the Rural Electrification Act of 1936, as amended (RE Act). The program provides zero interest loans and grants to RE Act borrowers for the purpose of promoting rural economic development and job creation projects.

Significance: Regulatory Program

Legal Authority: 7 USC 901 et seq; PL 99-591

CFR Citation: 7 CFR 1710.200 to 1710.211

Legal Deadline: None

Abstract: This regulation formalizes requirements that REA borrowers seek out economical proposals for new generation resources from the traditional sources (such as investor owned utilities and governmental power organizations and joint use with other utilities) as an integral part of new capacity resource planning requirements.

The regulation will also require that REA financed borrowers adequately consider the availability of power from Independent Power Producers.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: April 1990 regulatory agenda.

SUMMARY: In compliance with Executive Order (E.O.) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Pub.L. 96-354), the Department of Commerce in April and October of each year publishes in the **Federal Register** an agenda of the rulemaking actions covered by section 1 of E.O. 12291 that the Department plans to conduct or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, and rulemaking actions completed since the October 1989 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department's April 1990 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 1990, through March 31, 1991.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-8843.

SUPPLEMENTARY INFORMATION: Executive Order 12291 requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this order. Office of Management and Budget (OMB) Bulletin No. 90-03, issued December 1, 1989, establishes guidelines and procedures for the preparation and publication of the April 1990 Unified Agenda of Federal Regulations for all Federal departments and agencies. E.O. 12291 and the OMB Bulletin require that each agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the 12-month period succeeding publication: The title of the regulation; the name, title, address, and phone number of an agency person who is knowledgeable about the regulation; whether the action is expected to have a significant economic impact on a substantial number of small entities and whether it will affect levels of government; the section(s) of the Code of Federal Regulations which will affect or be affected by the action; the section of the United States Code, Public Law, or Executive order that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; legal deadline, if any; and a timetable of dates and, if available, **Federal Register** citations for past stages of the action. In addition, the Bulletin requires that procurement-related regulatory actions include additional information on all actions that are covered by section 22 of the Office of Federal Procurement Policy Act Amendments of 1988 and all other actions that will result in a change or addition to the Federal Acquisition Regulation System. This procurement-related information is listed under **ADDITIONAL INFORMATION** and will be used by the Office of Federal Procurement Policy in preparing the "Procurement Regulatory Activity Report."

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis where there is a positive finding that a rule will have a significant economic impact on a substantial number of small entities. E.O. 12291 requires agencies to prepare a regulatory impact analysis for any regulation considered to be a "major rule" as defined in the order.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the Economic Development Administration, the Bureau of Export Administration, the International Trade Administration, the National Institute of Standards and Technology (NIST), the National Oceanic and Atmospheric Administration (NOAA), and the Patent and Trademark Office, issue the greatest share of the Department's regulations.

A large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS) issued by NIST under Public Law 100-235. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines and in providing technical guidance and coordination to Federal agencies, NIST works closely with private industry standard-setting organizations.

Another large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be

DOC

prepared for fisheries which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery for which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council's process for developing FMPs and amendments makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently, NMFS does not have specific plan objectives or alternatives for management, since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

The DOC April 1990 regulatory agenda follows.

Dated: February 23, 1990.

310. CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned departmentwide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

Abstract: The Department of Commerce has no formal uniform source evaluation procedures applicable to its procurement activities. Standardization of source evaluation procedures will alleviate potential inconsistencies among procurement professionals as well as potential Department contractors relative to evaluation of proposals.

313. INCREASE IN EXEMPTION LEVEL OF THE BE-11, ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD

Legal Authority: 22 USC 3101 to 3108; Int'l Investment & Trade in Svcs. Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will raise the overall exemption level for the BE-11 Annual Survey of U.S. Direct Investment Abroad, and for reporting individual foreign affiliates on Forms BE-11B and BE-11C in that survey, from $10 million to $15 million. The purpose of the action is to bring the exemption level into conformance with that for Form BE-10B(LF) for reporting foreign affiliates in the Benchmark Survey of U.S. Direct Investment Abroad--1989. In addition, the action will require filing, in one or more annual surveys between benchmark surveys, Form BE-11C for nonbank foreign affiliates owned at least 10 percent, but less than 20 percent, by the U.S. reporter and for which total assets, sales, or net income exceeds $100 million. Some reporting between benchmark surveys by large, 10-20 percent-owned foreign affiliates is needed to support reliable estimates for the universe of all foreign affiliates.

Legal Authority: 22 USC 3101 to 3108 Int'l Investment & Trade in Svcs Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will replace the existing rule 15 CFR 806.16 with a new rule to provide for the conduct of the BE-10, Benchmark Survey of U.S. Direct Investment Abroad--1989, as required by the International Investment and Trade in Services Survey Act, 22 USC 3101 to 3108 (see especially Sec. 4(b) of the Act). The existing rule covers a similar survey for 1982, which has been completed and which the 1989 survey will update.

315. FOREIGN TRADE STATISTICS REGULATIONS

Significance: Regulatory Program

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.92

Legal Deadline: None

Abstract: Review of 15 CFR 30 for changes to conform with the new statistical classification (harmonized) system for imports and exports. This review will combine elements of housekeeping changes, updating obsolete information, clarification, bringing the system into line with harmonization (including metric measurements) and conformance of reporting with current practices. There should be no added burden or cost placed on the public because no additional information is required, nor new reporting requirements.

The benefits of these changes will be: allowing direct comparisons between U.S. imports and exports, enabling comparisons between trade balances of the United States and of our major trading partners.

With the passage of the Omnibus Trade and Competitiveness Act of 1988 there is no alternative to making these changes in order to conform to the legislation.

Additionally, Section 30.24 will be revised to be consistent with Customs Regulations by eliminating the "four-day rule" regarding submission of "Shipper Export Declarations."

316. FOREIGN TRADE STATISTICS REGULATIONS (FTSR)

Legal Authority: 13 USC 301 to 307

CFR Citation: 15 CFR 30.1 to 30.58

Legal Deadline: None

Abstract: We propose to amend the Foreign Trade Statistics Regulations (FTSR) to raise the present exemption for filing Shipper's Export Declarations (SED's) (except for shipments requiring a validated export license) from $1500 to $2500. The exemption for shipments through the U.S. Postal Service will remain at $500. Congress, in Title 13 of the U.S. Code, has given the Secretary the responsibility for gathering accurate and useful trade statistics. The FTSR must be revised to achieve the savings to the public as well as the government.

This action will reduce the reporting burden on U.S. exporters as well as reducing the costs of processing the foreign trade statistics. The number of SED's filed will be reduced by over 1.5 million per year with minimal loss of data.

Significance: Regulatory Program

Legal Authority: PL 100-449, Section 202(g); U.S.-Canada Free Trade Agreement Implementation Act of 1988

CFR Citation: Not yet determined

Legal Deadline: None

DOC—ITA — Proposed Rule Stage

Abstract: The U.S.-Canada FTA reduces tariffs on textile and apparel products considered to be of U.S. or Canadian origin under the "rules of origin" established by the Agreement. Generally, apparel made in the U.S. or Canada from fabric sourced in a third country will not be considered to be of U.S. or Canadian origin for FTA purposes. Goods which do not qualify for the FTA rate will be subject to the regular most-favored-nation (MFN) rate. However, the FTA also establishes an annual tariff-rate quota (TRQ) under which a limited quantity of apparel products that do not meet the FTA's rules of origin will still be entitled to the FTA duty. As Canadian tariffs on U.S. apparel exports decline, U.S. apparel firms should have a growing incentive to export to Canada, but will need some predictability as to which duty their goods will be subject to.

Unless the Department implements an allocation system, we may find that U.S. firms will either face the chaos of an annual rush to the border to ensure their share of the TRQ or will ignore a lucrative export market to avoid the uncertainties of the TRQ.

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Legal Deadline: None

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

Abstract: Revisions to the current antidumping duty and countervailing duty regulations are needed on an expedited basis in order to conform those regulations to certain statutory amendments made by the Omnibus Trade and Competitiveness Act of 1988. Those amendments deal with (1) downstream product monitoring; (2) consultations with the International Trade Commission on certain scope rulings; (3) procedures for administrative protective orders; (4) correction of ministerial errors; and (5) effective dates. The revisions will enable the Department to apply the new statutory provisions in an orderly and efficient basis.

Significance: Regulatory Program

Legal Authority: 19 USC 1516a; 19 USC 1677f(d); PL 100-449, Title IV

CFR Citation: 19 CFR 356

Legal Deadline: None

Abstract: Chapter 19 of the U.S.-Canada Free Trade Agreement established a system under which final antidumping and countervailing duty determinations of both the United States and Canada are subject to review by independent binational panels. The legislation implementing the Agreement authorized the Department to issue regulations necessary to implement Chapter 19. Regulations are necessary to establish procedures concerning notice of intent to seek judicial review, requests for panel review, notice of receipt by Canada of class or kind determinations, continued suspension of liquidation pending panel review, release of business proprietary and privileged information under protective order during a panel review, and sanctions for violations of such protective orders. The interim rule became effective January 1, 1989, the date the Agreement entered into force.

Legal Authority: PL 101-221

CFR Citation: 19 CFR 357

Legal Deadline: None

Abstract: In order to implement section 4(b) of the Steel Trade Liberalization Program Implementation Act, ITA promulgated interim regulations on its short supply procedures. The regulations contain uniform rules, criteria, and procedures for ensuring transparency, timeliness, and fairness in the administration of the short supply program.

CFR Citation: 15 CFR 771; 15 CFR 777; 15 CFR 799

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA). Certain changes were made to the Short Supply provisions of Section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 777) and related licensing requirements (15 CFR 771 and 799) of the Export Administration Regulations (15 CFR 730-799) is necessary. An interim final

rule was issued which included (1) elimination of the validated licensing requirement for exports of refined petroleum products so as to permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no costs associated with this action which would promote the export of decontrolled products. The Export Administration was made a Bureau in October 1987. The Export Administration Regulations were thereafter transferred from 15 CFR 368-399 to 15 CFR 730-799. Furthermore, the Export Administration Act of 1979 was amended on August 23, 1988, by the Omnibus Trade and Competitiveness (cont)

Legal Authority: 50 USC 2061 et seq; EO 10480

CFR Citation: 15 CFR 350

Legal Deadline: None

Abstract: The Defense Priorities and Allocations System (DPAS) implements the priorities and allocations authority of Title I of the Defense Production Act of 1950, as amended. The DPAS was published as a final rule on July 30, 1984. Based on the findings and recommendations of an interagency sponsored study concerning the controlled materials program, and comments from both defense agency and industry users, this proposed rule would amend the DPAS to remove the controlled materials provisions and make certain revisions to its procedural requirements. These amendments will have no costs associated with them, would reduce the regulatory and information reporting burden on industry and make the DPAS more effective and efficient, and would result in cost savings for defense contractors.

Legal Authority: 50 USC app 2401; PL 96-72; PL 97-145; PL 99-64; PL 100-418; EO 12525

CFR Citation: 15 CFR 776

Legal Deadline: NPRM, Statutory, November 21, 1989.

Abstract: This proposed rule amends the EAR to provide a definition for the term "supercomputer." Section 5(a)(6) of the Export Administration Act, as amended by the 1988 Trade Act, requires that a definition be included in the EAR. An earlier proposed rule on this subject was published in the Federal Register on 12/5/88. Having considered the comments on that rule as well as other comments from industry, the Department of Commerce has developed a revised definition. Because of the variety of differing opinions that the Commerce Department has received on this issue it intends to solicit additional comments on the revised definition before issuing a final rule. Therefore the Department published a second proposed rule with request for comments.

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: On June 24, 1987, the President issued a national security override for a finding of foreign availability for certain types of sputtering equipment controlled under ECCN 1355A of the Commodity Control List. As a result of this override, export controls on the equipment were maintained pending the conclusion of negotiations with the source country to eliminate the foreign availability. The statutorily authorized 18-month negotiating period expired on December 24, 1988, with the source country agreeing to eliminate foreign availability for sputtering equipment until May 31, 1989. The source country has since agreed to eliminate foreign availability for certain types of sputtering equipment for an additional period. This rule amends ECCN 1355A by decontrolling to free world destinations that sputtering equipment that the source country has not agreed to control, and by maintaining controls on that equipment for which foreign availability has been eliminated.

Abstract: In accordance with section 5(a)(A) of the EAA, as amended by the 1988 Trade Act, this rule revises section 776.12 of the EAR to reduce export and reexport controls on U.S.-origin parts and components incorporated in foreign-made products. Under section 776.12 prior authorization is not required when U.S.-origin content comprises 25 percent or less and the foreign-made product is exported to a country listed in Supplements 2 and 3 to Part 773, i.e., countries cooperating in nuclear non-proliferation policy. This interim rule revises section 776.12 to apply the 25 percent exemption to all destinations, except the embargoed countries. The 10 percent exemption, but not the dollar value limitation, is continued for these proscribed destinations. The rule also exempts from control foreign-made products incorporating U.S.-origin content consisting of low level technology specifically designated on the Commodity Control list.

Abstract: To implement section 5(C)(5)(A)(ii) and section 5(m) of the Export Administration Act, the Bureau of Export Administration is creating a new section 776.20. This new section permits the export of medical and other equipment containing controlled parts and components to country group T&V (except the People's Republic of China and Afghanistan), without prior written authorization from the Office of Export Licensing, provided that the transaction meets the eligibility criteria described in this section. This interim rule will establish a classification scheme requiring exporters and reexporters to obtain eligibility determinations prior to exporting under this provision.

Abstract: Part 791 of the Export Administration Regulations (EAR) establishes the procedures and criteria for initiating and reviewing claims of foreign availability on items controlled for national security purposes. With this notice the Department is proposing to revise Part 791 of the EAR. The revision of the foreign availability regulations is necessary because of legislative changes to the program by the "Trade Act" of 1988, and OFA's own experiences with the program. It is expected that this revision will improve the Foreign Availability process and the effectiveness of the program thereby enhancing national security and improving U.S. competitiveness.

Abstract: The Department proposes to revise the foreign boycott provisions of the Export Administration Regulations. The revisions would clarify the application of: (1) the intent provision to the reporting requirement; (2) the jurisdictional requirements relating to the implementation of letters of credit; (3) the furnishing information prohibitions to information about the nationality of directors and about blacklisted persons; (4) the shipping requirement exception to refusals to use blacklisted vessels; and (5) the import and shipping document exception to information about the nationality of carriers and residence of manufacturers or suppliers. The revisions are intended to clarify areas of confusion. In addition, the proposal would remove many references and provisions dealing with effective dates and grace periods that are no longer applicable.

Abstract: General License GTE authorizes temporary exports for certain purposes such as exhibition, demonstration, inspection and testing, and requires prompt return to the country of export. This proposed rule would redesignate that license as General License G-TEMP and amend it by removing the registration requirement and by establishing guidelines for the use of the general license. One effect of removing the registration requirement would be that parties abroad who were not eligible to register under the former General License GTE would be able to use G-TEMP as authorization for a permissive reexport in accordance with the appropriate provisions of the regulations.

Abstract: The Bureau of Export Administration is revising section 771.18 of the Export Administration Regulations (15 CFR Parts 768-799), which contains provisions on the applicability of General License GIFT for exports from the United States. General License GIFT authorizes export of parcels from U.S. individuals or charitable organizations overseas. General License GIFT is modified to allow no more than one gift parcel from the same donor to the same donee in any one month. Currently, one parcel may be shipped each week. This change is intended to assure that the license is utilized in conformity with its intended purpose, namely the donative provision of gifts between individuals. Specific authorization to exceed this limit may be granted on a case-by-case basis to meet compelling humanitarian concerns (e.g., gifts of medicine to relatives). The Bureau of Export Administration will grant case-by-case exemptions through issuance of a validated license. For clarity, new text is added on appropriateness of items as gifts.

364. ● REMOVAL OF GENERAL LICENSE G-FTZ; EXPORTS OF PETROLEUM COMMODITIES FROM U.S. FOREIGN-TRADE ZONES AND FROM GUAM

Legal Authority: 50 USC 2401; PL 96-72; PL 99-64; PL 100-418; PL 95-223; PL 99-440; EO 12525; EO 12532; EO 12571

CFR Citation: 15 CFR 771; 15 CFR 774; 15 CFR 777

Legal Deadline: None

Abstract: This rule will remove section 771.7 "General license G-FTZ; exports of petroleum commodities from U.S. foreign-trade zones and from Guam." In 1985 the Department eliminated the validated license requirement for petroleum product exports, unless the products were derived from the NPRC. Because petroleum exports from foreign trade zones and Guam now can be sent under section 771.16 "General license G-NNR; shipments of certain Non-Naval reserve petroleum commodities", General license G-FTZ is unnecessary.

Legal Authority: 50 USC 2401

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: U.S. foreign policy opposes the proliferation and use of chemical weapons. Similar controls, however, have not been imposed on the chemical processing equipment that can be used to produce chemical weapon precursors. Despite the absence of controls, the Department of Commerce encourages U.S. industry to be aware of suspicious business transactions involving chemical processing equipment. This advisory note will set guidelines to enable suppliers of such equipment to identify suspicious transactions and react accordingly.

CFR Citation: 15 CFR 787

Legal Deadline: None

Abstract: On March 6, 1989, the Bureau of Export Administration published a proposed rule that would amend the EAR by adding a new section 787.15 addressing voluntary self-disclosure of export violations. After reviewing the comments on the proposed rule, BXA will issue this rule in final form that adds new section 787.15 "Voluntary Self-Disclosure" into the EAR. Section 787.15 sets forth the following: the intent of the new section; limitations under which this new section is applicable; how to provide voluntarily self-disclosed information to the Office

of Export Enforcement; the range of actions OEE could take in response to the received information; criteria used to determine OEE's action; and treatment of unlawfully exported commodities after voluntary self-disclosure.

Abstract: The Bureau of Export Administration is raising the dollar value limit for exemption from the Shipper's Export Declaration (SED) filing requirement for non-mail shipments from $1500 to $2500. This change is being made in accordance with the Bureau of the Census' final rule amending the Foreign Trade Statistics Regulations. This is intended to relieve the processing burden of the Bureau of the Census, which currently receives over 800,000 SED's per month. It is also expected to reduce the exporter's administrative burden by increasing the number of shipments exempt from special documentation requirements.

Abstract: The nomenclature changes made by a final rule March 30, 1989, were based on the transfer of the export control functions from the International Trade Administration to the newly created Bureau of Export Administration. Several nomenclature changes that should have been made in Part 788 were not made at that time. This final rule will make those nomenclature changes to Part 788 and also amends certain statutory references in Part 788 to make them conform with other provisions in the Regulations.

Abstract: The Bureau of Export Administration maintains the Commodity Control List (CCL) which identifies those items subject to Department of Commerce export controls. This rule amends a number of List entries in the categories of general industrial equipment and electronics and precision instruments. Amendments to the multilaterally controlled entries on the CCL (specifically, those Export Control Commodity Numbers (ECCNs) that end with "A") have resulted from a review of strategic controls maintained by the U.S. and certain allied countries through the Coordinating Committee (CoCom). Such multilateral controls restrict the availability of strategic items to controlled countries. With the concurrence of the Department of Defense, the Department of Commerce has determined that these revisions to the CCL are necessary to protect U.S. national security interests. In addition, this rule amends a listing (in Supplement No. 1 to Part 773 of the Export Administration Regulations) of commodities excluded from special export licensing procedures. These amendments reflect commodity decontrols based on previous reviews of (cont)

Abstract: On Friday, May 16, 1986, a notice of proposed rulemaking was published in the Federal Register (51 FR 17986). It sought to provide clarified guidelines for the use of Export Administration Regulation section 779.3, General License GTDA, and invited comments from the public. This final rule will include some of the suggestions made in the public comments on that proposed rule, that generally recognized that the guidelines clarified certain ambiguities in the regulations, and yet will conform with existing Commerce Department interpretations.

Abstract: Under the authority of the Export Administration Act of 1979, the Deputy Assistant Secretary for Export Administration determined on August 18, 1989, that foreign availability exists for prepreg production equipment. However, on September 15, 1989, the President determined that export controls on this equipment must be maintained notwithstanding foreign availability, because their absence would prove detrimental to the national security of the United States.

Legal Authority: 50 USC 2401

CFR Citation: 15 CFR 799

Legal Deadline: None

Abstract: The EAA requires Commerce to conduct quarterly list review of items controlled for national security reasons. Each item on the control list must be reviewed at least once a year. The notice for this list review provided for four review cycles within a 12-month period. Each cycle covers roughly one-fourth of the entries on the control list. The notice provided information about the role of the technical advisory committees in the list review process and about COCOM list review. The notice requested comments on which items met the preconditions to impose controls to the East Bloc, the appropriate performance levels for required COCOM consent for an individual export, and the appropriate availability of special licensing procedures such as the distribution license.

Legal Authority: 50 USC app 2401 et seq

CFR Citation: 15 CFR 779; 15 CFR 785; 15 CFR 799

Legal Deadline: None

Abstract: Section 6 of the Export Administration Act of 1979, as amended, authorizes the imposition of export controls to further the foreign policy of the United States or to fulfill its declared international obligations. Under the Act, foreign policy controls expire annually unless extended. The Secretary of Commerce, following consultation with the Department of State, sent a report to Congress on January 19, 1990, extending all existing foreign policy controls except controls on technical data and equipment for the manufacture of trucks at the Soviet Kama River (Kam AZ) and Zil truck plants. This rule removes the foreign policy controls placed on truck-manufacturing exports whose destination is the Kama River or Zil truck plants in the Soviet Union by amending 15 CFR Parts 779, 785 and 799. In addition, in Commodity Group 3 (General Industrial Equipment) of the Commodity Control List (Supplement No. 1 to 799.1), ECCN 6398G is removed.

Abstract: Under the authority of the Export Administration Act of 1979, as amended (EAA), the Deputy Assistant Secretary for Export Administration determined on November 28, 1989, that foreign availability exists for certain low capacity hard disk drives with a formatted capacity no greater than 45 MB. Action was initiated to submit the determination to a multilateral review process in accordance with the agreement of the Coordinating Committee for a period of not more

than four months beginning on the date of the publication of this Federal Register notice. Current export controls on these items will remain in effect pending completion of the review process, or until further notice.

CFR Citation: 15 CFR 777

Legal Deadline: None

Abstract: This final rule adopts -- with certain minor changes based on public comments -- the revisions made by the interim rule on Alaska crude oil that was published in the Federal Register on January 13, 1989 (54 FR 1349). Section 777.6(d)(1) of the EAR currently permits the export of crude oil for use or consumption in Canada, except for crude oil transported by pipeline over a right-of-way granted pursuant to section 203 of the Trans-Alaska Pipeline Authorization Act (Alaska crude oil) and crude oil from the Naval Petroleum Reserves. The interim rule amended section 777.6 to authorize the export of 50,000 barrels per day of Alaska crude oil to Canada. This final rule will make certain procedural changes. The most significant of these changes is the elimination of the Naval Petroleum Reserve affidavit requirement in section 777.6(e)(2).

Abstract: On September 29, 1989, the Office of Foreign Availability initiated an assessment of availability to the PRC of 12 MFLOPS array processors. The assessment was initiated in response to a certification of foreign availability under EAA section 5(h)(6) by the Computer Systems Technical Advisory Committee (CSTAC). Following review of the completed assessment and consideration of OFA's recommendation and the views of other Government agencies, the Deputy Assistant Secretary for Export Administration determined on December 28, 1989, that foreign availability of such commodities to the PRC does not exist within the meaning of the EAA.

386. REVISIONS TO FIPS 60, 61, 62, 63, 97, AND 111, COMPUTER SYSTEM INPUT/OUTPUT (I/O) INTERFACE STANDARDS

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: None

Legal Deadline: None

Abstract: Revisions to the family of input/output (I/O) interface standards will be proposed to reflect changes in computer technology and to facilitate the interconnection of peripherals to personal and minicomputers. New applicability, implementation and waiver provisions will be proposed to existing interface standards to be effective after January 1, 1990. A transition plan to cover the period from January 1988 to January 1990 will also be proposed.

Abstract: The proposed extensions will adopt American National Standards (both currently draft standards) to the SQL language for relational databases. One proposal (Draft Addendum ISO 9075/DAD 1) provides features for assuring the correctness of data that is organized in SQL databases. The other proposal specifies interfaces between SQL and other programming languages including Ada, C, COBOL, FORTRAN, PASCAL, and PL/I. Use of these extensions will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff skills and training.

410. FEDERAL CONSISTENCY WITH APPROVED COASTAL ZONE MANAGEMENT PROGRAMS

Significance: Regulatory Program

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Legal Deadline: None

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1326. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the Coastal Zone Management Act of 1972, as amended (CZMA), and therefore, that a consistency determination is not required under that section before such sales may be made. Section 307(c)(1) required that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities in a manner which is consistent to the maximum extent practicable with federally approved State coastal zone management programs. NOAA engaged in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA removed those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

Additional Information: NOAA issued a final rule August 31, 1985, making the changes required by the Supreme Court decision, and decided to undertake a comprehensive study of the Federal consistency process. The Draft Study issued April 1985 will assist NOAA in evaluating the need for and consequences of further revision of the Federal consistency regulations. Further revision has been deferred pending review of public comment on the April study, and amendments to the CZMA enacted in 1986. In addition, the CZMA will be reauthorized soon, and amendments to the CZMA may result, which would require further regulatory revision. Based on this review, NOAA will evaluate the need for, and consequences of further revision of the regulations.

Abstract: Section 6 of the Atlantic Striped Bass Conservation Act requires the Secretary of Commerce to implement regulations on striped bass fishing in the Exclusive Economic Zone. Such regulations are to be consistent with the national standards of the Magnuson Act and compliment regulations on striped bass in State waters. Comments were obtained on alternative regulations from various entities through an ANPR. NOAA is pursuing implementation of regulations that would prohibit the harvest of striped bass from the EEZ and prohibit possession of striped bass while fishing in the EEZ.

CFR Citation: 50 CFR 630

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will: (1) set a total allowable catch (TAC) for the U.S. fishery in 1991; (2) prohibit directed swordfishing until the TAC projected for the upcoming year exceeds projected catch by at least 10 percent; (3) prohibit use of lightsticks until directed fishery is reopened; (4) allocate TAC to the bycatch fishery in a manner encouraging vessels to pay for and carry observers; (5) prohibit nighttime longlining after the TAC is reached; (6) prohibit imports of swordfish after the quota is taken and the U.S. fishery is closed; (7) allow a small recreational fishery; (8) set a control date of August 16, 1989; (9) prohibit drift entanglement gillnet fishing for swordfish; and (10) add a definition of "overfishing." Objectives are to: (1) rebuild spawning stock to a level associated with F0.1 fishing mortality, (2) begin stabilizing or reducing number of fishery participants, (3) increase yield per recruit by shifting mortality to larger fish, and (4) encourage complementary international management regimes.

414. AMENDMENT 3 TO THE HIGH SEAS SALMON FISHERY OFF THE COAST OF ALASKA EAST OF 175 E. LONGITUDE

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 674

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will: (1) update the FMP by revising sections containing biological information and catch statistics and correcting minor errors, (2) add sections considering fish habitat and vessel safety, (3) defer regulation of commercial and recreational fisheries in the EEZ off Alaska to the State, (4) continue to allow sport salmon fishing throughout the management area, (5) retain the ban on salmon fishing with nets in both West and East management areas, (6) retain the ban on commercial salmon fishing in the West Area, (7) continue to allow hand-troll and power-troll salmon fishing in the East Area, and (8) add a definition of overfishing.

415. AMENDMENT 4 TO THE PACIFIC COAST GROUNDFISH FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 663; 50 CFR 611.70

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the Pacific Fishery Management Council.

Abstract: Amendment 4 will restructure and update the Pacific Coast Groundfish FMP to make it a more useful and timely document. It also will consider providing the flexibility to address a wider range of problems. The major issues in Amendment 4 will examine quota management, the application of "optimum yield", the ability to impose management measures

for social and economic reasons (as long as the resource will not be jeopardized), deletion of the 30 percent lid on annual in-season increases to ABC and OY, ways to expedite the experimental fishing permit process, and the review and adoption of state regulations.

Abstract: Foreign fishing on the high seas of the central Bering Sea takes excessive amounts of stocks of Alaska pollock which may be shared in the economic zones of the United States and the Soviet Union. The foreign fleets also use such fishing for illegal fishing incursions in the U.S. EEZ under cloud cover and cover of darkness.

Abstract: Amendment 4 measures will provide tighter controls for some of the Gulf of Maine's small-mesh fisheries because of their high discard rates of cod, haddock, pollock, and flounders. Management measures will include: (1) replacing the exempted fisheries program with an experimental fishery; (2) limiting the shrimp fishery to January, February, and March; (3) including silver hake, red hake, and ocean pout as regulated species with the appropriate management measures; (4) implementing a minimum mesh size of 2 1/2 inches in areas outside the regulated mesh area; (5) establishing a Cultivator Shoals whiting fishery; (6) limiting vessels to one mesh onboard; and (7) establishing a seasonal closure in the Nantucket Lightship Area.

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 662

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: The Pacific Fishery Management Council will amend the Fishery Management Plan for Northern Anchovy to modify establishment of quotas from a spawning stock biomass basis to a total standing stock biomass basis. Because unusual environmental conditions can result in large standing stocks with low recruitment/spawning, the reduction fishery can be shut down in the midst of abundant standing stocks. In order to account for such situations, the Council will amend the procedures for determination of harvest allocations.

Significance: Agency Priority

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act; 16 USC 1383b

CFR Citation: 50 CFR 216.15

Legal Deadline: None

Abstract: Based on a review of the best available information on the status of the coastal-migratory stock of bottlenose dolphins in the U.S. Mid-Atlantic, the National Marine Fisheries Service (NOAA Fisheries) is considering the publication of a proposed rule designating this population stock as depleted under the Marine Mammal Protection Act (MMPA). This action is required by the MMPA when a species or population stock falls below its optimum sustainable population (OSP). If this population stock is designated as depleted, the MMPA requires the application of certain additional restrictions on taking and importation, and the preparation and implementation of a conservation plan to restore the stock to OSP. NOAA Fisheries is also requesting any additional scientific information on this action that may be available from interested parties, as required by the MMPA Amendments of 1988.

435. ● REPEALING REGISTRATION PROGRAM THAT HOOK AND LINE VESSELS WOULD HAVE TO PROVIDE BY GOA GROUNDFISH FISHERY

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 672

Legal Deadline: None

Abstract: This rule would repeal the requirements for vessel registration in the sablefish hook-and-line fishery in the Gulf of Alaska. The regulation at 50 CFR 672.6 was useful in prior years for the management of the sablefish fishery. Now, catches by the fleet during the fishing season can be estimated since the number of vessels in the sablefish fleet has stabilized.

Legal Authority: 16 USC 1533

CFR Citation: 50 CFR 226; 50 CFR 227

Legal Deadline: None

Abstract: NMFS proposes to list the Sacramento River Winter-run Chinook salmon as threatened under provisions of the Endangered Species Act. Between 1967 and 1985, the run declined from a 3-year mean run size of about 84,000 fish to a mean run size of less than 3,000 fish. However, the 1989 run was only 500 fish. Currently, the species is listed on an emergency interim basis, which expires April 4, 1990. Portions of the Sacramento River will be designated as critical habitat.

Legal Authority: 16 USC 1361 et seq, Marine Mammal Protection Act

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: The National Marine Fisheries Service is conducting the first comprehensive examination of its permit program for scientific research and public display since the passage of the Marine Mammal Protection Act in 1972 and issuance of permit regulations in 1974 (15 CFR 216). The review encompasses all aspects of permit program policy, procedures, and management concerning marine mammals under the authority of the Marine Mammal Protection Act of 1972, 16 U.S.C. 1361 et seq., and the Endangered Species Act, 16 U.S.C. 1531 et seq. At the conclusion of this permit program review the National Marine Fisheries Service will issue proposed revised regulations governing permits for the taking and importing of marine mammals for scientific research and public display.

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 678

Legal Deadline: NPRM, Statutory. NPRM 15 days after the beginning of a 60-day period for fishery management council's consideration and comment on the Secretarial Plan.

Abstract: The Secretarial Fishery Management Plan establishes a new management program intended to: (1) prevent overfishing of Atlantic Ocean sharks; (2) encourage management of sharks throughout their range; (3) establish a data collection research, and fishery monitoring program; (4) prohibit the practice of "finning"; and (5) optimize benefits and minimize wastes of shark resources. Proposed measures include: (1) a commercial quota; (2) a recreational bag limit; (3) prohibition on "finning"; (4) commercial fishing and dealer permits; (5) prohibition on selling recreational catch; (6) reporting of catch and effort information by commercial vessels and landing and price information by dealers; (7) an annual fishing year beginning June 1 of each year; and (8) a requirement for all fishermen to cut the fishing line for all sharks not taken as part of the quota or bag limit.

440. ● LISTING OF NORTHERN SEA LIONS IN CENTRAL AND WESTERN ALASKA AS THREATENED UNDER THE ENDANGERED SPECIES ACT

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq, Endangered Species Act

CFR Citation: 50 CFR 227

Legal Deadline: None

Abstract: The Endangered Species Act (ESA) requires that a species or population be listed as "threatened" when it is likely to become an endangered species, i.e., is in danger of extinction within the foreseeable future throughout all or a significant portion of its range. A survey of Northern Sea Lion abundance from the Central Aleutian Islands to the Central Gulf of Alaska conducted by the National Marine Fisheries Service (NMFS) in June-July 1989 shows a precipitous decline in numbers (63 percent) since 1985. Compared to estimates in 1960, overall abundance declined in the study area by 82 percent. There are about 53,000 adult and juvenile Northern Sea Lions in Alaskan waters. NMFS is adding Northern Sea Lions west of 141 W longitude in Alaska to the list of threatened species contained in 50 CFR 227.4. Further regulatory action may be required to identify critical habitat needs and conservation measures to prevent further declines. This regulatory action is mandated by statute and should result in the recovery of Northern Sea Lion populations to previous levels.

Legal Authority: 16 USC 1540(f); 16 USC 1361

CFR Citation: 50 CFR 214

Legal Deadline: None

Abstract: This rule will establish a minimum distance for approaches to marine mammals by humans, vessels, aircraft, and thrillcraft. These regulations are considered necessary because of the increasing popularity of whale watching and similar activities. Guidelines have not been effective in protecting marine mammals from this growing industry and from individuals wishing to view these animals too closely. An interim regulation regarding approaching humpback whales in Hawaii is working far better than previously used guidelines.

Legal Deadline: Final, Statutory, December 28, 1988.
Applies only to revision of 15 CFR 917.20 to 917.22.

Abstract: Amendments to the Sea Grant Act require updating of implementing regulations to include:

Replace the "National Needs" program with a "strategic research program," essentially to focus on a more limited number of priority research areas;

Include two types of fellowships not previously recognized by statute and set forth selection procedures;

To update the international program in view of the broader geographic areas and activities authorized;

To provide more specific support for graduate education and interdisciplinary research in marine affairs.

There are no alternatives. Statutory amendments explicitly or implicitly require conforming amendments to the funding regulations. There are no costs involved.

473. LICENSING OF PRIVATE REMOTE SENSING SPACE SYSTEMS

Significance: Regulatory Program

Legal Authority: 15 USC 4244

CFR Citation: 15 CFR 960

Abstract: NOAA has agreed to amend its regulations for licensing private remote sensing space systems in response to a petition by news organizations. Petitioners seek clearer definition of when a license might be restricted because of national security. NOAA will consider ways to provide clarity to reassure potential applicants but will not consider the specific standard proposed by the media, which was rejected during the original rulemaking.

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into categories -- U.S. Grades A, B and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards.

477. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; IMPORTATION OF YELLOWFIN TUNA

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Legal Deadline: None

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas other nations fishing in a similar manner that export tuna to the U.S. often do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna, to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to that of the U.S. These regulations will implement this requirement.

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 222

Legal Deadline: None

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal provides, under limited circumstances, for issuance of permits allowing the incidental taking of endangered species. The proposal applies to certain Federal permit or license holders and to private entities or State or local governments whose actions are not otherwise subject to Federal involvement or control. Prior to the 1982 amendments to the ESA, the taking of endangered species was prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under the proposed regulations would allow permit holders to conduct their activities without risk of prosecution for the incidental take of species authorized by such permits.

Legal Authority: 16 USC 1382(a); 16 USC 1540(f)

CFR Citation: 50 CFR 222.31

Legal Deadline: None

Abstract: This rule will establish as regulation a previously published Notice of Interpretation regarding minimum distances that should be maintained in the presence of humpback whales in Hawaii. Establishing a 100 yard perimeter around any of the whales while in the Hawaiian Exclusive Zone as a regulation is considered necessary given a large increase in vessel traffic and other water use activities in areas where this species historically occurs. In response to comments received in the public record, NOAA is defining two specific sites as cow/calf areas in which an approach closer than 300 yds is prohibited. This addition creates a new subsection to the rule.

Significance: Agency Priority

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 263; 50 CFR 267

Legal Deadline: None

Abstract: This revised rule will expand the coverage of established voluntary standards for grades of fish fillets to include a new market form or style of fillet in which bones are not removed. This style of fillet has become more familiar in the marketplace, resulting in the industry requesting the amendment. Responses to a previous request for comments indicate a national interest in this style of presentation. The amendment will allow this market form, bearing FDA's recommended labeling, to be inspected and reflect the U.S. Grade A mark.

481. AMENDMENT 8 TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SURF CLAM AND OCEAN QUAHOG FISHERIES

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 652

Legal Deadline: NPRM, Statutory. Final, Statutory.

NPRM 15 days and final action 110 days after receipt from the Mid-Atlantic Fishery Management Council.

Abstract: Amendment 8 would address current regulatory restraints on industry designed to conserve the resource. The FMP objectives would be modified to promote economic stability, simplify regulations, and to allow more operational flexibility for the industry. The rule implementing Amendment 8 would: (1) replace the effort limitation system with an annual individual allocation system (allocations initially issued to vessels) in the surf clam and ocean quahog fisheries; (2) remove effort limitations in all areas; (3) combine the Mid-Atlantic, Nantucket Shoals, and Georges Bank Areas to reinstitute common management of the fishery coastwide; and (4) revise the surf clam minimum size limit provision allowing for annual suspension of the size limit.

483. REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR THE ATLANTIC SWORDFISH FISHERY

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 630

Legal Deadline: None

Abstract: This regulatory amendment will modify the present data collection system to require 100 percent mandatory dealer reporting of landings and price for swordfish and incidental species caught in the domestic swordfish fishery. This information is required to determine total fishery landings, fishing effort, and biological data (e.g., size of population, age classes) for stock assessment purposes.

DOC—NOAA **Final Rule Stage**

The regulatory amendment also will (1) clarify the scope of the regulations; (2) modify the requirements and procedures for obtaining a vessel permit; and (3) modify procedures for submitting daily fishing records. The amendment is intended to (1) obtain more timely and accurate data on swordfish (and incidentally caught species) landings, value and size composition of the catch; (2) improve stock assessment capabilities; (3) ensure accountability for information submitted on permit applications; (4) ensure timeliness of information submitted on fishing records; and (5) clarify the intent of the existing regulations.

484. BLUEFISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 628

Legal Deadline: NPRM, Statutory. Final, Statutory.
NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This FMP was prepared jointly by the Mid-Atlantic Fishery Management Council and the Atlantic States Marine Fisheries Commission to promote conservation of Atlantic bluefish by implementing management measures in State, as well as Federal waters. In the commercial fisheries these measures will require a permit for the sale of bluefish and a 20 percent allocation limit and in the recreational fishery a possession limit of ten bluefish per fisherman. This FMP also defines overfishing for bluefish as required by an amendment of 50 CFR Part 602, effective August 23, 1989.

485. ● REGULATORY AMENDMENT TO THE FISHERY MANAGEMENT PLAN FOR THE SHRIMP FISHERY OF THE GULF OF MEXICO

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 658

Legal Deadline: None

Abstract: This rule will modify temporarily the boundary of the Tortugas shrimp sanctuary to reduce the area closed to trawl fishing. This action will enable fishermen to harvest marketable-sized shrimp during specified periods from three small areas that would otherwise be closed.

486. INTERIM EXEMPTION GOVERNING THE INCIDENTAL TAKING OF MARINE MAMMALS DURING COMMERCIAL FISHING OPERATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216

Legal Deadline: NPRM, Statutory, March 23, 1989. Final, Statutory, July 21, 1989. Other, Statutory, January 20, 1989. ANPRM legal deadline was January 20, 1989.

Abstract: 1988 Amendments to Marine Mammal Protection Act direct Secretary of Commerce to establish within 240 days, a 5-year program for exempting commercial fishing operations within the U.S. Exclusive Economic Zone from the Act's prohibition on taking marine mammals. The exemption will require registration of vessels with the National Marine Fisheries Service, reports on interactions with marine mammals and taking Government observers if required.
